Optimizing K-12 Education through Online and Blended Learning Ostashewski, Nathaniel, Howell, Jennifer, Cleveland-Innes, Martha, 2016-07-13 The integration of information and communication technologies in education is unavoidable as an increasing percentage of educators embrace modern technology others are faced with the decision to reevaluate their own pedagogical practices or become obsolete To meet the needs of students one must first define what stipulates a successful K 12 student the best practices of online classrooms the warning signs for low performing students and how to engage web based students Optimizing K 12 Education through Online and Blended Learning addresses the models support cases and delivery of K 12 online education Seeking to further the conversation about the most effective ways to integrate ICT into the classroom this publication presents theoretical frameworks to support educators and administrators This book is an essential collection of research for teachers administrators students of education IT professionals developers

and policy makers **Simplifying Response to Intervention** Austin Buffum, Mike Mattos, Chris Weber, 2011-10-29 The sequel to Pyramid Response to Intervention advocates that a successful RTI model begins by asking the right questions to create a fundamentally effective learning environment for every student RTI is not a series of implementation steps but rather a way of thinking Understand why bureaucratic paperwork heavy compliance oriented test score driven approaches fail Then learn how to create a focused RTI model that works **Research Bulletin - Florida Educational Research and Development Council** ,1983 **Deep Active Learning** Kayo Matsushita, 2017-09-12 This is the first book to connect the concepts of active learning and deep learning and to delineate theory and practice through collaboration between scholars in higher education from three countries Japan the United States and Sweden as well as different subject areas education psychology learning science teacher training dentistry and business It is only since the beginning of the twenty first century that active learning has become key to the shift from teaching to learning in Japanese higher education However active learning in Japan as in many other countries is just an umbrella term for teaching methods that promote students active participation such as group work discussions presentations and so on What is needed for students is not just active learning but deep active learning Deep learning focuses on content and quality of learning whereas active learning especially in Japan focuses on methods of learning Deep active learning is placed at the intersection of active learning and deep learning referring to learning that engages students with the world as an object of learning while interacting with others and helps the students connect what they are learning with their previous knowledge and experiences as well as their future lives What curricula pedagogies assessments and learning environments facilitate such deep active learning This book attempts to respond to that question by linking theory with practice Autism Spectrum Disorders Angi Stone-MacDonald, David F. Cihak, Dianne Zager, 2022-12-30 The fifth edition of Autism Spectrum Disorders Advancing Positive Practices in Education provides readers with a comprehensive and accessible understanding of current research and evidence based practices in autism spectrum disorders ASD linking research theory and practice This new edition includes new chapters on trauma and co morbidity current trends in autism research social media neurodiversity and aging in people with ASD It also features updated content on international contexts and culturally sustaining and relevant practices Aligned with DSM 5 diagnostic criteria this text continues to be critical reading for students and researchers in special and inclusive education programs
