Transforming Criminal Justice Problem Solving And Court Specialisation Routledge Frontiers Of Criminal Justice:

Transforming Criminal Justice? Jane Donoghue, 2014-04-03 Why is punishment not more effective Why do we have such high re offending rates How can we deal with crime and criminals in a more cost effective way Over the last decade in particular the United Kingdom in common with other jurisdictions such as Canada the United States US and Australia has sought to develop more effective ways of responding to criminal behaviour through court reforms designed to address specific manifestations of crime Strongly influenced by developments in US court specialisation problem solving and specialist courts including domestic violence courts drugs courts community courts and mental health courts have proliferated in Britain over the last few years These courts operate at the intersection of criminal law and social policy and appear to challenge much of the traditional model of court practice In addition policy makers and practitioners have made significant attempts to try to embed problem solving approaches into the criminal justice system more widely Through examination of original data gathered from detailed interviews with judges magistrates and other key criminal justice professionals in England and Wales as well as analysis of legislative and policy interventions this book discusses the impact of the creation and development of court specialisation and problem solving justice This book will be essential reading for students and academics in the fields of criminology criminal justice criminal law socio legal studies and sociology as well as for criminal justice practitioners and policy makers

Restorative Justice in Transition Kerry Clamp, 2013-09-05 This book explores how restorative justice is used and what its potential benefits are in situations where the state has been either explicitly or implicitly involved in human rights abuses Restorative justice is increasingly becoming a popular mechanism to respond to crime in democratic settings and while there is a burgeoning literature on these contexts there is less information that focuses explicitly on its use in nations that have experienced protracted periods of conflict and oppression This book interrogates both macro and micro utilisations of restorative justice including truth commissions criminal justice reform and the development of initiatives by communities and other non state actors The central premise is that the primary potential of restorative justice in responding to international crime should be viewed in terms of the lessons that it provides for problem solving rather than its traditional role as a mechanism or process to respond to conflict Four values are put forward that should frame any restorative approach engagement empowerment reintegration and transformation It is thought that these values provide enough space for local actors to devise their own culturally relevant processes to achieve longstanding peace This book will be of interest to those conducting research in the fields of restorative justice transitional justice as well as criminology in general

Problem-Solving Courts, Criminal Justice, and the International Gold Standard Anna Kawalek, 2021-01-03 This book presents findings from a process evaluation carried out at a problem solving court located in England Manchester Review Court Unlike the widely documented successes of similar international models there is no detail of Manchester Review Court in the accessible literature not in any policy document nor is there a court handbook or website

outlining objectives and expected practice In adopting the seminal wine and bottle analytical framework propounded by therapeutic jurisprudence scholars and by carrying out a detailed comparative analysis comparing the court to successful international problem solving courts the original empirical data brings clarity to an overlooked area A fidelity analysis is also offered for the forerunning English and Welsh drug courts which were established during the early 2000s but then shortly fell by the wayside without satisfactory explanation for why Findings from the book shed new light on the causes of the English and Welsh drug court downfalls pending recent calls to roll out a fresh suite of problem solving courts In light of the international evidence base and national struggles in the field the book proposes a renewed UK specific fidelity matrix to forge the impetus for new practice in this area whilst accounting for past failures and acknowledging current issues Therefore this book not only breaks new ground by advancing knowledge of a significantly uncharted area but provides important inroads for helping policymakers with their strategies in tackling recidivism addiction victimisation and austerity as widespread social and human issues currently facing both Manchester and the UK more broadly Presenting significant advancements in theory policy and practice at both national and international scale the book will be a valuable resource for academics and practitioners working in the fields of Therapeutic Justice Criminal Law Criminology Criminal Justice and Socio Legal Studies

Transforming Summary Justice Jenni Ward, 2016-11-10 Sweeping changes are being introduced into the lower tier magistrates courts in England and Wales in efforts to modernise the system and speed up case processing They concentrate on delivering prompt justice within a modern efficient and technologically advanced system But these transformations are fundamentally changing the way justice is delivered This book analyses criminal court streamlining processes and argues that there are areas where due process protections are being undermined Transforming Summary Justice reports empirical research carried out with lay magistrates and criminal justice professionals Views and experiences drawn from magistrates are valuable because of the central role they perform in lower court justice Further magistrates provide a wider understanding of the context in which the lower criminal courts operate and enable a critical appraisal of this unique style of lay justice This book is directed at students of criminology criminal justice and socio legal studies who will find the debates stimulating and useful to engage with in contemporary analyses of criminal court justice It will also be of interest to justice and legal professionals who are seeing swingeing alterations to the field in which they work The book will have appeal in other common law jurisdictions where similar modifications to lower court justice are occurring and also across Europe where lay involvement in legal decision making is being debated and becoming accepted practice

Perceptions of Criminal Justice Vicky De Mesmaecker, 2014-03-05 In recent decades research into the legitimacy of criminal justice has convincingly demonstrated the importance of procedural justice to citizens sense of trust and confidence in legal authorities and their resulting willingness to conform to the law and cooperate with the legal authorities Reversing the age old question why do people break the law theories of procedural justice have provided insight into the factors that encourage people to abide by the law suggesting that experiences of procedural fairness are crucial to achieving compliance with the law and to enhancing the legitimacy of criminal justice While these studies are important in showing that legal authorities need to pay attention to the fairness judgements of the people involved in legal procedures the focus on showing the importance of procedural justice has had the ironic consequence of distracting researchers from studying the equally important question of what fairness means to the people involved in legal

proceedings In one of the first studies on procedural justice to use a qualitative research design the author provides the reader with detailed and insightful descriptions of the elements that determine how victims and defendants assess the fairness of their contact with the police and the courts Focusing on both the pre trial and the post trial phases this book will be of interest to academics and students engaged in the study of the psychology of law procedural justice and the legitimacy of criminal justice
