**Fire in California's Ecosystems** Jan W. van Wagtendonk, 2018-06-08

*Fire in California's Ecosystems* describes fire in detail both as an integral natural process in the California landscape and as a growing threat to urban and suburban developments in the state. Written by many of the foremost authorities on the subject, this comprehensive volume is an ideal authoritative reference tool and the foremost synthesis of knowledge on the science, ecology, and management of fire in California. Part One introduces the basics of fire ecology, including overviews of historical fires, vegetation, climate, weather, fire as a physical and ecological process, and fire regimes, and reviews the interactions between fire and the physical plant and animal components of the environment. Part Two explores the history and ecology of fire in each of California's nine bioregions. Part Three examines fire management in California during Native American and post-Euro American settlement and also current issues related to fire policy, such as fuel management, watershed management, air quality, invasive plant species, at-risk species, climate change, social dynamics, and the future of fire management. This edition includes critical scientific and management updates and four new chapters on fire, weather, fire regimes, climate change, and social dynamics.

*Program Evaluation and Performance Measurement* James C. McDavid, Irene Huse, Laura R. L. Hawthorn, 2018-10-16

*Program Evaluation and Performance Measurement* offers a conceptual and practical introduction to program evaluation and performance measurement for public and non-profit organizations. James C. McDavid, Irene Huse, and Laura R. L. Hawthorn discuss topics in a detailed fashion, making it a useful guide for practitioners who are constructing and implementing performance measurement systems, as well as for students. Woven into the chapters is the performance management cycle in organizations, which includes strategic planning and resource allocation, program and policy design, implementation and management, and the assessment and reporting of results. The Third Edition has been revised to highlight and integrate the current economic, political, and socio-demographic context within which evaluators are expected to work and includes new exemplars, including the evaluation of body-worn police cameras.
