

FT-101

SSB TRANSCEIVER

GENERAL DESCRIPTION

The model FT-101/277 SSB Transceiver is a precision built, compact high performance transceiver of advanced design providing SSB (USB, LSB selectable) CW and AM modes of operation. The transceiver operates at an input of 5-15 watts SSB, 15-40 watts CW and 80 watts AM on all bands 160 to 10 meters.

All circuits, except the transmitter driver and linear amplifier, are transistorized and composed of standard computer type plug-in modules, permitting easy maintenance.

The transceiver is self-contained, requiring only an antenna and an A.C. mains for home, portable or mobile operation. The transceiver may be operated from 100/110/117/200/220/234 volts AC when appropriately wired but is normally supplied for 117 volt AC and 12 volt DC operation. The two-way solid state power supply is an integral part of the unit. Two power cords are provided with the transceiver. Selection of AC or DC power source is automatically made when the proper line cord plug is inserted.

For mobile operation a separate switch is provided on the front panel to turn off the tube heaters while in

the receive mode. In this mode the transceiver draws only 0.5 amp. less than your auto dash lights.

All accessories, such as VOX, break in CW with sidetone, 25 and 100 KHz calibrators, noise blanker, 10 MHz WWV are built in. In addition, dual VFO adaptor, crystal control adaptor, speaker and earphone are integral parts of the unit. Provision is made for the installation of 600 Hz crystal filter for the expert CW-DX operator. The CW filter is selected automatically when the transceiver mode switch is placed in the CW position.

The entire transceiver weighs approximately 30 pounds, is 13 1/2" wide, 6" high, 11 1/2" deep. Construction is of heavy-gauge steel which provides an extremely rugged package, virtually immune to the effects of vibration and shock.

The SP 10/P/277P combination phone patch and external speaker is a valuable optional accessory for base operation. The unit features an elliptical type speaker for high quality voice reproduction. Other optional equipment includes the FT-101/277 external VFO and mobile mounting brackets.
