Within And Without Empire Scotland Across The Postcolonial Borderline:

Within and Without Empire Theo van Heijnsbergen, Carla Sassi, 2014-01-08 The concept of the border evoked by the title of the present volume provides a central interpretative key for our project at more than one level as it is suggestive both of Scotland as a theoretical borderland in relation to the Empire and postcoloniality and of our attempt at bringing into dialogue scholars from different disciplinary backgrounds including Scottish Celtic and postcolonial studies The Scotland of the present volume's title is thus suggestive of a critical standpoint Scotland and the Caribbean, c.1740-1833 Michael Morris, 2015-03-12 This book participates in the modern recovery of the memory of the long forgotten relationship between Scotland and the Caribbean Drawing on theoretical paradigms of world literature and transnationalism it argues that Caribbean slavery profoundly shaped Scotland's economic social and cultural development and draws out the implications for current debates on Scotland's national narratives of identity Eighteenth to nineteenth century Scottish writers are re-examined in this new light Morris explores the ways that discourses of improvement in both Scotland and the Caribbean are mediated by the modes of pastoral and georgic which struggle to explain and contain the labour conditions of agricultural labourers both free and enslaved The ambivalent relationship of Scottish writers including Robert Burns to questions around abolition allows fresh perspectives on the era Furthermore Morris considers the origins of a hybrid Scottish Creole identity through two nineteenth century figures Robert Wedderburn and Mary Seacole The final chapter moves forward to consider the implications for post devolution post referendum Scotland Underpinning this investigation is the conviction that collective memory is a key feature which shapes behaviour and beliefs in the present the recovery of the memory of slavery is performed here in the interests of social justice in the present **Medievalia et Humanistica, No. 41** Reinhold F. Gleij, Maik Goth, 2015-12-17 Since its founding in 1943 Medievalia et Humanistica has won worldwide recognition as the first scholarly publication in America to devote itself entirely to medieval and Renaissance studies Since 1970 a new series sponsored by the Modern Language Association of America and edited by an international board of distinguished scholars and critics has published interdisciplinary articles In yearly hardcover volumes the new series publishes significant scholarship criticism and reviews treating all facets of medieval and Renaissance culture history art literature music science law economics and philosophy Volume 41 is a special issue which features twelve outstanding articles from the International Conference on Medieval and Renaissance Scottish Language and Literature Recovering Scotland's Slavery Past Tom M. Devine, 2015-09-17 For more than a century and a half the real story of Scotland's connections to transatlantic slavery has been lost to history and shrouded in myth There was even denial that the Scots unlike the English had any significant involvement in slavery Scotland saw itself as a pioneering abolitionist nation untainted by a slavery past This book is the first detailed attempt to challenge these beliefs Written by the foremost scholars in the field with findings based on sustained archival research the volume systematically peels away the mythology and radically revises the traditional picture In doing so

the contributors come to a number of surprising conclusions Topics covered include national amnesia and slavery the impact of profits from slavery on Scotland Scots in the Caribbean sugar islands compensation paid to Scottish owners when slavery was abolished domestic controversies on the slave trade the role of Scots in slave trading from English ports and much else The book is a major contribution to Scottish history to studies of the Scots global diaspora and to the history of slavery within the British Empire It will have wide appeal not only to scholars and students but to all readers interested in discovering an untold aspect of Scotlands past *Empires and Revolutions* Carla Sassi,Silke Stroh,2017 The European age of empires began the process of globalisation It is also inextricably linked with revolutionary discourses emancipation political independence and economic equality These essays explore the expression of these ideas in the works of R B Cunninghame Graham 1852 1936 and of other Scottish writers of the period
