decorations introduced to reflect battlefield feats Specialists such as mountain troops tank crews and combat engineers were issued distinctive uniform items and kit while the ever expanding variety of fronts on which the German Army fought from the North African desert to the Russian steppe prompted the rapid development of clothing and equipment for different climates and conditions In addition severe shortages of raw materials and the demands of clothing and equipping an army that numbered in the millions forced the simplification of many items and the increasing use of substitute materials in their manufacture In this fully illustrated book noted authority Dr Stephen Bull examines the German Army s wide range of uniforms personal equipment weapons medals and awards and offers a comprehensive guide to the transformation that the German Army soldier underwent in the period from September 1939 to May 1945 **Shore and Beach** ,1998
