Der Tod im Reisfeld, 1983 **Der Tod im Reisfeld** Peter Scholl-Latour, 2013-09-13 Deutsche Fernostbibliographie
1981 Helmut Martin, Günther Pflug, 2014-07-24 Keine ausführliche Beschreibung für Deutsche Fernostbibliographie 1981 verfügbar **Der Tod im Reisfeld** Peter Scholl-Latour, 1983 , Never Again Andrew I. Port, 2023-05-02 Germans remember the Nazi past so that it may never happen again But how has the abstract vow to remember translated into concrete action to prevent new genocides abroad As reports of mass killings in Bosnia spread in the middle of 1995 Germans faced a dilemma Should the Federal Republic deploy its military to the Balkans to prevent a genocide or would departing from postwar Germany's pacifist tradition open the door to renewed militarism In short when Germans said never again did they mean never again Auschwitz or never again war Looking beyond solemn statements and well meant monuments Andrew I Port examines how the Nazi past shaped German responses to the genocides in Cambodia Bosnia and Rwanda and further how these foreign atrocities recast Germans understanding of their own horrific history In the late 1970s the reign of the Khmer Rouge received relatively little attention from a firmly antiwar public that was just discovering the Holocaust By the 1990s the genocide of the Jews was squarely at the center of German identity a tectonic shift that inspired greater involvement in Bosnia and to a lesser extent Rwanda Germany's increased willingness to use force in defense of others reflected the enthusiastic embrace of human rights by public officials and ordinary citizens At the same time conservatives welcomed the opportunity for a more active international role involving military might to the chagrin of pacifists and progressives at home Making the lessons limits and liabilities of politics driven by memories of a troubled history harrowingly clear Never Again is a story with deep resonance for any country confronting a dark past **The Politics of Organized Crime and the Organized Crime of Politics** Alfredo Schulte-Bockholt, 2006-03-07 More than simply a study of the mafia Alfredo Schulte Bockholt's work argues that collaboration between political science and criminology is critical to understanding the real nature of organized crime and its power Schulte Bockholt looks at specific case studies from Asia Latin America and Europe as he develops a theoretical discussion drawing on the thought of Max Horkheimer Theodor Adorno and Antonio Gramsci of the intimate connections between criminal groups and elite structures Ranging from an historical discussion of the world drug economy to an examination of the evolution of organized crime in the former Soviet Union the book extends into a consideration of the possible future development of organized crime in the age of advanced globalization Death in the Ricefields Peter Scholl-Latour, 1981 For over thirty years the world's ideologies have been fought out in the ricefields and jungles the towns and cities of Indochina In this remarkable eye witness account the author has condensed all his experiences and observations of those wars into a series of graphic images Sights sounds and smells come alive in a vivid recreation of one of the most tragic battlegrounds of modern history The author a TV reporter and journalist has a unique knowledge of this troubled area having visited it many times while covering three successive wars the

war against French colonialism the American involvement in Vietnam and the final devastation of Kampuchea as the French the Americans and the Khmer Rouge have each in turn tried to impose their own version of freedom upon others by force This is a major new account of the most important area of conflict in modern times Connected Worlds Ludger

Kühnhardt,2024-06-10 The diary notes that Ludger Kühnhardt took while visiting or staying in 235 countries and territories around the world create a fascinating panorama reflected in the personal impressions encounters and experiences of a political scientist and journalist working all over the world The book reconstructs the connections between Europe's transformations and the emerging global era over six decades from 1960 to the threshold of the post Corona world of 2020
