Smith, 2012-06-13 Tourism one of the world's largest industries has long been appreciated for its economic benefits but in this volume tourism receives a unique systematic scrutiny as a medium for cultural exchange Modern developments in technology and industry together with masterful advertising have created temporarily leisured people with the desire and the means to travel They often in turn effect profound cultural change in the places they visit and the contributors to this work all attend to the impact these guests have on their hosts In contrast to the dramatic economic transformations the social repercussions of tourism are subtle and often recognized only by the indigenous peoples themselves and by the anthropologists who have studied them before and after the introduction of tourism The case studies in *Hosts and Guests* examine the five types of tourism historical cultural ethnic environmental and recreational and their impact on diverse societies over a broad geographical range **Emerging Infectious Diseases**, 2013 **Traveling with Sugar** Amy Moran-Thomas, 2019-11-26 *Traveling with Sugar* reframes the rising diabetes epidemic as part of a five hundred year old global history of sweetness and power Amid eerie injuries changing bodies amputated limbs and untimely deaths many people across the Caribbean and Central America simply call the affliction sugar or as some say in Belize traveling with sugar A decade in the making this book unfolds as a series of *crónicas* a word meaning both slow moving story and slow moving disease It profiles the careful work of those still fighting it as they grapple with unequal material infrastructures and unsettling dilemmas Facing a new incarnation of blood sugar these individuals speak back to science and policy misrecognitions that have prematurely cast their lost limbs and deaths as normal Their families arts of maintenance and repair illuminate ongoing struggles to survive and remake larger systems of food land technology and medicine
