Women and Leadership Around the World Susan R. Madsen, 2015 *Women and Leadership around the World* Faith Wambura Ngunjiri, Susan R. Madsen, Karen A. Longman, Cynthia Cherrey, 2015-07-01

Women and Leadership around the World is the third volume in a new series of books Women and Leadership Research Theory and Practice that will be now being published to inform leadership scholars and practitioners. The purpose of this volume is to explore areas of women's leadership in four regions around the world: the Middle East, Europe, North America, and Asia Pacific. Hence we have included 14 chapters that cover a wide range of important topics relevant to women and leadership within specific contexts around the world. Our goal for this volume is to provide readers with explorations of women's experiences as leaders, including recent research, studies, analysis, and interpretation of statistics; unpacking the status of women in various sectors and countries; stories of influential women leaders with national or local spheres of influence; and including recommendations for positive change to increase women's access to positions of authority. The volume contributors use various theories and conceptualizations to problematize, historicize, and analyze women's limited access to power and their agency as leaders from the grassroots to the national scene, from education to non-profits and business organizations. Overall, the book contributes interpretations of the status of women in various countries, presenting the stories behind the numbers and statistics, and uncovering not only challenges but also opportunities for resiliency and effectiveness as leaders. The authors offer recommendations for change that cross national boundaries, such as structural changes in organizations that would open the door for more women to access positions of authority and be effective as leaders. It is rare to find a book with such a diverse array of topics and countries, making this a timely contribution to the literature on women and leadership. The authors remind us to continue to expand the literature base on women and leadership, drawing from both qualitative and quantitative studies, as well as conceptual explorations of women as leaders in different countries, regions, indigenous communities, and across different sectors. The more we know, the better informed will be our efforts to create appropriate leadership development activities and experiences for emerging women leaders and girls around the world. This book contributes significantly to that very effort.

Women and Leadership

Julia Gillard, Ngozi Okonjo-Iweala, 2020-07-23

For readers of Chimamanda Ngozi Adichie, Sheryl Sandberg, and Mary Beard, *Women and Leadership* is a powerful call to arms about the lack of women at the top. Who better qualified to delve into this topic? Business Life. _____ Women make up less than 10 per cent of national leaders. Behind this statistic lies a pattern of unequal access to power. Drawing on current research and in conversation with some of the world's most powerful and interesting women about their lived experience, Gillard and Okonjo-Iweala explore gender bias and ask how we get more women into leadership roles. Speaking honestly and freely, women leaders such as Jacinda Ardern, Hillary Clinton, Michelle Bachelet, and Theresa May talk about their ideas receiving less acknowledgement than their male colleagues' ideas, what it's like to be body-shamed in the media, and the things they wish they had done differently. Their stories reveal how gender and sexism affect perceptions of women as leaders, their pathways to power, and the circumstances in which their leadership comes to an end. The result is a rare insight into life as a leader and a powerful call to arms for women everywhere.
