Transnationalism Activism Art Hardback Common:

Transnationalism, Activism, Art Kit Dobson, Áine McGlynn, 2013-01-01 Banksy is known worldwide for his politically subversive works of art but he is far from the only artist whose creations are infused with internationally relevant activist themes How else can the arts help activate citizen participation in social justice movements Moreover what is the role of culture in a globalizing world *Transnationalism Activism Art* goes beyond Banksy by investigating how the three complementary political social and cultural phenomena listed in the title interact in the twenty first century Renowned and emerging critics use current theory on cultural production and politics to illuminate case studies of various media including film literature visual art and performance in their multiple manifestations from electronic dance music to Wikileaks to bestselling poetry collections By addressing how these artistic media are used to enact citizen participation in social justice movements the volume makes important connections between such participation and scholarly study of globalization and transnationalism

Transnational Belonging and Female Agency in the Arts Basia Sliwinska, Catherine Dormor, 2022-10-20 *Transnational Belonging and Female Agency in the Arts* interrogates the politics of space expressed via womxn s artistic practices which prioritise solidarity and collaboration across borders imagining attentive geographies of difference It considers belonging as a manifestation of processes of becoming that traverse borders and generate new spaces and forms of difference In doing so the book aims to catalyse mutual social relations founded upon responsibility and response ability to each other The transnational framework activates concerns around belonging at a time of intensified divisions partitioning global narratives unequal trajectories and increasing violence against bodies of the most vulnerable largely founded on Eurocentric paradigms of political economic and cultural superiority The contributors engage in a conversation signalling transversal thinking and artmaking in order to articulate and activate in between spaces This is to welcome co affective models of belonging that question versatile embodiments of subjectivity as both agentic and as interrelational Organised around the triangulation of modes of belonging spatial affective and collective overarched by a transnational lens that acknowledges non hierarchical local and socially relevant genealogies against universalising politics of globalisation these essays consider afresh ways in which female agency disrupts borders and activates concerns around different forms of belonging citizenship and transnationalisms
