Wither The Franc Zone In Africa:

Wither the Franc Zone in Africa? Demba Dembele, Carlos Cardoso, 2015-10-15 This book is based on a conference held in October 2012 African Countries and the Franc Zone Remaining in the Trap or Opting for Monetary Independence It reviews the global context characterized by the systemic crisis of capitalism and the questioning of its legitimacy in several regions of the world particularly in the global South It provides an overview the challenges of economic and monetary emancipation the consequences of the Franc Zone and its implications for the development of African countries including the analysis of the latter's economic and social record and reviews the experiences of countries that gained their monetary sovereignty and the lessons for the creation of a West African currency In addition to providing the proceedings of the conference the book includes essays by Nicolas Agbohoun Sanou Mbaye Demba Moussa Dembele Mohamed Ben Omar Ndiaye Yash Tandon and Lansana Keita Editors Demba Moussa Dembele is a Senegalese economist and director of the Forum for African Alternatives and director of Africaine de Recherche et de Cooperation pour l'Appui au Developpement Endogene ARCADE Carlos Cardoso an intellectual from Guinea Bissau is head of the research program of the Council for the Development of Social Science Research in Africa CODESRIA

Wither the Franc Zone of West Africa? Demba Moussa Dembélé, Carlos Cardoso, 2016-04-21 The title reviews the global context for the so called Franc zone as well as the specific consequences to be faced by individual countries in the global South

Africa in a Multilateral World Albert Kasanda, Marek Hrubec, 2021-07-29 The book analyses how Africans and Africa relate to other parts of the multilateral world and to the world in general and how these relations stem from local national and regional interactions in different parts of Africa as well as Africa as a whole The first part focuses on the assumptions that are necessary to understand the role of Africa on the global stage especially from the perspectives of political philosophy and global and international studies The second part of the book looks at both Afropolitan trends and the limits of Afropolitanism In the third part the authors focus on specific African global tendencies stemming from the local conditions in several case studies Traditional and modern politics is connected problematically with the current Jihadist organisations in the local African conditions related to unilateralism and global war on terror for example The fourth part deals with the relevance of the language ambivalence in relation to global interactions It examines various views of African philosophy and lays bare the perception of earlier colonial languages in view of their current strength of global action This book will be of interest to scholars of African studies political philosophy politics and global studies

Africa's Wellbeing in an Uncertain World Vusi Gumede, 2020-11-09 The world remains uncertain Africa is fragile Many issues remain unresolved and the African and global situation is worsening South Africa has been at the crossroads for long enough There can be no more delays the time has come to address the many critical issues In Africa's Wellbeing in an Uncertain World Vusi Gumede discusses these critical issues about Africa with specific focus on South Africa He has revisited opinion articles and blogs he has been writing since the mid 2000s and taken his ideas and arguments

together with his deliberations on the recent changes globally and in Africa and presented them in this thought provoking book While taking into account what others have said about similar issues this is an attempt to get us to talk about these challenges the important issues and fundamental problems with a view to finding solutions The future of the African continent could be bright if all the efforts that are being pursued for the improved wellbeing of Africans succeed But as Vusi Gumede reflects in this book if South Africa is to achieve the society envisaged in the Constitution then all South Africans whatever the colour of their skin have an important role to play

Regionalism in Africa Daniel C Bach, 2015-12-22 Africa which was not long ago discarded as a hopeless and irrelevant region has become a new frontier for global trade investment and the conduct of international relations This book surveys the socio economic intellectual and security related dimensions of African regionalisms since the turn of the 20th century It argues that the continent deserves to be considered as a crucible for conceptualizing and contextualizing the ongoing influence of colonial policies the emergence of specific integration and security cultures the spread of cross border regionalisation processes at the expense of region building the interplay between territory space and trans state networks and the intrinsic ambivalence of global frontier narratives This is emphasized through the identification of distinctive threads of regionalism which by focusing on genealogies trajectories and ideals transcend the binary divide between old and new regionalisms In doing so the book opens new perspectives not only on Africa in international relations but also Africa's own international relations This text will be of key interest to students and scholars of African politics African history regionalism comparative regionalism and more broadly to international political economy international relations and global and regional governance

Foreign Aid: New Perspectives K. L. Gupta, 2012-12-06 Foreign aid has been an area of active scholarly investigation since the end of the Second World War but particularly since the early 1950s when a large number of the erstwhile colonies became independent Few areas of public policy involving the developed and developing countries have aroused more passion and ideological debate than foreign aid In spite of the massive amount of research in the field there is still not enough work in two areas the first involves the mechanisms through which aid influences the economies of the donor and the recipient countries and the second country specific assessments of the effectiveness of foreign aid Foreign Aid New Perspectives is aimed at making a contribution in these two areas The contents of this volume are divided into four parts Part I deals with some theoretical aspects of foreign aid while the second part analyzes some general policy aspects Part III turns to the donor experience and includes one paper on the Danish experience The last part considers the recipient experience and consists of five case studies

France in the Troubled World Economy Stephen S.

Cohen, Peter Alexis Gourevitch, 1982 **The Adaptive Economy** Tony Killick, 1993-01-01 This book explores the relationship between economic adaptation and long run development with particular emphasis on small low income economies It also examines what makes for flexibility within an economy and how policy can affect an economy's ability to adapt to conditions over which it has no control The premise is that all economies need to adapt to changing circumstances in order to achieve a reasonable pace of development The author explains the forces to which economies need to respond the attributes that increase an economy's capacity to adjust the difficulties of adjustment and what policy can do to facilitate adjustment The author illustrates structure and flexibility within an economy and offers a guide to forming policy Specific policy options are examined among them using exchange rate fluctuations The roles of government and markets in setting adjustment policies for industry agriculture and finance are explored The study draws upon a wide range of material and avoids a narrowly economic point of view The book is intended for use by economists working for or advising government agencies and for teachers and students of development economics It includes an extensive reference list **West Africa** , 1996 **Country Report** , 1996 Identität und Weltfähigkeit Ludger Kühnhardt, 2020-07-16 Die Zusammenhänge zwischen Fragen der Identität und der vielschichtigen globalen Transformation waren selten so offenkundig wie im zweiten Jahrzehnt des 21. Jahrhunderts in Europa und darüber hinaus Die Suche nach Identitätskriterien stand und steht weiterhin im Kern der multiplen europäischen Krisenphänomene Gleichzeitig war und ist die Europäische Union mit der Aufgabe konfrontiert strategisch zu sprechen und zu handeln Nichts ist eindeutig gesichert hinsichtlich des Ausgangs aus den derzeitigen Prozessen der Neugründung und Neubegründung Europas Die wissenschaftlichen Aufsätze Essays und öffentlichen Stellungnahmen von ZEI-Direktor Prof. Ludger Kühnhardt, die in dieser Sammlung organisiert vorgelegt werden, entstanden zwischen 2010 und 2020 Sie reflektieren kontroverse Debatten und anhaltende Gedankenwege aus der zweiten Dekade des 21.
