Beyond Trawlertown Jo Byrne, 2021-12-14 *Beyond Trawlertown* takes a journey through the British distant water fishery and its port city connections in an era of disruption In 1976 defeat in the Anglo Icelandic Cod Wars saw the British trawling fleet excluded from their traditional hunting grounds Combining with wider global factors the move brought an end to long established trawling practices with profound social economic and cultural repercussions Through a case study of the port of Hull oral history and archival research explore the challenges responses and legacy of rapid change Although the emphasis is on Hull this is far from a local history Hull s position among the world leading distant water pioneers gives the story international significance Focusing on memory lived experience and place the book goes beyond established narratives Personal acts of remembering offer cultural perspectives on how global events and marine policy impact upon the seafaring communities that live with the consequences The Cod Wars signaled an end yet amid the disruption there were also new beginnings And in the wake of an active fishery the rhythms of the past continue to resonate in the negotiation of fishing heritage within the contemporary city Through the convergence of time place and memory this holistic narrative of interweaving stories reveals the intricacies of our human interaction with the marine environment and the aftermath when its threads are broken

St Kilda and the Wider World Andrew Fleming, 2005-12-01 Forty miles out into the Atlantic from the western isles of Scotland lies the archipelago of St Kilda Home to human populations for more than 4000 years the islands inhabitants were evacuated from the main island in 1930 leaving it as a haven for wildlife a tourist destination and workplace for those studying and monitoring the islands ecology and its radar station built in the 1950s Many of those writing about St Kilda have emphasised the remoteness and insularity of its environment describing its population as having endured a wretched and isolated existence marooned on an archipelago miles from civilisation In this book Andrew Fleming challenges such interpretations His history of the islands reviews the archaeological evidence for the first inhabitants before 2000 BC how they lived and survived and how they became integrated into the wider world Much of the book focuses on more recent times where documentary sources relay in great detail the lives of St Kildans over the past few centuries how they farmed administered justice took on communal responsibilities their religious and other beliefs the impact of visitors to the islands and how events

outside of the islands had an impact on their lives Described as a historical drama this is an excellent story of a remote island community which has been mythologised by many commentators Superb photographs do much of the work of description

Troelstra,2017-06-01 Anne Troelstra s fine bibliography is an outstanding and ground breaking work He has provided the academic world with a long needed bibliographical record of human endeavour in the field of the natural sciences The travel narratives listed here encompass all aspects of the natural world in every part of the globe but are especially concerned with its fauna flora and fossil remains Such eyewitness accounts have always

fascinated their readers but they were never written solely for entertainment fragmentary though they often are these narratives of travel and exploration are of immense importance for our scientific understanding of life on earth providing us with a window on an ever changing and often vanishing natural world Without such records of the past we could not track document or understand the significance of changes that are so important for the study of zoogeography With this book Troelstra gives us a superb overview of natural history travel narratives The well over four thousand detailed entries ranging over four centuries and all major western European languages are drawn from a wide range of sources and include both printed books and periodical contributions While no subject bibliography by a single author can attain absolute completeness Troelstra s work is comprehensive to a truly remarkable degree The entries are arranged alphabetically by author and chronologically by the year of first publication under the author s name A brief biography with the scope and range of their work is given for each author every title is set in context the contents including illustrations are described and all known editions and translations are cited In addition there is a geographical index that cross refers between authors and the regions visited and a full list of the bibliographical and biographical sources used in compiling the bibliography

The Wartime Journals Hugh Trevor-Roper,2011-10-01 As a British Intelligence Officer during World War II Hugh Trevor Roper was expressly forbidden

from keeping a diary due to the sensitive and confidential nature of his work However he confided a record of his thoughts in a series of slender notebooks inscribed OHMS On His Majesty s Service The Wartime Journals reveal the voice and experiences of Trevor Roper a war time backroom boy who spent most of the war engaged in highly confidential intelligence work in England including breaking the cipher code of the German secret service the Abwehr He became an expert in German resistance plots and after the war interrogated many of Hitler s immediate circle investigated Hitler s death in the Berlin bunker and personally retrieved Hitler s will from its secret hiding place The posthumous discovery of Trevor Roper s secret journals unknown even to his family and closest confidants is an exciting archival find and provides an unusual and privileged view of the Allied war effort against Nazi Germany At the same time they offer an engaging sometimes mischievous and reflective study of both the human comedy and personal tragedy of wartime *The Economist* ,2003
