

Overview

The TiVo Premiere is the latest high-definition digital video recorder (DVR) for off-air broadcasts, cable, and Verizon FiOS. It launched in 46-hour and 156-hour configurations for \$299 and \$499 at Best Buy on March 28 and is now shipping from Amazon.com. Existing TiVo owners with a monthly or yearly subscription receive a [20% discount](#) on the Premiere at TiVo.com, with units priced at \$239 and \$399.

The Premiere incorporates the new "Series4" hardware platform with a faster dual-core processor, twice the memory, and improved I/O. The added processing power supports a new high-definition interface with a video window, faster network transfers, and robust video playback with full 1080p output. Newer technology cuts power consumption by 35-40% for ENERGY STAR compliance.

As a dual-tuner DVR, the TiVo Premiere allows the user to watch one channel while they record another; it will also record two different HD or SD shows while playing a third, previously recorded show. It has separate CABLE and ANTENNA inputs, with each split internally to support two tuners. It will record two channels from a single coax cable; it will also record any combination of two cable or off-air channels from separate coax inputs. The Premiere is a standalone device; it does not record from another box.

Users can pause and replay live television, or hit record to save a live program for future playback. Other trickplay functions on the remote include 30-second scan, slow motion, frame-by-frame advance, 15-minute skip, and three speeds of fast forward and reverse (3x, 20x, 60x). New press-and-hold functions enable users to jump to the beginning or end of a recorded program, or the live TV buffer, by pressing and holding the REPLAY or SKIP button on the remote.

Record capacity on the standard Premiere is 46 HD hours, while the XL offers 156 HD hours. Both models officially support capacity expansion with a 1TB external drive, which adds 144 HD hours. DVRUpgrade.com and Weaknees.com offer upgraded Premiere units with 317 HD hours. There are no quality settings to adjust record capacity on digital channels; the DVR saves all content to the hard drive as is, bit-for-bit identical to the original broadcast. Quality on live and recorded TV is identical.

The TiVo features an electronic program guide (EPG) with 14-days of program information from Tribune Media. The program guide grid is fully customizable, so users can remove channels they do not want to see; the guide also supports filters and favorites. During setup, the user chooses between ethernet and a wireless adapter for guide downloads; the user then enters their zip code and selects whether they use an antenna, cable, or both. After selecting an option with cable, the user picks their provider from a
