Wits Guide 2015 For Undergraduatr Application:

Understanding the Higher Education Market in Africa Emmanuel Mogaji, Felix Maringe, Robert Ebo Hinson, 2020-03-06
This book offers theoretical and practical insights into the marketing of higher education in Africa. It explores the key players, challenges, and policies affecting higher education across the continent, their marketing strategies, and the students' selection process. While acknowledging the vast size of the continent, this book aims to provide an understanding of the dynamics of higher education in Africa. This book recognises the private and government involvement in higher education provision and students and staff as stakeholders in the marketisation process. Strategic efforts are directed by universities to attract prospective students. This book further addresses issues such as the responses of higher education sectors to the notion of markets and marketing, consumerism, and competition in higher education in Africa, conceptions of the commodification of higher education in Africa, and the dominance of Western epistemologies and their influence in transforming higher education sectors. Students as consumers in increasingly marketised higher education sectors in Africa are also discussed. Though primarily for marketing students and academic researchers, the book's feature of blended theoretical and practical knowledge means that it will also be of interest to marketing practitioners and university managers. **African Cities Through Local Eyes** Giuseppe Faldi, Axel Fisher, Luisa Moretto, 2021-10-16 This book provides readers with a wide overview of place-based planning and design experiments addressing such powerful transformations in the African built environment. This continent is currently undergoing fast-paced urban, institutional, and environmental changes which have stimulated an increasing interest for alternative architectural solutions, urban designs, and comprehensive planning experiments. The international and balanced array of the collected contributions explore emerging research concepts for understanding urban and peri-urban processes in Africa, discuss bottom-up planning and design practices, and present inspirational and innovative co-design methods and participatory tools for steering such change through public spaces, sustainable services, and infrastructures. The book is intended for students, researchers, decision makers, and practitioners engaged in planning and design for the built environment in Africa and the Global South at large. *ECRM 2020 20th European Conference on Research Methodology for Business and Management Studies* Dr. Manuel Au-Yong-Oliveira, Professor Carlos Costa, 2020-06-18 The European Conference on Research Methodology for Business and Management Studies was established 19 years ago. This event has been held in countries across Europe, including Ireland, England, France, Malta, Portugal, Spain, to mention only a few of the countries who have hosted it.
