Urban Policy In Twentieth Century America:

Urban Policy in Twentieth-century America Arnold Richard Hirsch, Raymond A. Mohl, 1993 The recent riots in Los Angeles brought the urban crisis back to the center of public policy debates in Washington D C and in urban areas throughout the United States The contributors to this volume examine the major policy issues race housing transportation poverty the changing environment the effects of the global economy confronting contemporary American cities Raymond A Mohl begins with an extended discussion of the origins evolution and current state of Federal involvement in urban centers Michael B Katz follows with an insightful look at poverty in turn of the century New York and the attempts to ameliorate the desperate plight of the poor during this period of rapid economic growth Arnold R Hirsch Mohl and David R Goldfield then pursue different facets of the racial dilemma confronting American cities Hirsch discusses historical dimensions of residential segregation and public policy while Mohl uses Overtown Miami as a case study of the social impact of the construction of interstate highways in urban communities David Goldfield explores the political ramifications and incongruities of contemporary urban race relations Finally Carl Abbott and Sam Bass Warner Jr examine the impact of global economic developments and the environmental implications of past policy choices Collectively the authors show us where we have been some of the needs that must be addressed and the urban policy alternatives we face *From Tenements to the Taylor Homes* John F. Bauman, Roger Biles, Kristin M. Szylvian, 2000-08-01 Authored by prominent scholars the twelve essays in this volume use the historical perspective to explore American urban housing policy as it unfolded from the late nineteenth through the twentieth centuries Focusing on the enduring quest of policy makers to restore urban community the essays examine such topics as the war against the slums planned suburbs for workers the rise of government aided and built housing during the Great Depression the impact of post World War II renewal policies and the retreat from public housing in the Nixon Carter and Reagan years **The Making of Urban America** Raymond A. Mohl, 1997-06 This second edition is designed to introduce students of urban history to recent interpretive literature in this field Its goal is to provide a coherent framework for understanding the pattern of American urbanization while at the same time offering specific examples of the work of historians in the field The Origins of the Urban Crisis Thomas J. Sugrue, 2014-04-27 The reasons behind Detroit's persistent racialized poverty after World War II Once America's arsenal of democracy Detroit is now the symbol of the American urban crisis In this reappraisal of America's racial and economic inequalities Thomas Sugrue asks why Detroit and other industrial cities have become the sites of persistent racialized poverty He challenges the conventional wisdom that urban decline is the product of the social programs and racial fissures of the 1960s Weaving together the history of workplaces unions civil rights groups political organizations and real estate agencies Sugrue finds the roots of today's urban poverty in a hidden history of racial violence discrimination and deindustrialization that reshaped the American urban landscape after World War II This Princeton Classics edition includes a new preface by Sugrue discussing the lasting impact

of the postwar transformation on urban America and the chronic issues leading to Detroit's bankruptcy
