The Balkans in Travel Writing Marija Kne evi , 2015-09-18 This book revisits images of the

Balkans in twentieth century travel writing that vividly mirrors the turbulent changes that the region went through As such it provides a vital basis for research into the variety of possibilities or obstacles present on the region's path to accession when its unique heritage will have to be reconciled with a more European identity This volume explores the work of well known authors such as Rebecca West Paul Theroux Robert D Kaplan and also contributes to travel writing theory by addressing less known travellers who recorded their thoughts on the social dynamics of the region The corpus offers divergent and often contradictory views ranging from moral and political criticism to a delight in the rich heritage and the still undiscovered Balkan paths More importantly its generic potentials prove to overcome both the discourse of power and the discourse of apology Its narrative style also comprises striking variations from the objective and well researched approaches to quick impressionist sketches Being a multi generic form travel writing is observed from a multidisciplinary perspective encompassing fields such as literature linguistics history sociology anthropology ethnology political sciences and geography

Ignorance Peter Burke, 2023-02-14 A rich wide ranging history of ignorance in all its forms from antiquity to the present day A Seminary Coop Notable Book of 2023 Ignorance A Global History explores the myriad ways in which not knowing affects our lives sometimes for good sometimes for ill Michael Dirda Washington Post Throughout history every age has thought of itself as more knowledgeable than the last Renaissance humanists viewed the Middle Ages as an era of darkness Enlightenment thinkers tried to sweep superstition away with reason the modern welfare state sought to slay the giant of ignorance and in today's hyperconnected world seemingly limitless information is available on demand But what about the knowledge lost over the centuries Are we really any less ignorant than our ancestors In this highly original account Peter Burke examines the long history of humanity's ignorance across religion and science war and politics business and catastrophes Burke reveals remarkable stories of the many forms of ignorance genuine or feigned conscious and unconscious from the willful politicians who redrew Europe's borders in 1919 to the politics of whistleblowing and climate change denial The result is a lively exploration of human knowledge across the ages and the importance of recognizing its limits

Imaginary Cities Darran Anderson, 2017-04-06 For as long as humans have

gathered in cities those cities have had their shining or shadowy counterparts Imaginary cities potential cities future cities perfect cities It is as if the city itself its inescapable gritty reality and elbow to elbow nature demands we call into being some alternative yearned for better place This book is about those cities It s neither a history of grand plans nor a literary exploration of the utopian impulse but rather something different hybrid idiosyncratic It s a magpie s book full of characters and incidents and ideas drawn from cities real and imagined around the globe and throughout history Thomas More s allegorical island shares space with Soviet mega planning Marco Polo links up with James Joyce s meticulously imagined Dublin the medieval land of Cockaigne meets the hopeful future of Star Trek With Darran Anderson as our guide we find common themes and recurring dreams tied to the seemingly ineluctable problems of our actual cities of poverty and exclusion and waste and destruction And that s where Imaginary Cities becomes more than a mere if ecstatically entertaining intellectual exercise for as Anderson says If a city can be imagined into being it can be re imagined Every architect philosopher artist writer planner or citizen who dreams up an imaginary city offers lessons for our real ones harnessing those flights of hopeful fancy can help us improve the streets where we live Though it shares DNA with books as disparate as Calvino s Invisible Cities and Jane Jacobs s Death and Life of Great American Cities there s no other book quite like Imaginary Cities After reading it you ll walk the streets of your city real or imagined with fresh eyes

Mediation, Remediation, and the Dynamics of Cultural Memory Astrid Erll, Ann Rigney, 2009-07-14 This collection of essays brings together two major new developments in cultural memory studies firstly the shift away from static models of cultural memory where the emphasis lies on cultural products in the direction of more dynamic models where the emphasis lies instead on the cultural and social processes involved in the ongoing production of shared views of the past and secondly the growing interest in the role of the media and their role beyond that of mere storage within these dynamics The specific concern of this collection is linking the use of media to the larger socio cultural processes involved in collective memory making The focus rests in particular on two aspects of media use the basic dynamics of mediation and remediation The key questions are What role do media play in the production and circulation of cultural memories How do mediation remediation and intermediality shape objects and acts of cultural remembrance How can new emergent media redefine or transform what is collectively remembered The essays of this collection focus on social historical religious and artistic media memories The authors analyze the memory making impact of news media the mediation and remediation of lieux de m moire the medial representation of colonial and postcolonial of Holocaust and Second World War memories and finally the problematization of these very processes in artistic media forms such as novels and movies
