Trapped In The War On Terror

Ian Lustick

Trapped In The War On Terror:

Trapped in the War on Terror Ian Lustick, 2006-09-06 Ian Lustick has written a brave forceful and very valuable book I wish that every politician promising to defend America would read what he has to say Failing that the voters should James Fallows National Correspondent The Atlantic Monthly *The Necessary Evil of Preventive Detention in the War on Terror* Stephanie Cooper Blum, 2008 This book explores the underlying rationales for preventive detention as a tool in this war on terror analyzes the legal obstacles to creating a preventive detention regime discusses how Israel and Britain have dealt with incapacitation and interrogation of terrorists and compares several alternative ideas to the administration's enemy combatant policy under a methodology that looks at questions of lawfulness the balance between liberty and security and institutional efficiency In the end this book recommends using the Foreign Intelligence Surveillance Court to monitor a narrow regime of preventive detention only to be used under certain prescribed circumstances where interrogation and or incapacitation are the justifications This book is an essential reference for collections in American studies political science and national security studies BOOK JACKET **Hubris, Self-Interest, and America's Failed War in Afghanistan**

Thomas P. Cavanna, 2015-07-22 This book describes the conduct of the US led post 9 11 war in Afghanistan Adopting a long term perspective it argues that even though Washington initially had an opportunity to achieve its security goals and give Afghanistan a chance to enter a new era it compromised any possibility of success from the very moment it let bin Laden escape to Pakistan in December 2001 and found itself locked in a strategic overreach Given the bureaucratic and rhetorical momentum triggered by the war on terror in America the Bush Administration was bound to deploy more resources in Afghanistan sooner or later despite its focus on Iraq The need to satisfy unfulfilled counter terrorism objectives made the US dependent on Afghanistan's warlords which compromised the country's stability and tarnished its new political system The extension of the US military presence made Washington lose its leverage on the Pakistan army leaders who aware of America's logistical dependency on Islamabad supported the Afghan insurgents their historical proxies more and more openly The extension of the war also contributed to radicalize segments of the Afghan and Pakistani populations destabilizing the area further In the meantime the need to justify the extension of its military presence influenced the US led coalition into proclaiming its determination to democratize and reconstruct Afghanistan While highly opportunistic the emergence of these policies proved both self defeating and unsustainable due to an inescapable collision between the US led coalition's inherent self interest hubris limited knowledge limited attention span and limited resources and on the other hand Afghanistan's inherent complexity As the critical contradictions at the very heart of the campaign increased with the extension of the latter's duration scale and cost America's leaders entrapped in path dependence lost their strategic flexibility Despite debates on troops resource allocation and more sophisticated doctrines they repeated the same structural mistakes over and over again The strategic overreach became self sustaining until its costs became intolerable leading to a drawdown which has more to

do with a pervasive sense of failure than with the accomplishment of any noble purpose or strategic breakthrough **The Discourse Trap and the US Military** J. Michaels, 2013-03-19 This book proposes the idea of a discourse trap in which the discourses and associated terminology devised for political or military reasons can entrap policymakers by motivating or constraining their actions *Lessons and Legacies of the War on Terror* Gershon Shafir, Everard Meade, William J.

Aceves, 2013 A decade after 9 11 it is increasingly difficult to deny that terror has prevailed not as a specific enemy but as a way of life This book examines the social cultural and political drivers of the war on terror through the framework of a political moral panic The Terrorism Trap Harrison Akins, 2023-06-20 After two decades and trillions of dollars the United

States fight against terrorism has achieved mixed results Despite the vast resources and attention expended since 9 11 terrorism has increased in many societies that have been caught up in the war on terror Why have U S policies been unable to stem the tide of violence Harrison Akins reveals how the war on terror has had the unintended consequence of increasing domestic terrorism in U S partner states He examines the results of U S backed counterterrorism operations that targeted al Qaeda in peripheral regions of partner states over which their central governments held little control These operations often provoked a violent backlash from local terrorist groups leading to a spike in retaliatory attacks against partner states Senior U S officials frequently failed to grasp the implications of the historical conflict between central governments and the targeted peripheries Instead they exerted greater pressure on partner states to expand their counterterrorism efforts This exacerbated the underlying conditions that drove the escalating attacks trapping these governments in a deadly cycle of tit for tat violence with local terrorist groups This process Akins demonstrates accounts for the lion s share of the al Qaeda network s global terrorist activity since 2001 Drawing on extensive primary sources including newly declassified documents dozens of in depth interviews with leading government officials in the United States and abroad and statistical analysis **The Terrorism Trap** is a groundbreaking analysis of why counterterrorism has backfired **Homeland Security Organization**

in Defence Against Terrorism J. P. I. A. G. Charvat, 2012 Centre of Excellence Defence Against Terrorism Ankara Turkey The Price of Fear Ibrahim Warde, 2007 Ibrahim Warde exposes the Bush administration s much ballyhooed but often duplicitous war on terrorist finances which has nabbed few bad guys ruined many innocents frozen little hot money and vastly complicated worldwide banking for the greater glory of a burgeoning American bureaucracy Jonathan Randal author of *Osama The Making of a Terrorist* Ibrahim Warde takes a long overdue skeptical look at the widely held view that money is the oxygen of terrorism That conclusion has resulted in a financial war on terror launched by the US government that in many cases has produced meager or even counterproductive results Warde writes with great clarity and his book is very well reported It is a welcome addition to a field that has been largely the preserve of alarmists with little interest in the kinds of reporting done by Warde Peter Bergen author of *The Osama bin Laden I Know* A pleasure to read remarkably informative about a subject that the press seems to have mangled This ought to have a big impact Chalmers Johnson author *Blowback*

The Costs and Consequences of American Empire Is it any wonder that with thinking like this American policy went adrift in the war on terror not able to find a solid base on which to move forward Patrick Lloyd Hatcher author of North Atlantic Civilization at War A witty irreverent analysis of the financial war on terror A must read for anyone interested in the Middle East and the global economy Clement M Henry co author of Globalization and the Politics of Development in the Middle East

The BBC, The 'War on Terror' and the Discursive Construction of Terrorism Jared Ahmad, 2018-04-21 In the years since the September 11th 2001 attacks the al Qaeda phenomenon has become one of the most written about yet crucially misunderstood threats of the 21st century But despite the sheer volume of literature produced during the war on terror period few studies have sought to consider the way this entity has been represented within the news media The BBC the War on Terror and the Discursive Construction of Al Qaeda addresses this significant gap in knowledge by providing an original and much needed assessment of the various strategies used to depict al Qaeda and thus make it meaningful for British television audiences Drawing on the work of French philosopher Michel Foucault and focusing on Britain's most watched and trusted news programme the BBC's flagship News at Ten bulletin the book provides insight into both the visual and verbal nature of these representations and the way they have shifted over the course of a ten year period while also shedding light upon the broader political and social consequences of the BBC's portrayals In doing so the book not only helps to develop a deeper understanding of the complexity of the BBC's representations and their various shifts and transformations but also details the process through which al Qaeda has been pieced together from a range of cultural parts And how ultimately the dominant mode of representation used to portray this entity is one that closely resembles Britain's own diverse multicultural self

Ten Years After 9/11 Arabinda Acharya, 2013 Ten years after the 9/11 attacks this book reassesses the effectiveness of the War on Terror considers how al Qaeda and other jihadist movements are faring explores the impact of wider developments in the Islamic world such as the Arab Spring and discusses whether all this suggests that a new approach to containing international especially jihadist terrorism is needed Among the book's many richly argued conclusions are that the War on Terror and the invasions of Afghanistan and Iraq have brutalised the United States that the jihadist threat is not one but rather a wide range of separate unconnected struggles and that al Qaeda's ideology contains the seeds of its own destruction in that although many Muslims are content to see the United States worsted they do not approve of al Qaeda's violence and are not taken in by the jihadists empty promises of utopia

Image Warfare in the War on Terror N. Roger, 2013-01-11 Roger examines how developments in new media technologies such as the internet blogs camera video phones have fundamentally altered the way in which governments militaries terrorists NGOs and citizens engage with images He argues that there has been a paradigm shift from techno war to image warfare which emerged on 9/11

American Security and the Global War on Terror Edwin Jacob, 2020-04-08 This book delivers an interpretive framework for making sense of today's geopolitical landscape and casts new light on the impact ideology and technology have had on

American foreign policy and contemporary security practices Edwin Daniel Jacob argues that America's security practices in the Global War on Terror have been guided by an anachronistic Cold War logic that has subordinated strategy to tactics Jacob shows that deep rooted prejudices and presuppositions regarding American exceptionalism have had a disastrous impact on the policies of the United States not only in dealing with terrorism but also in seeking to impose American hegemony in the Middle East Ineffectual security practices of dubious moral character from rendition and torture to preemptive strikes and nation building to drones and assassinations privilege exigency over ethics Yet the result of this post strategic approach to security where interchangeable tactics like these masquerade as strategy only increases insecurity Jacob offers a fresh perspective on American foreign policy that links national security with human security in regional terms This approach highlights the need for order predictability and stability the cornerstone of political realism Making use of insights derived from Machiavelli Hobbes Marx Weber Schmitt and Morgenthau this interdisciplinary work provides an overview of American foreign policy in the twenty first century and speaks to crucial themes in the fields of history political science and sociology

US Counter-terrorism Strategy and Al-Qaeda Joshua A. Geltzer, 2009-09-10 This book examines the communicative aspects and implications of US counter terrorist policies towards al Qaeda Recent US counter terrorist strategy has been largely based upon projecting certain perceptions of America as an actor to those drawn to al Qaeda and this book investigates in what ways and to what extent US officials believed that the signals sent by what America did and said could influence the behaviour of the terrorist and would be terrorist The study then draws on a growing understanding of that audience to analyse how those drawn to al Qaeda were and indeed still are likely to be influenced by the perceptions of America that Washington's policies generated The study's central argument is that given al Qaeda's unconventional strategy and the particularities of the world view characterising those drawn to the group America's counter terrorist signalling proved largely counter productive to America's objective of undermining al Qaeda's strategic narrative instead serving in many ways to validate it Firstly this book seeks to reveal the significant and largely unexplored role that signalling has played in US counter terrorist policy towards al Qaeda Second it tries to capture the objectives strategy tactics ideology and other defining features of the world view characterising those drawn to al Qaeda Third it strives to combine those two lines of inquiry by applying the al Qaeda world view to a critical analysis of the signals sent by US policies Finally the book aims to offer broad policy implications that demonstrate how an informed understanding of the world view of those drawn to al Qaeda can be employed to revise and refine American counter terrorist signalling This book will be of much interest to students of US foreign policy and public diplomacy counter terrorism strategy and international security Joshua Alexander Geltzer has a PhD in War Studies from Kings College London and is currently a juris doctoral student at Yale Law School

'Is It Global War on Terrorism' or Global War over Terra Africana? Nkwazi Nkuzi Mhango, 2017-12-06 Global War on Terrorism or Global War over Terra Africana How Imperial Powers Seek to Occupy Africa Militarily is a long onerous

academic voyage of the demystification and demythologization of the Global War on Terror former US president George W Bush and former UK premier Tony Blair conceived envisaged and declared for their hidden personal and national interests It is a hidden and untold story of the other side about the GWOT which is but the GWOTA Major arguments presented gyrate around the deconstruction and overhaul of the GWOT so that it can be equally formulated and fought by all nations for the interests of all but not the interests of some as it currently is Also the book repudiates the pontification the pontifices maximus of the GWOTA have always made ex nihilo while concealing their drive s for perpetually exploiting poor countries Terrorism is a world phenomenon everybody must fight provided it is collectively agreed decided and declared for the collective good and interests of the world but not the interests of a few hegemonic countries that usurped the power of declaring who is a terrorist and who is not Although terrorism is real the manner it is fought is a little bit knotty This tome acts as an eye opener and a wake up call for Africa to start interrogating and excavating the hidden truths about the GWOT chiefly the way it was enacted declared presented and now fought with essentialist and controversialist modus operandi and rationale Other major questions asked and answered are Why exporting military and military hardware guised as fighting terrorism without underscoring the terror military incursion will inter alia cause to Africa especially If truly the aim of the GWOT is to wage war on terror why doesn t the West want to empower African armies Why did the US appoint itself to lead the war conceived and declared without meeting the requirements of the just war or international standards Why hasn t the world learned from Iraq and Libya whose governments were toppled under the fa ade of the GWOT Is it the GWOT or the GWOTA

War Beyond the Battlefield David Grondin, 2013-09-13 In an effort to make sense of war beyond the battlefield in studying the wars that were captured under the rubric of the War on Terror this special issue book seeks to explore the complex spatial relationships between war and the spaces that one is not used to thinking of as the battlefield It focuses on the conflicts that still animate the spaces and places where violence has been launched and that the war has not left untouched In focusing on war beyond the battlefield it is not that the battlefield as the place where war is waged has gone in smoke or has borne out of importance it is rather the case that the battlefield has been dis placed re designed re shaped and rethought through new spatializing practices of warfare These new spaces of war new in the sense that they are not traditionally thought of as spaces where war takes place or is brought to are television screens cellular phones and bandwidth George W Bush s ranch in Crawford Texas videogames popular culture sites news media blogs and so on These spaces of war beyond the battlefield are crucial to understanding what goes on the battlefield in Iraq Afghanistan or in other fronts of the War on Terror such as the homeland to understand how terror has globally been waged beyond the battlefield This book was originally published as a special issue of Geopolitics

Displacement and Refugee Issues in South Asia Bulbul Siddiqi, 2024-09-13 The number of forcibly displaced people globally has been on the rise in recent years The refugee crises in the Middle East Africa Europe and South and East Asia are the most notable Due to such crises the refugee

population has been a key challenge for humanity. It has also put a strain on many refugee hosting countries as most of the displaced populations are hosted in low and middle income countries rather than wealthier countries. Force displacement creates challenges for the refugees and the host societies. *Displacement and Refugee Issues in South Asia: Uncovering the Contested Realities* brings out the cases of forcibly displacement from five South Asian countries: Rohingya in Bangladesh, India and Nepal, Tamils in Sri Lanka, and the Afghan refugees in Afghanistan and Europe. Bulbul Siddiqi and contributors reveal that the refugee population in various South Asian countries have been living with vulnerabilities and uncertainty due to ineffective repatriation and the lack of dignified living conditions in host countries. It requires urgent support and initiatives from global and regional powers and international humanitarian organizations to ensure that the dignified lives of these vulnerable populations in different countries.

Freedom and Order Gabriel Rubin, 2011-05-19. The book examines how governments and publics react to terrorist attacks in the United States, the United Kingdom, and Israel. It focuses specifically on why civil liberties are abridged in some cases and not in others. The chapters cover the topic by looking at it through a number of different lenses, including topics like how governments might manipulate fear, public opinion trends after terrorist attacks, how the Patriot Act was passed, and case studies where legislation was blocked by the legislature and a government chief executive did not seek to pass legislation at all after a terrorist attack. This innovative book compares different responses to terrorism without simply focusing on the case of 9/11 and through comparison reveals new findings about best practices for dealing with terrorism. *Freedom and Order* gives a fine grain analysis of how the Patriot Act was passed that does not exist in any other text to date and compares public responses to terror attacks from three different countries. Rubin deals a blow to the theory that the public rallies around their leader after terrorist attacks and that civil liberties are always abridged after terrorist attacks.

The Homeland Security Dilemma Frank P. Harvey, 2008. This book explores the paradox of the security dilemma in International Relations as applied to the post 9/11 context of homeland security. It argues that the more security you have, the more security you will need as enhancing security raises public expectations.

Transatlantic Fictions of 9/11 and the War on Terror Susana Araújo, 2015-10-22. Extending the study of post 9/11 literature to include transnational perspectives, this book explores the ways in which contemporary writers from Europe as well as the USA have responded to the attacks on the World Trade Centre and the ensuing war on terror. *Transatlantic Fictions of 9/11 and the War on Terror* demonstrates the ways in which contemporary fiction has wrestled with anxieties about national and international security in the 21st century. Reading a wide range of novels by such writers as Amy Waldman, Michael Cunningham, Frédéric Beigbeder, Ian McEwan, Joseph O'Neill, Moshin Hamid, José Saramago, Ricardo Menéndez Salmán, J. M. Coetzee, and Salman Rushdie, Susana Araújo explores how the rhetoric of the war on terror has shaped recent representations of the city and how security discourses circulate transatlantically and transnationally. By focusing not only on 9/11 but also on the way subsequent events such as the wars in Afghanistan and in Iraq are represented in fiction, this book

demonstrates how notions of terror and insecurity have been absorbed reworked or critiqued in fiction Ara jo examines to what extent transatlantic relations have reinforced or challenged new fictions of white western middle class captivity

Graphic Violence Emily Edwards, 2019-06-17 *Graphic Violence* provides an innovative introduction to the relationship between violence and visual media discussing how media consumers and producers can think critically about and interact with violent visual content It comprehensively surveys predominant theories of media violence and the research supporting and challenging them addressing issues ranging from social learning to representations of war and terrorism to gender and hyper masculinity Each chapter features original artwork presenting a story in the style of a graphic novel to demonstrate the concepts at hand Truly unique in its approach to the subject and medium this volume is an excellent resource for undergraduate students of communication and media theory as well as anyone interested in understanding the causes and effects of violence in media

Trapped In The War On Terror Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has become much more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is actually remarkable. This extraordinary book, aptly titled "**Trapped In The War On Terror**," compiled by a highly acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound impact on our existence. Throughout this critique, we shall delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
