OBJECT OF THE GAME

Be the first player to score 500 points. Points are scored by getting rid of all the cards in your hand before your opponent(s). You score points for cards left in your opponents' hands.

SET UP

Place the Wheel Reference cards nearby; these will help you identify the icons on the wheel whenever it is spun.

Each player draws a card.

The person who draws the highest number deals.

Once the cards are shuffled each player is dealt 7 cards.

The remainder of the deck is placed facedown in the center of the wheel to form a DRAW pile.

The top card of the DRAW pile is turned over to begin a DISCARD pile, also in the center of the wheel.

LET'S PLAY

The person to the left of the dealer starts play.

The player taking their turn has to match the card on the DISCARD pile, either by number, color or symbol. For example, if the card is a red 7, the player must put down a red card or any color 7. Alternatively, the player can put down a Wild card (See FUNCTIONS OF ACTION CARDS).

If a NUMBER CARD played features a swirling pattern, this is a Spin card and the special rule applies (see SPIN CARDS).

If the player doesn't have a card to match the one on the DISCARD pile, they must take a card from the DRAW pile. If the card picked up can be played, the player is free to put it down in the same turn. Otherwise, play moves on to the next person in turn.

Players may choose not to play a playable card from their hand. If so, the player must draw a card from the DRAW pile. If playable, the card just drawn can be played immediately, but that player may not play a card that was already in their hand prior to the draw.
