Wired Cities William H. Dutton, Jay G. Blumler, Kenneth L. Kraemer, 1987 **Imagining Cities** Sallie Westwood, John M. Williams, 2018-05-11 First published in 1997 *Imagining Cities* gives students access to the most exciting recent work on the city from within sociology, cultural studies and cultural geography. Contributions are grouped around four major themes: The theoretical imagination, Ethnic diversity and the politics of difference, Memory and nostalgia, The city as narrative. The book considers the interplay of past and present, imagined and substantive, and links present and future in examining the idea of the virtual city. Here the world of cyberspace not only recasts views of space and communication but has a profound impact on the sociological imagination itself.

The Cybercities Reader Stephen Graham, 2004 Providing the most comprehensive international and interdisciplinary analysis yet of the relationships between cities, urban life and new technologies, this informative book incorporates detailed discussions of cybercity, history, theory, economic processes, mobilities, physical forms, social and cultural worlds, digital divides, public domains, strategies, politics and futures. The book includes coverage of post-modern technoculture, virtual reality and the body, global city, economies, urban surveillance, e-commerce, teleworking, community informatics, digital architecture, urban technology, strategies and the role of cities and new technologies in the war on terrorism. The first interdisciplinary book to address the complex interrelationships between the use and application of electronic technologies and practices and processes of contemporary metropolitan life, this key text adopts a uniquely international perspective. Detailed case studies include virtual cities in Amsterdam, Internet cabins in Lima, back offices in Jamaica and smart highways in Melbourne. An excellent teaching aid with part sections and individual extracts, introductions, this outstanding book provides an up-to-date snapshot of how policies for cities and cyberspaces are being combined across the world.

Handbook of Big Data Privacy Kim-Kwang Raymond Choo, Ali Dehghantanha, 2020-03-18 This handbook provides comprehensive knowledge and includes an overview of the current state of the art of Big Data Privacy with chapters written by international world leaders from academia and industry working in this field. The first part of this book offers a review of security challenges in critical infrastructure and offers methods that utilize artificial intelligence (AI) techniques to overcome those issues. It then focuses on big data security and privacy issues in relation to developments in the Industry 4.0 Internet of Things (IoT).
