Hezekiah Niles, 1813 The History of the Franks Gregory of Tours, 1974-11-28 Written following the collapse of Rome's secular control over western Europe the History of Gregory c AD 539 594 is a fascinating exploration of the events that shaped sixth century France This volume contains all ten books from the work the last seven of which provide an in depth description of Gregory's own era in which he played an important role as Bishop of Tours With skill and eloquence Gregory brings the age vividly to life as he relates the exploits of missionaries martyrs kings and queens including the quarrelling sons of Lothar I and the ruthless Queen Fredegund third wife of Chilperic Portraying an age of staggering cruelty and rapid change this is a powerful depiction of the turbulent progression of faith at a time of political and social chaos

Notes and Queries, 1852 *Notes and Queries: A Medium of Inter-Communication for Literary Men, Artists, Antiquaries, Genealogists, Etc*, 1851 **After Merit** Charles Raith II, 2016-07-11 In this study Charles Raith II fills a gap in Reformation era scholarship by analyzing Calvin's teaching on works and reward in light of medieval theological developments surrounding the doctrine of merit While significant analysis has been given to Calvin's doctrine of justification its relation to sanctification the notion of union with Christ and the role of participation there is as yet no sustained analysis

of how these teachings are shaped by the most hostile and pervasive of his polemics namely his confrontation with a merit based framework for understanding Christian salvation This volume however interprets Calvin s own theological constructions as contextually determined by the reigning polemics of his day In addition previous scholarship on these topics has largely failed to properly contextualize Calvin s own thought against the background of scholastic theological developments developments that Calvin both accepts and rejects in the formulation of his own theology After Merit addresses these gaps by 1 analyzing Calvin s tracts scriptural commentaries and Institutes to demonstrate Calvin s unique distain for the doctrine of merit among the early Reformers and the pervasiveness of this polemic within his theological program 2 reviewing the scholastic developments surrounding the doctrine of merit from the High to Late Middle Ages as background to Calvin s thought 3 highlighting Calvin s principle problems with the doctrine of merit the competitive causal schema between divine and human causality merit as a basis for justification and good works as deserving of reward and 4 unpacking Calvin s theology of justification sanctification the worth of works and the role of works in salvation as an alternative to the opponents doctrine of merit The volume concludes by reflecting on the reception of Calvin s theology of works and reward in later Reformed thought Kaapse bibliotekaris ,2000 Issues for Nov 1957 include section Accessions Aanwinste Sept 1957
