Kaplan,2009-01-01 Baudelaire's Prose Poems is the first full length integral study of the fifty prose poems Baudelaire wrote between 1857 and his death in 1867 collected posthumously under the title *Le Spleen de Paris* Edward Kaplan resurrects this neglected masterpiece by defining the structure and meaning of the entire collection which Kaplan himself has translated as *The Parisian Prowler* Engaging in a dialogue with deconstructionists whose critical methods often obscure the meaning of the whole Kaplan rejects the view of prose poems as a random assemblage of melodic rhapsodies Instead he sees a coherent ensemble of fables of modern life that join lyricism and critical self awareness Kaplan defines three dimensions of experience that inform *The Parisian Prowler* from beginning to end the esthetic includes art ideal beauty and especially the intense immediacy of sensations fantasy and dream the ethical includes principles of right and wrong relations between intimates or between individuals and the community and the religious not to be confused with church or

dogma points to the province of ultimate reality whether it be God or an absolute standard of truth justice and meaning These dimensions are explored by a narrator a complex highly self conscious writer whose passion for pure Beauty continually frustrates his yearning for affection He begins his tour through 1850s Paris alienated from reality becomes aggravated by conflicts between his ethical and esthetic drives to the point of despair and ends by expressing loyal friendship Analyzing the fables in relation to one another in pairs or groups Kaplan demonstrates how later pieces intermingle or even confuse the narrator s esthetic and ethical drives and how the most advanced theoretical fables through ironic puns on their form further undermine this simplistic dualism Baudelaire s fables of modern life radically challenge us to examine our presuppositions Kaplan argues Though rarely didactic the narrator s Socratic irony engages readers in a volatile dialogue provoking them to form their own judgments He often betrays self destructive anger rebelling against injustice or stupidity or against women who might love him At times he insults our complacency and self deception with vicious glee at other times he recognizes his own frailty nurturing a sense of fellowship with the oppressed Seeking both to analyze experience objectively and to sympathize with isolated individuals like himself Baudelaire s narrator joins criticism and poetry in a voyage of self discovery finally accepting experience as impure and mixed Kaplan contends that the prose poems constitute a genre parallel to the poems Baudelaire added to the 1861 edition of *Les Fleurs du Mal* both of which illustrate fundamental principles of the theory of modernity he developed in his essays on art The self reflective fables in *The Parisian Prowler* depicting a way of thinking beyond ideologies clarify Baudelaire s development as poet critic and thinker
