US Heavy Cruisers 1941 45 Pre War Classes New Vanguard:

US Heavy Cruisers 1941-45 Mark Stille, 2014-04-20 Designed and produced under the regulations of the Washington Naval Treaty the heavy cruisers of the Pensacola Northampton Portland New Orleans and Wichita classes were exercises in compromise While they possessed very heavy armament the Pensacolas for example carrying a main battery of ten 8 guns this came at the cost of protection armor was the same thickness as a gun cruiser and incapable of protecting the vessels from enemy 8 fire As the classes evolved these flaws began to be corrected with the main battery being reduced and increased protection being added to the vital areas of the ship Despite these drawbacks the pre war heavy cruiser classes served with distinction throughout World War II *Kriegsmarine Auxiliary Cruisers* Gordon Williamson, 2012-06-20 Despite

being relatively unknown compared to famous ships like Graf Spee or Bismarke or the more famous U boats the Auxiliary Cruisers were immensely successful not only in the number of enemy ships they sank but in the resources which were tied up trying to track them down The Royal Navy s auxiliary cruisers tended to be merchant vessels used to protect convoys from attack The German Auxiliary Cruisers however heavily armed and usually carried torpedo tubes as well as guns and even sometimes their own aircraft These ships were aggressive predators searching the sea lanes for unsuspecting enemy merchants and were not only capable of destroying enemy merchant ships but also of defending themselves against well armed enemy warships This book looks at the specifications and designs of the 11 Auxiliary Cruisers as well as their combat histories their eventual fates and the careers of some of the most famous commanders *Cromwell Cruiser Tank 1942-50*

David Fletcher, Richard C Harley, 2012-05-20 For most of World War II British tank development remained faithful to the design philosophy inaugurated during World War I Experiences in North Africa highlighted flaws in this basic design however and the General Staff identified the need for a new heavy cruiser that could combine speed and manoeuvrability with increased armour and armament The Cromwell Cruiser tank was designed as a result and soon proved itself one of the fastest and most successful tanks deployed by the Allies during World War II This book details the design and development of the Cromwell and its many variants from its introduction at D Day through its many successes in the final year of World War II and beyond **Zeppelins** Charles Stephenson, 2012-03-20 On 2 July 1900 the people of Friedrichshafen Germany

witnessed a momentous occasion the first flight of LZ 1 Count Ferdinand von Zeppelin s first airship Although deemed a failure a succession of better craft LZ2 to 10 enabled the Zeppelin to expand into the consumer market of airship travel whilst also providing military craft for the German Army and Navy The years of the Great War saw the Zeppelins undertake strategic bombing missions against Great Britain This engaging illustrated study covers the post war fate of the Zeppelins including the crash of the Hindenburg and their use by the Luftwaffe at the beginning of World War II *German Battleships 1914-18 (2)* Gary Staff, 2012-01-20 The design and development of the key dreadnought classes for the German

Imperial Navy and their deployment in World War I including the great clash of dreadnoughts at the Battle of Jutland and

operations in the Baltic Supported by official documents personal accounts official drawings and specially commissioned artwork this is an informative history of the key classes Kaiser K nig and Bayern that formed the backbone of the German Imperial Navy throughout World War I Gary Staff details the technological revolution that had taken place to enable the building of these large dreadnought classes *The Rolls-Royce Armoured Car* David Fletcher,2012-04-20 The first Rolls Royce armoured car a privately owned vehicle fitted with a machine gun and limited armour plate was used by the Royal Naval Air Service in Flanders in 1914 By 1915 nearly 100 had been built and turned over to the Army From then on as Sir Albert Stern said They searched the world for war operating as far apart as the northwest frontier of India the Middle East and southern Africa The cars were fast quiet and reliable but above all powerful This book tells the complete story of the Rolls Royce Armoured Car following its design and development as it fought from theatre to theatre during World War I and the turbulent inter war years After World War I the War Office continued to produce the Rolls Royce while tinkering with the design These further cars served all across the Empire including in Ireland and even later Shanghai returning for a final brief appearance in the early stages of World War II **German Battlecruisers 1914-18** Gary Staff,2012-01-20 The task of Germany s new Gro e Kreuzer at the beginning of the 20th century was to form an independent reconnaissance division that was able to perform special tasks With a speed superiority of at least 3 knots they should also be capable of fighting in the line and would thus require heavy armour and good defensive qualities The battlecruisers that were built did indeed have a remarkable ability to withstand battle damage as demonstrated by the Goeben which suffered five mine hits on one occasion This illustrated book details all the classes of German battlecruiser with particular emphasis on each individual ship s battle experience and deployment in conflict German Battleships 1914-18 (1) Gary Staff,2012-01-20 A focused look at the first dreadnought classes for the German Imperial Navy and their deployment in World War I including the great clash of dreadnoughts at the Battle of Jutland This volume covers the history of the Deutschland to Osfriesland classes of German battlecruisers beginning with the last of the pre dreadnought battleships and explaining the revolutionary developments particularly the vast increases in size and armament that took place within the German Imperial Navy as it readied itself for war Gary Staff describes the design and technology of these classes focusing on the development and combat experiences of individual ships Supported by official documents first hand accounts and drawings this book also contains specially commissioned artwork depicting the battleship Pommern fighting at Jutland and ships of the Osfriesland class destroying HMS Black Prince in a dramatic night time engagement Battleships of the World René Greger,1997 Written by a leading naval authority this book provides comprehensive details on all battleships built since 1905 and the large pre dreadnoughts built that year **Ships Monthly** ,2004 **Imperial Japanese Navy Heavy Cruisers 1941-45** Mark Stille,2012-05-20 Designed with little more than a passing nod to the international naval treaties of the inter war period the Imperial Japanese Navy s heavy cruisers were fast and heavily armed Like the other vessels of the Japanese Navy the heavy cruisers were

technologically superior to and far more innovative than their Allied rivals whom they met in many of the major Pacific Theatre battles including Midway and Leyte Gulf Mark Stille continues his study of the IJN of WWII with this fascinating topic addressing the design and development of all 18 ships in the six heavy cruiser classes from pre war construction and mid war alterations to their operational histories and eventual fates **Battleships of the World, 1905-1970** Siegfried Breyer,1980 **International Military and Defense Encyclopedia** Trevor Nevitt Dupuy,1993 This book provides a reference source for vital military and defence information British Battleships of World War Two Alan Raven,John Roberts,1976 This lavishly illustrated volume first published in 1976 and back by popular demand presents the full story of the design and construction of every British battleship and battlecruiser class that served in World War II from the Queen Elizabeth class to the Vanguard Noted authors Alan Raven and John Roberts include a comprehensive review of each ship s initial configuration and refits as well as developments in weapons gunnery fire control radar protection and propulsion There are also sections devoted to combat actions involving British battleships and comparisons with battleships of other navies Six hundred photographs and illustrations including sixteen fold out pages complement the authoritative history of the vessels For other books in the battleship series see page 26 **The New International Year Book** ,1946 *US Heavy Cruisers 1943-75* Mark Stille,2014-09-20 A companion book to *US Heavy Cruisers 1941-45* this is a guide to those cruisers built in the later years of World War II and beyond together forming the definitive guide to the US s heavy cruiser classes Versatile warships the heavy cruisers of the Baltimore class and their successors in the Oregon City and Des Moines classes commonly acted as carrier escorts throughout World War II but also performed bombardment duties in support of amphibious landings Post World War II the heavy cruisers continued to see service chiefly in Korea and Vietnam Even after the heyday of the heavy cruiser had passed the ships continued to serve several were converted into the earliest examples of guided missile cruisers and created an enduring legacy in the US Navy From an established expert on the US and Pacific naval history this is an invaluable resource richly illustrated with artwork and photographs The Naval Institute Guide to the Ships and Aircraft of the U.S. Fleet Norman Polmar,2005 Provides a detailed analysis of the U S Navy and gives the history specifications and tactical role of naval ships and aircraft Keessing's Contemporary Archives ,1946 **Warship International** ,1979 **British War Production, 1939-1945** Times,1945
