Wisdom Humor And Faith A Historical View:

The Theological Vision of Reinhold Niebuhr's "The Irony of American History" Scott R. Erwin, 2013-06-13 Reinhold Niebuhr remains at the center of a national conversation about America's role in the world and commentators with divergent political and religious positions draw upon his 1951 work *The Irony of American History* in support of their views. In this study Scott R. Erwin argues that an appreciation of Niebuhr's theological vision is necessary for understanding the full measure of Irony. An appreciation of Niebuhr's theology is important because the majority of individuals reading Irony today fail to acknowledge the central role that his Christian beliefs played in its formulation. Niebuhr described his theological vision as being in the battle and above it and in more extensive terms explained it to be a combination of moral resoluteness about the immediate issues with a religious awareness of another dimension of meaning and judgment. It was this perspective that led Niebuhr in Irony to assert that America must both take morally hazardous action in combating the aggression of the Soviet Union and engage in critical self-evaluation to prevent the country from assuming the most odious traits of its Cold War foe. Niebuhr developed this theological vision over the course of the 1930s and 1940s through engagement with Christian doctrine as most readily seen in his academic works such as *The Nature and Destiny of Man* and engagement with current history as seen in his many journalistic writings during this period. By focusing primarily on Niebuhr's writings between 1931 and 1951, Erwin traces the development of his Christian interpretation of human nature and history, establishes how it informed his theological vision, and reveals how that theological vision underlay his writings on current affairs. Such excavation is necessary given the fact that Niebuhr became less explicit about the theological nature of his later writings. Indeed, rather than clearly advance his theological vision in Irony, Niebuhr chose to communicate it implicitly through the historical figure of Abraham Lincoln. In multiple writings over the course of his career, Niebuhr referred to the sixteenth president as both America's greatest statesman and theologian and ultimately portrayed him as the personification of his own religious beliefs. Erwin demonstrates that the study of both Niebuhr's theological vision and his application of this vision throughout his life is instructive as the contemporary generation engages with global problems. **In the Face of Fear** Walter Moss, 2019-02 This book is a revision of the author's essay *Wisdom, Humor, and Faith: A Historical View* which was published in 2011 on The Wisdom Pages website <http://www.wisdompage.com/WisdomHumorFaith.pdf>. *In the Face of Fear* speaks to the loss of thoughtful humor as an aspect of wisdom and how this value is needed in today's world more than ever.

Religion and Humor as Emancipating Provinces of Meaning Michael Barber, 2017-07-26 This book illustrates how non-pragmatic finite provinces of meaning emancipate one from pragmatic everyday pressures. Barber portrays everyday life originally as including the interplay between intrinsic and imposed relevances, the unavoidable pursuit of pragmatic mastery.

and the resulting tensions non pragmatic provinces can relieve But individuals and groups also inevitably resort to meta level strategies of hyper mastery to protect set ways of satisfying lower level relevances strategies that easily augment individual anxiety and social pathologies After creatively interpreting the Schutzian dialectic between the world of working and non pragmatic provinces Barber describes the experience of reality in the finite provinces of religion and humor Schutz who only mentioned these provinces laid out the six features of the cognitive style that characterize any finite province of meaning This book is the first to follow up on these suggestions and depict two new finite provinces of meaning beyond those in On Multiple Realities While entrance into these provinces reduces everyday life tensions it does not suffice since pragmatic relevances infiltrate the provinces as when one uses humor to belittle competing cultural groups or one deploys religion only as an instrument to ensure crop productivity Instead liberation from anxieties and pathologies is brought to completion when the ego agens the 0 point of all its coordinates discovers its value in relation to the transcendent even if it fails to realize its pragmatic purposes or when one becomes comical to oneself through the eyes of another different from oneself This book aimed at advanced undergraduate graduate or scholarly audiences presents stimulating analyses of the religious representative mindset or of the healing potential of interracial humor Drawing heavily on interdisciplinary resources the book also illustrates the relevance of phenomenological methods and concepts for concrete human experience Barber offers a fresh understanding of pragmatic everyday life original descriptions of the religious and humorous provinces of meaning and a picture of how the overarching intentional stances of meaning provinces along with exposure to another perspective can diminish the pressures everyday life engenders
