Black Christology and the Quest for Authenticity John H. McClendon III, 2019-05-03 Black

Christology and the Quest for Authenticity A Philosophical Appraisal constitutes a philosophical inquiry on Black Theology and its attendant Black Christology Explicitly the philosophical examination of Black Theology conceptually maps its quest for establishing Black Christology as an authentic form within Christian theology This text critically expounds on the methodologies and arguments which guide how Black Theology specifically affirms Black Christology as the definitive paradigm for authentic Christianity Significantly the racialized character of Black Theology immediately sets this discourse within the context of philosophy of race Clearly the philosophy of race in terms of its substance and scope is continually expanding Notably the philosophy of religion in its conceptual association with the African American experience considerably enriches the content of the philosophy of race Therefore Black Christology and the Quest for Authenticity A Philosophical Appraisal stands as a unique contribution to philosophy of race Summarily while this book tackles the formidable problem of Christian theological subject matter nonetheless the reader must be aware that this is not a work executed methodologically in any theological manner inclusive of Christian theology Subsequently while the object of our investigation substantively remains theological in character the method of investigation is guided by philosophical inquiry which is based on secular principles Furthermore although most mainstream works in philosophy of religion along with theology neglect to examine African American theologians and philosophers the subject matter of Black Christology substantially facilitates in filling this intellectual void
