Returning to Shakespeare Brian Vickers,2021-03-30 Returning to Shakespeare addresses two broad areas of Shakespeare criticism the unity of form and meaning and the history of the plays reception Originally published in 1989 the collection represents the best of Brian Vickers work from the previous fifteen years in a revised and expanded form The first part of the book focuses on the connection between a work s structural or formal properties and our experience of it A new study of the Sonnets shows how personal relationships are literally embodied in personal pronouns An essay on Shakespeare s hypocrites Richard III Iago Macbeth analyses the uncomfortable intimacy established between them and the audience by means of soliloquies and asides Another traces the interplay between politics and the family in Coriolanus two forms of pressure which combine to push the hero outside society In the second part Professor Vickers examines some key episodes in the history of Shakespeare criticism One essay reviews the persistence of drastically altered adaptations of Shakespeare on the London stage from the 1690s to the 1830s due to the conservatism of both theatre managers and audience Another reconstructs the debate over Hamlet s character in the last quarter of the eighteenth century in which the Romantic image of a hero lacking control of his faculties emerged for the first time This is an important collection by an outstanding Shakespeare critic which will interest specialists and general readers alike

Legends of the Security Services Industry Keith Oringer,Michael Hymanson,2024-09-25 The global contract security market now totals over 200 billion with the number of private security officers exceeding that of public law enforcement officers But this wasn t always the case Legends of the Security Services Industry Profiles in Leadership presents the unique stories of 15 industry legends who transformed the industry from early private detective and small night watch companies into large scale contract security companies The large scale companies include but are not limited to Pinkerton Burns International The Wackenhut Corporation Guardsmark Wells Fargo and U S Security Associates

as well as today's leading security companies Allied Universal, Securitas, G4S, Prosegur and GardaWorld. The book begins in the nineteenth century with early U.S. legendary detectives Allan Pinkerton and William Burns. Then the book focuses largely from the mid twentieth century to the present where successive generations of legends built large scale contract security companies which competed with and then acquired those formed by the early legends. Part II legends George Wackenhut, Ira Lipman and Tom Wathen. Part III legends Charles Schneider, Kenneth W. Oringer, William Whitmore Jr and Albert Berger and Part IV Scandinavian legends Jørgen Philip Sørensen, Lars Nørby, Johansen and Thomas Berglund all developed major security companies. Part V includes current global security leaders Helena Revoredo Gut, Stephan Crutier and Steve Jones. Part VI reviews the timelines and successful leadership of these legendary leaders with a look at the future of the industry. The legends' personal stories contain colorful insight into how they capitalized on the industry's explosive growth. While each generation of legends faced unique social and competitive landscapes, their personal stories illustrate how they respectively succeeded. Their leadership and management prowess enabled them to achieve great success as they displayed vision and achieved their goals through grit, determination, hard work, charisma, organizational skills and calculated risk taking. Each chapter has been extensively researched and includes firsthand accounts based on interviews with living legends, colleagues and family of deceased legends. Personal company and signature event photos add further color to the moving narrative. Their stories are not only highly interesting but also provide a framework for current leaders and the next generation of entrepreneurs on how to build and lead large scale security service companies.
