Witchcraft Violence And Democracy In South Africa:

Witchcraft, Violence, and Democracy in South Africa Adam Ashforth, 2005-01-15 Large numbers of people in Soweto other parts of South Africa live in fear of witchcraft presenting complex unique problems for the government Adam Ashforth explores the challenge of occult violence the spiritual insecurity that it engenders to democratic rule in South Africa *New Perspectives in Political Ethnography* Lauren Joseph, Matthew Mahler, Javier Auyero, 2007-09-20 The use of ethnographic research social research based on the observation of individuals or institutions where the researcher becomes part of the group or very close to the group to better understand their actions is becoming more and more of a prevalent methodology within sociology As ethnography gains prominence within the discipline its focus theoretical underpinnings and narrative styles are also expanding to the yet unexamined worlds and institutions of society Politics political institutions and those working in politics state officials politicians and activists have so far missed the lens of the ethnographer As a group politicians and those in politics can be found in every corner of the world While political systems and politicians are by no means the same in every country what brings these people together to be part of the political process Ethnography is uniquely equipped to look microscopically at the foundations of political institutions and their attendant set of practices just as it is ideally suited to explain why political actors behave the way they do and to identify the causes processes and outcomes that are part and parcel of political life The volume based on a special issue of Qualitative Sociology has a two fold purpose to bring politics into the ethnographic literature and of ethnography in studies of politics The case studies included are based on the research of ethnographers studying the various level of politics in Brazil Japan El Salvador Bosnia the Philippines India and the United States It will be of interest to those in the sociology of politics political science and those looking for ethnographic research on a global level **Witchcraft, Violence and Democracy in the New South Africa** Adam Ashforth, 1998 **The Witch** Ronald Hutton, 2017-08-01 This magisterial account explores the fear of witchcraft across the globe from the ancient world to the notorious witch trials of early modern Europe The Guardian UK The witch came to prominence and often a painful death in early modern Europe yet her origins are much more geographically diverse and historically deep In The Witch historian Ronald Hutton sets the European witch trials in the widest and deepest possible perspective and traces the major historiographical developments of witchcraft Hutton a renowned expert on ancient medieval and modern paganism and witchcraft beliefs combines Anglo American and continental scholarly approaches to examine attitudes on witchcraft and the treatment of suspected witches across the world including in Africa the Middle East South Asia Australia and the Americas and from ancient pagan times to current interpretations His fresh anthropological and ethnographical approach focuses on cultural inheritance and change while considering shamanism folk religion the range of witch trials and how the fear of witchcraft might be eradicated A panoptic penetrating book Malcolm Gaskill London Review of Books *Law and Disorder in the Postcolony* Jean Comaroff, John L. Comaroff, 2008-09-15 Are postcolonies haunted more

by criminal violence than other nation states The usual answer is yes In *Law and Disorder in the Postcolony* Jean and John Comaroff and a group of respected theorists show that the question is misplaced that the predicament of postcolonies arises from their place in a world order dominated by new modes of governance new sorts of empires new species of wealth an order that criminalizes poverty and race entraps the south in relations of corruption and displaces politics into the realms of the market criminal economies and the courts As these essays make plain however there is another side to postcoloniality while postcolonies live in states of endemic disorder many of them fetishize the law its ways and its means How is the coincidence of disorder with a fixation on legalities to be explained *Law and Disorder in the Postcolony* addresses this question entering into critical dialogue with such theorists as Benjamin Agamben and Bayart In the process it also demonstrates how postcolonies have become crucial sites for the production of contemporary theory not least because they are harbingers of a global future under construction

Cursed Britain Thomas Waters, 2019-01-01 The definitive history of how witchcraft and black magic have survived through the modern era and into the present day *Cursed Britain* unveils the enduring power of witchcraft curses and black magic in modern times Few topics are so secretive or controversial Yet whether in the 1800s or the early 2000s when disasters struck or personal misfortunes mounted many Britons found themselves believing in things they had previously dismissed dark supernatural forces Historian Thomas Waters here explores the lives of cursed or bewitched people along with the witches and witch busters who helped and harmed them Waters takes us on a fascinating journey from Scottish islands to the folklore rich West Country from the immense territories of the British Empire to metropolitan London We learn why magic caters to deep seated human needs but see how it can also be abused and discover how witchcraft survives by evolving and changing Along the way we examine an array of remarkable beliefs and rituals from traditional folk magic to diverse spiritualities originating in Africa and Asia This is a tale of cynical quacks and sincere magical healers depressed people and furious vigilantes innocent victims and rogues who claimed to possess evil abilities Their spellbinding stories raise important questions about the state's role in regulating radical spiritualities the fragility of secularism and the true nature of magic

Readings in African Politics Tom Young, 2003
New Histories of South Africa's Apartheid-Era Bantustans Shireen Ally, Arianna Lissoni, 2017-06-26 The bantustans or homelands were created by South Africa's apartheid regime as ethnically defined territories for Africans Granted self governing and independent status by Pretoria they aimed to deflect the demands for full political representation by black South Africans and were shunned by the anti apartheid movement In 1972 Steve Biko wrote that politically the bantustans are the greatest single fraud ever invented by white politicians With the end of apartheid and the first democratic elections of 1994 the bantustans formally ceased to exist but their legacies remain inscribed in South Africa's contemporary social cultural political and economic landscape While the older literature on the bantustans has tended to focus on their repressive role and political illegitimacy this edited volume

offers new approaches to the histories and afterlives of the former bantustans in South Africa by a new generation of scholars This book was originally published as various special issues of the South African Historical Journal **African Sociological Review** ,2005 **Wisconsin Women's Law Journal** ,2006 *Oral History in a Wounded Country* Philippe Denis,Radikobo Ntsimane,2008 With the end of apartheid and the exciting but elusive advent of a new nation South Africa is witness to the emergence of a new generation of oral historians whose aim is to develop a broader more inclusive and culturally sensitive understanding of the South African past In a country still wounded by a legacy of racial discrimination the retrieving of oral memories is a task more urgent than ever *Oral History in a Wounded Country* shows how the cultural political socio economic and intellectual evolutions that gave birth to South Africa as we know it today affect the oral history process It will help practitioners whether they use oral history as one technique among others to gain a better knowledge of the past or envisage oral history as an academic discipline in its own right to reflect critically on their practice and find better ways of handling the interview process The challenge is to appreciate the complexity of South Africa s diverse histories while being attentive to the dynamics of the interview and their effect on both interviewers and interviewees sense of identity *Poverty Knowledge in South Africa* Dorothy Grace Davie,2005 *Africa* Charles H. Cutter,2006-08 *Journal of Religion in Africa* ,2007 *New Encyclopedia of Africa* John Middleton,2008 Contains a collection of alphabetically arranged entries from Nairobi to Symbols on the history geography culture religion and ideologies wars and economy of the African nations and includes essays and photographs **Africa Today** ,2008 *Signal and Noise* Brian Larkin,2008-03-31 Examines the role of media technologies in shaping urban Africa through an ethnographic study of popular culture in northern Nigeria

Gender, Race, Power, and Religion Uta Theilen,2005 This book addresses the evolving structure of the three traditional women s organisations of the Methodist Church in post apartheid South Africa and the experiences of women in leadership roles within the church These organisations are still more or less divided along racial lines The aim of the fieldwork carried out from 1995 to 1997 and in 2000 was to find out if these racial boundaries would begin to dissolve and if women would find more empowerment in their congregations after the democratisation of the country Further topics are the renaissance of African traditions and religious practices that came about with the end of apartheid The methodology follows an ethnographic approach that relies heavily on interviews and participant observation with the analysis bringing South African women s voices to bear on these issues rather than providing an external and analytical analysis of the issues WITCHES, WESTERNERS, AND HIV Alexander Rödlach,2006-10-15 A witch s curse an imperialist conspiracy a racist plot Alexander R dlach draws on a decade of research and work in Zimbabwe to compare local beliefs about the cause of the HIV AIDS epidemic in Africa and the impact of these beliefs on public health and advocacy programs
