Translators Writing Translation Studies:

Telling the Story of Translation Judith Woodsworth, 2017-08-10 Scholars have long highlighted the links between translating and re writing increasingly blurring the line between translations and so called original works Less emphasis has been placed on the work of writers who translate and the ways in which they conceptualize or even fictionalize the task of translation This book fills that gap and thus will be of interest to scholars in linguistics translation studies and literary studies Scrutinizing translation through a new lens Judith Woodsworth reveals the sometimes problematic relations between author and translator along with the evolution of the translator s voice and visibility The book investigates the uses and abuses of translation at the hands of George Bernard Shaw Gertrude Stein and Paul Auster prominent writers who bring into play assorted fictions as they tell their stories of translations Each case is interesting in itself because of the new material analysed and the conclusions reached Translation is seen not only as an exercise and fruitful starting point it is also a way of paying tribute repaying a debt and cementing a friendship Taken together the case studies point the way to a teleology of translation and raise the question what is translation for Shaw Stein and Auster adopt an authorial posture that distinguishes them from other translators They stretch the boundaries of the translation proper their words spilling over into the liminal space of the text in some cases they hijack the act of translation to serve their own ends Through their tales of loss counterfeit and hard labour they cast an occasionally bleak glance at what it means to be a translator Yet they also pay homage to translation and provide fresh insights that continue to manifest themselves in current works of literature By engaging with translation as a literary act in its own right these eminent writers confer greater prestige on what has traditionally been viewed as a subservient art

Translators Writing, Writing Translators Françoise

Massardier-Kenney, Brian James Baer, Maria Tymoczko, 2016 Translators Writing Writing Translators is a collection of essays by some of the leading scholar practitioners working in the field of translation studies Inspired by the work of distinguished translator and theorist Carol Maier the contributors reflect in a variety of forms from biographical essays to studies of fictional translators to reflective commentary on translation projects and collaborations on the complex constantly evolving relationship of theory and practice as embodied in the writing of translators and in the concept of translation as writing The fact that most scholars in translation studies are also practitioners is one of the unique and defining aspects of the discipline Nonetheless the field has long been distinguished by a separation of translation theory and practice evidenced by suspicion among practitioners regarding the relevance of translation theory and reluctance by theoreticians to incorporate translation practice into their theoretical writings Maier s pioneering work stands out as a particularly influential and provocative attempt to rethink and deconstruct the opposition of theory to practice For Maier translation theory becomes a site for the investigation of the translator s personal and professional investments in a foreign author and the translation itself becomes an embodiment of a host of theoretical concerns Considering the translator s biography and credentials is another defining

feature of Maier's work that is discussed in the essays of this volume. The combination of the theoretical and the practical makes this collection of interest to a broad array of readers from scholars and students of translation studies and world literature to translation practitioners and as to general readers interested in questions of translation and cross cultural communication. Rosemary Arrojo, Peter Bush, Ronald Christ, Suzanne Jill Levine, Christi Merrill, Noé Valis, Lawrence Venuti and Kelly Washbourne are just a few of the scholar practitioners contributing to this volume. The introduction by Brian James Baer, Françoise Massardier-Kenney and Maria Tymoczko offers an overview of the central concerns of Maier's work as a writing translator and a translator who writes.

The Translator as Writer Susan Bassnett, Peter Bush, 2007-11-15. Over the last two decades interest in translation around the world has increased beyond any predictions. International bestseller lists now contain large numbers of translated works and writers from Latin America, Africa, India and China have joined the lists of eminent bestselling European writers and those from the global English speaking world. Despite this translators tend to be invisible as are the processes they follow and the strategies they employ when translating. *The Translator as Writer* bridges the divide between those who study translation and those who produce translations through essays written by well known translators talking about their own work as distinctive creative literary practice. The book emphasises this creativity arguing that translators are effectively writers or rewriters who produce works that can be read and enjoyed by an entirely new audience. The aim of the book is to give a proper prominence to the role of translators and in so doing to move attention back to the act of translating away from more abstract speculation about what translation might involve.

Style and Ideology in Translation Jeremy Munday, 2013-05-24. Adopting an interdisciplinary approach this book investigates the style or voice of English language translations of twentieth century Latin American writing including fiction, political speeches and film. Existing models of stylistic analysis supported at times by computer assisted analysis are developed to examine a range of works and writers selected for their literary, cultural and ideological importance. The style of the different translators is subjected to a close linguistic investigation within their cultural and ideological framework.

Translation and Creativity Manuela Perteghella, Eugenia Loffredo, 2007-11-01. *Translation and Creativity* discusses the links between translation and creative writing from linguistic, cultural and critical perspectives through eleven chapters by established academics and practitioners. The relationship between translation and creative writing is brought into focus by theoretical, pedagogical and practical applications complemented by language based illustrative examples. Innovative research and practice areas covered include ideas of self translation and the spaces of reading, mental black boxes and cognition and the book introduces new concepts of transgeneric translation, pop translation and orthographical translation.

Translation - Theory and Practice Daniel Weissbort, Astradur Eysteinnsson, 2006-08-04. *Translation Theory and Practice: A Historical Reader* responds to the need for a collection of primary texts on translation in the English tradition from the earliest times to the present day. Based on an exhaustive survey of the wealth of available materials the Reader demonstrates throughout the link between theory and

practice with excerpts not only of significant theoretical writings but of actual translations as well as excerpts on translation from letters interviews autobiographies and fiction The collection is intended as a teaching tool but also as an encyclopaedia for the use of translators and writers on translation It presents the full panoply of approaches to translation without necessarily judging between them but showing clearly what is to be gained or lost in each case Translations of key texts such as the Bible and the Homeric epic are traced through the ages with the same passages excerpted making it possible for readers to construct their own map of the evolution of translation and to evaluate in their historical contexts the variety of approaches The passages in question are also accompanied by ad verbum versions to facilitate comparison The bibliographies are likewise comprehensive The editors have drawn on the expertise of leading scholars in the field including the late James S Holmes Louis Kelly Jonathan Wilcox Jane Stevenson David Hopkins and many others In addition significant non English texts such as Martin Luther's Circular Letter on Translation which may be said to have inaugurated the Reformation are included helping to set the English tradition in a wider context Related items such as the introductions to their work by Tudor and Jacobean translators or the work of women translators from the sixteenth to eighteenth centuries have been brought together in collages marking particularly important moments or developments in the history of translation This comprehensive reader provides an invaluable and illuminating resources for scholars and students of translation and English literature as well as poets cultural historians and professional translators

Translation Changes Everything

Lawrence Venuti, 2012-12-12 In *Translation Changes Everything* leading theorist Lawrence Venuti gathers fourteen of his incisive essays since 2000 The selection sketches the trajectory of his thinking about translation while engaging with the main trends in research and commentary The issues covered include basic concepts like equivalence retranslation and reader reception sociological topics like the impact of translations in the academy and the global cultural economy and philosophical problems such as the translator's unconscious and translation ethics Every essay presents case studies that include Venuti's own translation projects illuminating the connections between theoretical concepts and verbal choices The texts drawn from a broad variety of languages are both humanistic and pragmatic encompassing such forms as poems and novels religious and philosophical works travel guidebooks and advertisements The discussions all explore practical applications whether writing publishing reviewing teaching or studying translations Venuti's aim is to conceive of translation as an interpretive act with far reaching social effects at once enabled and constrained by specific cultural situations This latest chapter in his developing work is essential reading for translators and students of translation alike

Fictional Translators Rosemary Arrojo, 2017-08-14 Through close readings of select stories and novels by well-known writers from different literary traditions, *Fictional Translators* invites readers to rethink the main clichés associated with translations. Rosemary Arrojo shines a light on the transformative character of the translator's role and the relationships that can be established between originals and their reproductions, building her arguments on the basis of texts such as the following: Cortázar's *Letter to a Young Lady in Paris*, Walsh's *Footnote*, Wilde's *The Picture of Dorian Gray* and Poe's *The Oval Portrait*. Borges's *Pierre Menard*, Author of the *Quixote*, Funes's *His Memory and Death* and the *Compass*, Kafka's *The Burrow* and Kosztolányi's *Kornél*, Esti Saramago's *The History of the Siege of Lisbon* and Babel's *Guy de Maupassant*, Sciar's *Footnotes* and Calvino's *If on a Winter's Night a Traveler*. Cervantes's *Don Quixote*. *Fictional Translators* provides stimulating material for reflection not only on the processes associated with translation as an activity that inevitably transforms meaning but also on the common prejudices that have underestimated its productive role in the shaping of identities. This book is key reading for students and researchers of literary translation, comparative literature and translation theory.

The Oxford Guide to Literature in English Translation Peter France, 2000 This guide highlights the place of translation in our culture, encouraging awareness of the process of translating and the choices involved, making the translator more visible. Concentrating on major writers and works, it covers

translations out of many languages from Greek to Hungarian Korean to Turkish For some works e g Virgil s Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available

Collaborative Translation Anthony Cordingley, Céline Frigau Manning, 2016-12-15 For centuries the art of translation has been misconstrued as a solitary affair Yet from Antiquity to the Middle Ages groups of translators comprised of specialists of different languages formed in order to transport texts from one language and culture to another Collaborative Translation uncovers the collaborative practices occluded in Renaissance theorizing of translation to which our individualist notions of translation are indebted Leading translation scholars as well as professional translators have been invited here to detail their experiences of collaborative translation as well as the fruits of their research into this neglected form of translation This volume offers in depth analysis of rich sometimes explosive relationships between authors and their translators Their negotiations of cooperation and control assistance and interference are shown here to shape the translation of prominent modern authors such as Günter Grass Vladimir Nabokov and Haruki Murakami The advent of printing the cultural institutions and the legal and political environment that regulate the production of translated texts have each formalized many of the inherently social and communicative practices of translation Yet this publishing regime has been profoundly disrupted by the technologies that are currently revolutionizing collaborative translation techniques This volume details the impact that this technological and environmental evolution is having upon the translator proliferating sites and communities of collaboration transforming traditional relationships with authors and editors revisers stage directors actors and readers

On Self-translation Simona Anselmi, 2021-04-09 T00:00:00+02:00 The book explores aspects of self translation an all but exceptional phenomenon which has been practised albeit on the quiet for nearly two thousand years and has recently grown exponentially due to the increasing internationalisation of English and the growing multilingualism of modern societies Starting from the premise that self translation is first and foremost a translational act i e a form of rewriting subject to a number of constraints the book utilises the most valuable methods and findings of translation studies to account for the variety of reasons underlying self translation processes and the diversity of strategies used by self translators The cases studied from Kundera to Ngugi and addressing writers like Beckett Huston Tagore Brink Krog and many others show that the translation methods employed by self translators vary considerably depending on their teloi Nonetheless most self translations display domesticating tendencies similar to those observed in allograph translations which confirms the view that self translators just like normal translators are never free from the linguistic and cultural constraints imposed by the recontextualising of their texts in a new language Most interestingly the study brings to light certain recurring features e g a tendency of author translators to revise their original during the self translation process or after completing it which make self translators privileged authors who can revise their texts in the light of the insights gained while translating

Translating Women Luise von Flotow, 2011-03-08 Feminist theory has been widely translated influencing the humanities and social sciences in many languages and cultures However these theories have not made as much of an impact on the discipline that made their dissemination possible many translators and translation scholars still remain unaware of the

practices purposes and possibilities of gender in translation Translating Women revives the exploration of gender in translation begun in the 1990s by Susanne de Lotbinière Harwood's *Re belle et infidèle* The Body Bilingual 1992 Sherry Simon's *Gender in Translation* 1996 and Luise von Flotow's *Translation and Gender* 1997 Translating Women complements those seminal texts by providing a wide variety of examples of how feminist theory can inform the study and practice of translation Looking at such diverse topics as North American chick lit and medieval Arabic Translating Women explores women in translation in many contexts whether they are women translators women authors or women characters Together the contributors show that feminist theory can apply to translation in many new and unexplored ways and that it deserves the full attention of the discipline that helped it become internationally influential
