Transnational Labour Migration, Remittances and the Changing Family in Asia L. Hoang, B. Yeoh, 2015-05-13 The contributors investigate the inter relationships between migrant remittances and the family in Asia They argue that in the context of Asian transnational labour migration where remittances tend to become a primary currency of care the making or breaking of the family unit is mainly contingent on how individuals handle remittance processes

Transnational Labour Migration, Livelihoods and Agrarian Change in Nepal Ramesh Sunam, 2020-04-15 Through the prism of a Nepali remittance village this book critically examines poverty and livelihood dynamics remade through transnational labour migration and remittances and their interrelationships with land rural labour and agriculture The concept of The Remittance Village emphasises rural people s transnational mobilities as a key feature of contemporary dynamics in many parts of the Global South which are reconfiguring rural social economic and ecological textures Sunam challenges complacent linear narratives that assume new opportunities such as transnational migration and remittances provide better pathways for the rural poor to come out of poverty as well as narratives that understate the importance of land and farming for the rural poor He demonstrates both that new opportunities are inaccessible for many poor people and that accessing these opportunities often engenders increased precarity and vulnerability In The Remittance Village he finds that even those accessing new opportunities are successful only when their household member s are simultaneously engaged in in situ non agricultural activities This book is a valuable resource for scholars and students from a range of interdisciplinary backgrounds including human geography anthropology of development and sociology It is also recommended reading for policy makers international development agencies and I NGOs working on rural development in the Global South Chapter 3 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Women, Gender, Remittances and Development in the Global South Ton van Naerssen, Lothar Smith, Marianne H. Marchand, 2016-03-09 This book endeavours to take the conceptualisation of the relationship between transnational remittance exchanges and gender to a new level Thus inevitably it provides a number of case studies of relationships between gender and remittances from around the world highlighting different processes and practises Thereby the authors seek to understand the impact of remittances on gender and gender relations both at the sending as well as at the receiving end For each case study authors ask how remittances affect gender identities and relationships but also vice versa By itself

this already adds a wealth of insights to a field that is remarkably understudied despite a volume of studies on gender and the feminization of migration in developing contexts Chapters take an open explorative approach to the relationship between gender and remittance behaviour with the aid of case studies focusing on transnational flows between migrants and countries of origin With the wide variety of cases this book is able to provide conceptual insights to better understand how remittances affect gender identity roles and relations at both the receiving and sending end and give specific attention to the roles of various actors directly and indirectly involved in remittance sending in current collectively organized remittance schemes from around the world **Handbook on Transnationalism** Yeoh, Brenda S.A., Collins, Francis L., 2022-01-18

Political Ecologies of COVID-19 Andrea J. Nightingale, Seema Arora-Jonsson, Nitin Devdas Rai, Juanita Sundberg, 2023-08-02 By March 2020 COVID 19 had affected nearly every community on earth either with infections or with mobility restrictions Significant peer reviewed research effort has gone into understanding the virus and its spread mainly from an epidemiological and medical perspective Political ecologists have been somewhat critical of such analyses because of their failure to understand the sociality of COVID 19 and its emergence They emphasise the need to look for how the virus has acted upon inclusions and exclusions and current cleavages in society despite the fact that it can potentially attack anyone anywhere Commentaries have therefore drawn attention to the more than human assemblages that allowed COVID 19 to infect humans global food chains and capitalism and social inequalities that underpin uneven exposure and access to health care In this Research Topic we seek papers that engage with political ecologies of COVID 19 We welcome articles that are based on empirical research in specific contexts attempting to understand the impacts of the viral

outbreak as well as articles which lay out research agendas for political ecologies of COVID 19 What questions need to be asked What does it mean to take a socio-natural and political ecological approach What can we learn from the state's response in different places How can such analyses add to the global conversation about the pandemic **The Routledge Handbook of Smuggling** Max Gallien, Florian Weigand, 2021-12-21 The Routledge Handbook of Smuggling offers a comprehensive survey of interdisciplinary research related to smuggling reflecting on key themes and charting current and future trends Divided into six parts and spanning over 30 chapters the volume covers themes such as mobility borders violent conflict and state politics as well as looks at the smuggling of specific goods from rice and gasoline to wildlife weapons and cocaine Chapters engage with some of the most contentious academic and policy debates of the twenty first century including the historical creation of borders re bordering the criminalisation of migration and the politics of selective toleration of smuggling As it maps a field that contains unique methodological ethical and risk related challenges the book takes stock not only of the state of our shared knowledge but also reflects on how this has been produced pointing to blind spots and providing an informed vision of the future of the field Bringing together established and emerging scholars from around the world The Routledge Handbook of Smuggling is an indispensable resource for students and researchers of conflict studies borderland studies criminology political science global development anthropology sociology and geography

The Asian Migrant's Body Michiel Baas, 2025-10-01 The Asian Migrant's Body Emotion Gender and Sexuality brings together papers that investigate the way Asian migrants experience think about perceive and utilize their bodies as part of the journeys they have embarked on In exploring how bodies are physically and symbolically marked by migration experiences this edited volume seeks to move beyond the immediate effects of hard labour and potentially exploitative or abusive situations It shows that migrants are not only on the receiving end where it concerns their bodies nor are their bodies only utilized for their work as migrants they also seek control over their bodies and to make them part of strategies to express themselves The collective papers in The Asian Migrant's Body argue that the body itself is a primary site for understanding how migrants reflect on and experience their migration trajectories **Linked Lives** Michele Ruth Gamburd, 2020-11-13 When youth shake off their rural roots and middle aged people migrate for economic opportunities what happens to the grandparents left at home Linked Lives invites readers into homes in a Sri Lankan Buddhist village to find out how elders face the challenges of a rapidly globalizing world *Money and Moralities in Contemporary Asia* Lan Anh Hoang, Cheryll Alipio, 2025-10-01 Money and Moralities in Contemporary Asia provides original nuanced insights into social meanings of money and wealth in moral economies of Asia Through case studies from South and Southeast Asia the collection sheds important light on how the new mobilities and wealth created by neoliberal globalization transform people's ways of life notions of personhood and their meaning making of the world It highlights the moral dilemmas and anxieties emerging from the profound socio-economic transformations that are taking place across the region and deepens our

understanding of local cultures as well as the inner contradictions of global capital in Asian contexts With rich ethnographic insights and a diverse range of empirical contexts chapters in this volume reveal multifaceted complexities and contradictions in the relationship between money and moralities Money they affirm is not an impersonal objective economic instrument with homogenizing powers but a culturally constructed and socially mediated currency in which meanings are constantly contested and re negotiated across time and space

The Anthropological Demography of Health Véronique Petit,Kaveri Qureshi,Yves Charbit,Philip Kreager,2020-10-30 The anthropological demography of health as a field of interdisciplinary population research has grown from the 1990s extending to a remarkable range of key human and policy issues including genetic disorders nutrition mental health infant child and maternal morbidity malaria HIV AIDS disability and chronic diseases new reproductive technologies and population ageing By observing group formation and change over time tracking people s networks and observing variance between what people say and do anthropological demography goes beyond the characteristically top down formal methodologies of most mainstream socio economic demography and population health This path breaking volume charts and integrates the growing body of research that combines ethnography with quantitative models and methods in the field of population health It offers a clear agenda based on important conceptual and methodological advances and often working in close collaboration with medical and historical research Approaches to population that are grounded in sustained ethnographic and historical research provide more than substantive knowledge of how cultural and social formations interact with health They enable understanding of how local institutions and experience of vital events come to be translated into the demographic and health measures on which survey and clinical programmes rely This in turn makes possible critical evaluation of the empirical adequacy of such translation reflection on what happens when these models and measures become standardised evaluations of health statuses and what this implies for governance The combination of anthropological demographic historical and biological research has gone beyond the initial demographic prioritisation of fertility regulation to take on an expanded range of key health policy issues and locate them in the context of the inequalities that so frequently give rise to major health differentials The Anthropological Demography of Health offers a clear agenda for the application and extension of combined anthropological and demographic thinking in population health and will provide a point of reference for the field

Collantes,2017-10-17 This text addresses the Philippines historical and contemporary reproductive politics offering a timely insight into the rich reproductive lives of Filipinos It critically explores stories of sexuality religiosity and reproductive livelihoods during the immediate aftermath of the passing of the Responsible Parenthood and Reproductive Health Act of 2012 after more than fifteen years of opposition by the Philippine Catholic Church Commonly called the RH Law it aims to provide public access to reproductive and family planning services for Filipino women and men especially those from poorer communities who often experience unwanted pregnancies complications from illegal abortions and exacerbated economic

hardship This book explores the intimate and urban after effects of globalization and how they shape the reproductive dilemmas of Filipinos in Metropolitan Metro Manila It constructs a balanced portrait of the country s reproductive politics within Metro Manila s rapidly changing terrains showing how reproductive dilemmas are produced within a context that is at once fraught by conservative religious discourse and also rapidly globalizing and where aspects of intimate lives have become both transnational and fragmented **The Routledge Companion to Modernity, Space and Gender** Alexandra Staub,2018-03-09 The Routledge Companion to Modernity Space and Gender reframes the discussion of modernity space and gender by examining how modernity has been defined in various cultural contexts of the twentieth and twenty first centuries how this definition has been expressed spatially and architecturally and what effect this has had on women in their everyday lives In doing so this volume presents theories and methods for understanding space and gender as they relate to the development of cities urban space and individual building types such as housing work spaces or commercial spaces in both the creation of and resistance to social transformations and modern global capitalism The book contains a diverse range of case studies from the US Europe the UK and Asian countries such as China and India which bring together a multiplicity of approaches to a continuing and common issue and reinforces the need for alternatives to the existing theoretical canon

International Handbook on Gender and Demographic Processes Nancy E. Riley,Jan Brunson,2018-05-02 This handbook presents a comprehensive and up to date overview of gender in demography addressing the many different influences of gender that arise from or influence demographic processes It collects in one volume the key issues and perspectives in this area whereby demography is broadly defined The purpose in casting a wide net is to cover the range of work being done within demography but at the same time to open up our perspectives to neighboring fields to encourage better conversations around these issues The chapters in this handbook carefully document definition and measurement issues and take up parts of the demographic picture and focus on how gender plays a role in outcomes In other cases gender often plays a cross cutting role in social processes rather than having a single or easily distinguishable role it often combines with other social institutions and even other statuses and inequalities to affect outcomes Thus a key factor in this volume is how gender interacts with race ethnicity class nationality and sexuality in any demographic setting While each section contains chapters that are broad overviews of the current state of knowledge and behavior the handbook also includes chapters that focus on specific cultures or events in order to examine how gender operates in a particular circumstance *Families, Intimacy and Globalization* Raelene Wilding,2018-03-13 Growing numbers of partners parents children grandchildren and siblings are living far away from each other yet their opportunities to stay in touch have never been greater Smartphones tablets and personal computers are used by parents in London to care for their children in the Philippines Refugees use phones and international transfers to send money and support to parents overseas Funerals weddings and anniversaries prompt return visits by plane and are streamed online to kin around the world The mechanisms and processes of globalization are

transforming the ways in which people do and think about their families Families Intimacy and Globalization examines their experiences charting the tensions between the freedoms and choices of late modern individuals on the one hand and the constraints of relational ties of love and obligation on the other which produce the floating ties of global families and intimate relationships Using detailed examples from all corners of the globe and across the life course from internet dating to parenting to aged care this thought provoking book examines the transformation of relationships by the processes of migration and the cultural and economic flows that are central to globalization

The Cambridge Handbook for the Anthropology of Gender and Sexuality Cecilia McCallum, Silvia Posocco, Martin Fotta, 2023-10-19 The tense but enduring engagement between anthropology and gender and sexuality studies has had profound effects upon anthropological theory and practice Bringing together contributions from an international team of authors this Handbook shows that anthropological work has taken inspiration from feminist and LGBTQI movements to create a transformative body of research It provides an accessible state of the art overview of the anthropology of gender and sexuality whilst also documenting its historical emergence highlighting the varied impact gender and sexuality studies have had on anthropological theory It is split into five parts with each chapter introducing a contemporary anthropological theory through in depth ethnographical discussion It features intersectional black and indigenous authors providing a forum for established and emerging voices to gesture towards futures of anthropology of gender and sexuality Authoritative and cutting edge it is essential reading for researchers and students in anthropology and will set the agenda for future research in the field
