Unrequited Conquests Roland Greene, 1999 Love poetry dominated European literature during the Renaissance Its attitudes conventions and values appeared not only in courtly settings but also in the transatlantic world where cultures were being built power exercised and policies made In this major contribution to our understanding of both the Age of Exploration and early modern lyric Roland Greene argues that love poetry was not simply a reflection of the times but a means of cultural transformation European encounters with the Americas awakened many forms of desire which pervaded the writings of explorers like Columbus and his contemporaries These experiences in turn shaped colonial society in Brazil Peru and elsewhere The New World while it could be explored conquered and exploited could never really be known leaving Europe s desire continually unrequited and the project of empire unfulfilled Using numerous poetic examples and extensive historical documentation *Unrequited Conquests* rewrites the relations between the Renaissance and colonial Latin America and between poetry and history

The Business of Conquest Nicole D. Legnani, 2020-12-15 The Spanish conquest has long been a source of polemic ever since the early sixteenth century when Spanish jurists began theorizing the legal merits behind native dispossession in the Americas But in *The Business of Conquest* Empire Love and Law in the Atlantic World Nicole D Legnani demonstrates how the financing and partnerships behind early expeditions betray their own praxis of imperial power as a business even as the laws of the Indies were being written She interrogates how and why apologists of Spanish Christian empire such as Jos de Acosta found themselves justifying the Spanish conquest as little more than a joint venture between crown and church that relied on violent actors in pursuit of material profits but that nonetheless served to propagate Christianity in overseas territories Focusing on cultural and economic factors at play and examining not only the chroniclers of the era but also laws contracts theological treatises histories and chivalric fiction Legnani traces the relationship between capital investment monarchical power and imperial scalability in the Conquest In particular she shows how the Christian virtue of caritas love and charity of neighbor and thus God became confused with cupiditas greed and lust

because love came to be understood as a form of wealth in the partnership between the crown and the church In this partnership the work of the conquistador became ultimately that of a traveling business agent for the Spanish empire whose excess from one venture capitalized the next This business was thus the business of conquest and featured entrepreneurial violence as its norm not exception The Business of Conquest offers an original examination of this period including the perspectives of both the creators of the colonial world monarchs venture capitalists conquerors and officials of religious figures such as Las Casas and finally of indigenous points of view to show how a venture capital model can be used to analyze the partnership between crown and church It will appeal to students and scholars of the early modern period Latin American colonial studies capitalism history and indigenous studies *Sonnet Sequences and Social Distinction in Renaissance England* Christopher Warley, 2005-07-28 Since the 1970s there has been a broad and vital reinterpretation of the nature of literary texts a move away from formalism to a sense of literature as an aspect of social economic political and cultural history While the earliest New Historicist work was criticized for a narrow and anecdotal view of history it also served as an important stimulus for post structuralist feminist Marxist and psychoanalytical work which in turn has increasingly informed and redirected it Recent writing on the nature of representation the historical construction of gender and of the concept of identity itself on theatre as a political and economic phenomenon and on the ideologies of art generally reveals the breadth of the field Cambridge Studies in Renaissance Literature and Culture is designed to offer historically oriented studies of Renaissance literature and theatre which make use of the insights afforded by theoretical perspectives The view of history envisioned is above all a view of our history a reading of the Renaissance for and from our own time Book jacket

Gathering Force: Early Modern British Literature in Transition, 1557-1623: Volume 1 Kristen Poole, Lauren Shohet, 2019-01-17 During the sixteenth and early seventeenth centuries England grew from a marginal to a major European power established overseas settlements and negotiated the Protestant Reformation The population burgeoned and became increasingly urban England also saw the meteoric rise of commercial theatre in London the creation of a vigorous market for printed texts and the emergence of writing as a viable profession Literacy rates exploded and an increasingly diverse audience encountered a profusion of new textual forms Media and literary culture transformed on a scale that would not happen again until television and the Internet The twenty innovative contributions in Gathering Force Early Modern Literature in Transition 1557 1623 trace ways that five different genres both spurred and responded to change Chapters explore different facets of lyric poetry romance commercial drama masques and pageants and non narrative prose Exciting and accessible this volume illuminates the dynamic relationships among the period s social political and literary transformations *Sacred Seeds* Edward McLean Test, 2019-01-01 More than five hundred years after the fact present day writers still use hyperbolic adjectives to describe the discovery of the Americas Columbus s crossing of the Atlantic and the age of exploration that ensued dramatically and forever changed the early modern world The societies economies cultures

arts and burgeoning sciences of Europe were quickly transformed by the ongoing encounter with the New World. The meeting of the New and the Old Worlds however was more than a meeting of disparate civilizations. It was also a confluence of exciting and often surprising associations that continually created new interfaces between materials and knowledge. The Western and Eastern Hemispheres brought together by sailing ships for the first time on a large scale helped create the global landscape we take for granted today. Central to this formative moment in global history were New World plants. The agriculture of indigenous peoples mythically and materially shaped English society and subsequently its literature in new and startling ways. *Sacred Seeds* examines New World plants tobacco, amaranth, guaiacum, and the prickly pear cactus and their associated Native myths as they moved across the Atlantic and into English literature. Edward McLean Test reinstates the contributions of indigenous peoples to European society, charting an alternative cultural history that explores the associations and assemblages of transatlantic multiplicity rather than Eurocentric homogeny.

The Inner Sea Josiah Blackmore, 2022-09-07 Blackmore shows that the sea and nautical travel for Camões and his contemporaries were not merely historical realities in early modern Iberia during the age of discovery; they were also principles of cultural creativity that connect to larger critical debates in the widening field of the maritime humanities. For Blackmore, the sea, ships, and nautical travel unfold into a variety of empirical, metaphoric, and symbolic dimensions, and the oceans across the globe that were traversed in the fifteenth and sixteenth centuries correspond

to oceans within the literary self vast reaches and depths of emotion consciousness memory and identity Cartesian Poetics Andrea Gadberry,2020-11-10 What is thinking What does it feel like What is it good for Andrea Gadberry looks for answers to these questions in the philosophy of Ren Descartes and finds them in the philosopher s implicit poetics Gadberry argues that Descartes s thought was crucially enabled by poetry and shows how markers of poetic genres from love lyric and elegy to the puzzling forms of the riddle and the anagram betray an impassioned negotiation with the difficulties of thought and its limits Where others have seen Cartesian philosophy as a triumph of reason Gadberry reveals that the philosopher accused of having slashed poetry s throat instead enlisted poetic form to contain thought s frustrations Gadberry s approach to seventeenth century writings poses questions urgent for the twenty first Bringing literature and philosophy into rich dialogue Gadberry centers close reading as a method uniquely equipped to manage skepticism tolerate critical ambivalence and detect feeling in philosophy Helping us read classic moments of philosophical argumentation in a new light this elegant study also expands outward to redefine thinking in light of its poetic formations *Putting Russia on the Globe* Elena Shvarts,2004 *Luso-Braz. Rev* ,2003 *AdI* ,1983 **The Supreme Conquest** William Lonsdale Watkinson,1907 History of the conquest of Mexico ... ed. by W. H. Munro ... and comprising the notes of the edition by J. F.
