Titanic Style Titanic Style:

Titanic Style Grace Evans, 2012-11-13 *Titanic Style* explores the world of fashion and dress at the time of RMS Titanic's famous voyage. With stunning images and enlightening historical analysis, this book takes us through the wardrobes of passengers and crew of all classes and ages, from the most intimate undergarments to the warm overcoats needed on that last fearful cold night. The ship was a microcosm of post-Edwardian society in which everyone belonged to a particular class and dressed accordingly. The luxurious attire of the ladies in first class, the cream of European and American society, was changed several times a day, while the more sober and conservative clothes of the men of all ranks subtly conveyed their status, and children were dressed to enhance their social standing. We also visit the families below deck, dressed in second hand or homemade clothes, heading for a new life in a country free of repressive class distinction. Stories and records of individual passengers and crew members are woven into the narrative to give an engaging account of what life was really like onboard the world's most famous ocean liner. Whether you are a Titanic enthusiast, a fashion lover, or both, this book will delight you with exquisite garments and the absorbing cultural history behind them. Titanic John P. Eaton, Charles Haas, 1995-04-04 Astonishingly thorough pictorial record of her brief existence. Beginning with her conception, more than a thousand photographs and artists' impressions cover her construction and launching, her fitting out and trials, preparations for her maiden passenger-carrying voyage, her departure from Southampton and arrival at Cherbourg, her voyage to Queenstown, and the drama of her final disaster after hitting an iceberg in the North Atlantic and the aftermath through to the **RMS Titanic in 50 Objects** Bruce Beveridge, Steve Hall, 2022-09-29 On 15 April 1912, passengers stood on a dimly lit Boat Deck looking down at the lifeboats they were told to enter. In the freezing air, away from the warmth of the interior, they had to decide whether to enter a boat that would be lowered into darkness or remain on an unsinkable ship. *RMS Titanic in 50 Objects* is a look at the world-famous liner through the objects that tell her story: Sheet music recovered from the body of a musician, a full-sized replica of her First Class Entrance Hall clock, a lifeboat from a fellow White Star Line ship, all of these objects and more come together to tell not only the tragedy of the ship herself but also that of her passengers and crew. Lavishly illustrated and extensively researched by two of the world's most foremost Titanic experts, this is her history brought to life like never before. *Styles of Discourse* Nikolas Coupland, 2016-11-18 First published in 1988, this book focuses on diversity and discourse and collects contemporaneous research across a wide range of topics, including description, polemic, narrative, analysis, DJ talk, philosophical history, conversation, children's books, and nuclear deterrence. The essays demonstrate analyses of discourse in the service of stylistic inquiry, exploring relationships of text and context. This reflects the overall argument that discourse analyses aiming to represent diversity of social context will necessarily approach the task selectively, since all dimensions are of potential relevance to any and every communicative manifestation. Some of the contextual dimensions that are addressed include interpersonal, socio-structural, modal, ideological, and pragmatic. **Iron Age Catalogue of**

Olympic Titanic Britannic Simon Mills, 2022-10-13 The Titanic, The Britannic, The Olympic. They are some of the most famous ships in history, but for the wrong reasons. The Olympic Class liners were conceived as the largest, grandest ships ever to set sail. Of the three ships built, the first only lost the record for being the largest because she was beaten by the second, and they were both beaten by the third. The class was meant to secure the White Star Line's reputation as the greatest shipping company on earth. Instead, with the loss of both the Titanic and the Britannic in their first year of service, it guaranteed White Star's infamy. This unique book tells the extraordinary story of these three extraordinary ships from the bottom up, starting with their conception and construction and later their modification and following their very different careers. Behind the technical details of these magnificent ships lies a tragic human story, not just of the lives lost aboard the Titanic and Britannic, but of the designers pushing the limits beyond what was actually possible, engineers unable to prepare for every twist of fate, and ship owners and crew who truly believed a ship could be unsinkable. This fascinating story is told with rare photographs, new computer-generated recreations of the ships, and unique wreck images that explore how well the ships were designed and built. Simon Mills offers unparalleled access to shipbuilders Harland Wolff's specification book for the Olympic Class, including original blueprints and being made widely available for the first time, large fold-out technical drawings showing how these extensive plans were meant to be seen.

Titanic Lives Rob Rondeau, 2012-04-16 The sinking of the Titanic on its maiden voyage in 1912 captured the world's attention a hundred years ago and still holds it today. Although it was bound for New York, more than 100 passengers aboard the ocean liner were headed for Canada. Titanic Lives delves into the unique stories of ten of those passengers. Some were rich, like railroad tycoon Charles Melville Hays and a scion of Montreal's Molson family. Others were not and would have been lost to history had they not been a part of this unforgettable story. From the scandalous romance between Montreal's Quigg Baxter and his French showgirl mistress to one woman's search for her toddler and husband as the lifeboats were being launched from the decks, this book gives its readers a glimpse into the lives of those who took that fateful voyage on the Titanic. You will hear about Paul Chevre, renowned French artist travelling to Montreal to reveal his latest sculpture, and
