Witchcraft And Inquisition In Early Modern Venice:

Witchcraft and Inquisition in Early Modern Venice Jonathan Seitz, 2011-08-08 In early modern Europe ideas about nature God demons and occult forces were inextricably connected and much ink and blood was spilled in arguments over the characteristics and boundaries of nature and the supernatural Seitz uses records of Inquisition witchcraft trials in Venice to uncover how individuals across society from servants to aristocrats understood these two fundamental categories Others have examined this issue from the points of view of religious history the history of science and medicine or the history of witchcraft alone but this work brings these sub fields together to illuminate comprehensively the complex forces shaping early modern beliefs

Witchcraft and Inquisition in Early Modern Venice Jonathan Seitz, 2011 Records of the sixteenth and seventeenth century witchcraft trials in Venice uncover individuals conception of the supernatural in early modern Europe

Art and Witchcraft in Early Modern Italy Guy Tal, 2025-10-01 The figure of the witch is familiar from the work of early modern German Dutch and Flemish artists but much less so in the work of their Italian counterparts *Art and Witchcraft in Early Modern Italy* seeks to explore the ways in which representations of witchcraft emerged from and coincided with the main cultural currents and artistic climate of an epoch chiefly celebrated for its humanistic and rational approaches Through an in depth examination of a panoply of arresting paintings engravings and drawings variously portraying a hag ridden colossal phallus a horror stricken necromancer dodging the devil s scabbling claws and a nocturnal procession presided over by an infanticidal crone Guy Tal offers new ways of reading witchcraft images through and beyond conventional iconography Artists such as Parmigianino Alessandro Allori Leonello Spada and Angelo Caroselli effected visual commentaries on demonological notions that engaged their audience in a tantalizing experience of interpretation

Demons and Illness from Antiquity to the Early-Modern Period Siam Bhayro, Catherine Rider, 2017-02-06 In many near eastern traditions including Christianity Judaism and Islam demons have appeared as a cause of illness from ancient times until at least the early modern period This volume explores the relationship between demons illness and treatment comparatively Its twenty chapters range from Mesopotamia and ancient Egypt to early modern Europe and include studies of Judaism Christianity and Islam They discuss the relationship between demonic illnesses and wider ideas about illness medicine magic and the supernatural A further theme of the volume is the value of treating a wide variety of periods and places using a comparative approach and this is highlighted particularly in the volume s Introduction and Afterword The chapters originated in an international conference held in 2013 Ultimately *Demons and Illness* admirably performs the important task of reminding modern scholars of premodern health of the integral role played by these complex and shifting entities in the lives of people across the globe and through the centuries Rachel Podd Fordham University in *Social History of Medicine* 32 3 2019 Given the sheer breadth of its scope the volume is of course illustrative rather than comprehensive in its coverage yet there is a definite coherence to its content aided by the introduction and afterword which bookend the work and

help begin to draw out the threads of commonality and difference As such it constitutes a significant and welcome resource for comparative explorations of historical cultural links between demons illness medicine and magic while offering a clear invitation to future work Matthew A Collins Journal for the Study of the Old Testament 43 5 2019 [The European Witch-Hunt](#) Julian Goodare,2016-05-12 The European Witch Hunt seeks to explain why thousands of people mostly lower class women were deliberately tortured and killed in the name of religion and morality during three centuries of intermittent witch hunting throughout Europe and North America Combining perspectives from history sociology psychology and other disciplines this book provides a comprehensive account of witch hunting in early modern Europe Julian Goodare sets out an original interpretation of witch hunting as an episode of ideologically driven persecution by the godly state in the era of the Reformation and Counter Reformation Full weight is also given to the context of village social relationships and there is a detailed analysis of gender issues Witch hunting was a legal operation and the courts rationale for interrogation under torture is explained Panicking local elites rather than central governments were at the forefront of witch hunting Further chapters explore folk beliefs about legendary witches and intellectuals beliefs about a secret conspiracy of witches in league with the Devil Witch hunting eventually declined when the ideological pressure to combat the Devil s allies slackened A final chapter sets witch hunting in the context of other episodes of modern persecution This book is the ideal resource for students exploring the history of witch hunting Its level of detail and use of social theory also make it important for scholars and researchers *The Witch* Ronald Hutton,2017-01-01 This book sets the notorious European witch trials in the widest and deepest possible perspective and traces the major historiographical developments of witchcraft **A Companion to Venetian History, 1400-1797** ,2013-07-11 The field of Venetian studies has experienced a significant expansion in recent years and the Companion to Venetian History 1400 1797 provides a single volume overview of the most recent developments It is organized thematically and covers a range of topics including political culture economy religion gender art literature music and the environment Each chapter provides a broad but comprehensive historical and historiographical overview of the current state and future directions of research The Companion to Venetian History 1400 1797 represents a new point of reference for the next generation of students of early modern Venetian studies as well as more broadly for scholars working on all aspects of the early modern world Contributors are Alfredo Viggiano Benjamin Arbel Michael Knapton Claudio Povolo Luciano Pezzolo Anna Bellavitis Anne Schutte Guido Ruggiero Benjamin Ravid Silvana Seidel Menchi Cecilia Cristellon David D Andrea Elisabeth Crouzet Pavan Wolfgang Wolters Dulcia Meijers Massimo Favilla Ruggero Rugolo Deborah Howard Linda Carroll Jonathan Glixon Paul Grendler Edward Muir William Eamon Edoardo Demo Margaret King Mario Infelise Margaret Rosenthal and Ronnie Ferguson *The Spanish Inquisition* Henry Kamen,2014-01-01 In this completely updated edition of Henry Kamen s classic survey of the Spanish Inquisition the author incorporates the latest research in multiple languages to offer a new and thought provoking view of this fascinating period Kamen sets the notorious Christian tribunal into the

The European World 1500-1800 An Introduction to Early Modern History Kuminah2 p book 9781138119154 **Current Trends in the Historiography of Inquisitions** Autori Vari, 2024-03-28T10:04:00+01:00 This volume launches the book series of Inquire International Centre for Research on Inquisitions of the University of Bologna a research network that engages with the history of religious justice from the 13th to the 20th century This first publication offers twenty chapters that take stock of the current historiography on medieval and early modern Inquisitions the Spanish Portuguese and Roman Inquisitions and their modern continuations Through the analysis of specific questions related to religious repression in Europe and the Iberian colonial territories extending from the Middle Ages to today the contributions here examine the history of the perception of tribunals and the most recent historiographical trends New research perspectives thus emerge on a subject that continues to intrigue those interested in the practices of justice and censorship the history of religious dissent and the genesis of intolerance in the Western world and beyond **Captives, Colonists and Craftspeople** Russell Palmer, 2020-10-15 Over the course of four centuries the island of Malta underwent several significant political transformations including its roles as a Catholic bastion under the Knights of St John between 1530 and 1798 and as a British maritime hub in the nineteenth century This innovative study draws on both archival evidence and archeological findings to compare slavery and coerced labor resource control globalization and other historical phenomena in Malta under the two regimes one feudal the other colonial Spanning conventional divides between the early and late modern eras Russell Palmer offers here a rich analysis of a Mediterranean island against a background of immense European and global change **The Evolutionary History of Witch-hunting** Steije Hofhuis, 2024-12-06 Why did early modern Europeans hunt for witches Were these persecutions a shrewd tool to oppress women or the poor or were they just a way of making money Or were witch hunters primarily driven by a genuine belief in witchcraft The witches sabbath the diabolical pact and the nightly flight were elements in the early modern concept of witchcraft that seem to have been intelligently designed to trigger persistent witch persecutions But in contrast to what many past historical scholars presumed witch hunts were not based on intelligent design So how to explain them This book proposes a new model Darwinian cultural evolution It contends that witch hunting s apparent design emerged from a hidden evolutionary process in which cultural variants which accidentally unleashed larger persecutions were cumulatively preserved Witch hunting did not so much evolve to serve human interests but to ensure its own selfish reproduction Historians have often compared witch persecutions to the outbreaks of contagious disease but only as a figure of speech But shouldn t we take the similarities more seriously This book argues that witch hunting was a cultural virus that spread at the expense of its human hosts and thus bridges the gap between qualitative history and the burgeoning field of Darwinian cultural evolution **Contesting Inter-Religious Conversion in the Medieval World** Yosi Yisraeli, Yaniv Fox, 2016-12-08 The Mediterranean and its hinterlands were the scene of intensive and transformative contact between cultures in the Middle Ages From the seventh to the seventeenth century the three civilizations into which the

region came to be divided geographically the Islamic Khalifate the Byzantine Empire and the Latin West were busily redefining themselves vis vis one another Interspersed throughout the region were communities of minorities such as Christians in Muslim lands Muslims in Christian lands heterodoxical sects pagans and of course Jews One of the most potent vectors of interaction and influence between these communities in the medieval world was inter religious conversion the process whereby groups or individuals formally embraced a new religion The chapters of this book explore this dynamic what did it mean to convert to Christianity in seventh century Ireland What did it mean to embrace Islam in tenth century Egypt Are the two phenomena comparable on a social cultural and legal level The chapters of the book also ask what we are able to learn from our sources which at times provide a very culturally charged and specific conversion rhetoric Taken as a whole the compositions in this volume set out to argue that inter religious conversion was a process that was recognizable and comparable throughout its geographical and chronological purview

Folklore, Magic, and Witchcraft Marina Montesano, 2021-08-19 This volume offers 18 studies linked together by a common focus on the circulation and reception of motifs and beliefs in the field of folklore magic and witchcraft The chapters traverse a broad spectrum both chronologically and thematically yet together their shared focus on cultural exchange and encounters emerges in an important way revealing a valuable methodology that goes beyond the pure comparativism that has dominated historiography in recent decades Several of the chapters touch on gender relations and contact between different religious faiths using case studies to explore the variety of these encounters Whilst the essays focus geographically on Europe they prefer to investigate relationships over highlighting singular local traits In this way the collection aims to respond to the challenge set by recent debates in cultural studies for a global history that prioritises inclusivity moving beyond biased or learned attachments toward broader and broadening foci and methods With analysis of sources from manuscripts and archival documents to iconography and drawing on writings in Latin Hebrew Arabic and other languages this volume is essential reading for all students and scholars interested in cultural exchange and ideas about folklore magic and witchcraft in medieval and early modern Europe

Magic, Body and the Self in Eighteenth-Century Sweden Jacqueline Van Gent, 2009 Contrary to previous assumptions magic remained an integral part of everyday life in

Enlightenment Europe This book demonstrates that the endurance of magical practices both benevolent and malevolent was grounded in early modern perceptions of an interconnected body self and spiritual cosmos Drawing on eighteenth century Swedish witchcraft trials which are exceptionally detailed these notions of embodiment and selfhood are explored in depth The nuanced analysis of healing magic the role of emotions the politics of evidence and proof and the very ambiguity of magical rituals reveals a surprising syncretism of Christian and pre Christian elements The book provides a unique insight to the history of magic and witchcraft the study of eighteenth century religion and culture and to our understanding of body and self in the past

A History of Exorcism in Catholic Christianity Francis Young,2016-04-27 This book traces the development of exorcism in Catholic Christianity from the fourth century to the present day and seeks to explain why exorcism is still so much in demand This is the first work in English to trace the development of the liturgy practice and authorisation of exorcisms in Latin Christianity The rite of exorcism and the claim by Roman Catholic priests to be able to drive demons from the possessed remains an enduring source of popular fascination but the origins and history of this controversial rite have been little explored Arguing that belief in the need for exorcism typically re emerges at periods of crisis for the church Francis Young explores the shifting boundaries between authorised exorcisms and unauthorised magic throughout Christian history from Augustine of Hippo to Pope Francis This book offers the historical background to and suggests reasons for the current resurgence of exorcism in the global Catholic Church
