

AL Business Studies 9707

5AL: Finance and Accounting

Recommended Prior Knowledge

This unit builds on the AS units. It is important that 5AS is completed before this unit. There is no additional extension material for 5AL 1, 5AL 2, 5AL 3 and 5AL 5 but it is important that students' analysis and evaluation skills continue to be developed and that these topics are seen in a strategic context. This unit links with 6AL.

Context

This unit should build on the topics in 5AS. Finance and accounting should be seen in a practical business decision making context so it is important, wherever possible, to use 'real life' situations. Accounts should continue to be studied from the perspective of business wide decisions not just financial ones. Investment appraisal should not be seen as a stand-alone topic so it is important to link it in with other areas such as marketing and people.

Outline

Costs, which have been considered in some detail in 5AS, are developed to cover costing methods and how these tie in with decisions such as pricing, special orders etc. Ratio analysis is considerably extended in scope beyond AS, continuing within the business decisions framework. Investment appraisal is introduced as a new topic although students will have been exposed to some of the ideas at AS.
