*Via Bhatinda* Satish C. Bhatnagar, 2013-05-06 I have been reading some excellent writings by you Consider sending me such some pieces in Hindi for the Vishva Vivek Regards BhuDev On 14 Ive wanted to say this for a long time Since you write so well I am surprised that you dont enter the Toastmasters International Speech Contest more often and win Maybe I could help you convert some of your writings into inspirational speeches Let me know if interested Narayanan On 19 It seems you have knack of praising everything Americana by putting Hinduism down Nobody can miss this bias in your articles Have you heard about samagams and they were what conventions were sans frills Wish you could make your point without getting into unnecessary diversion Rahul On 28 This is by far the best of your recent articles Anand Bhatia On 38 Your articles are thought provoking Sometimes I read them twice or thrice to grasp the deeper ideas embedded You have a natural talent to express the ideas and feelings Soori On 60 You have had a very eventful life indeed coming in company with people of unusual talents In contrast I knowingly drifted away from success in search of what I thought was truth I did find it But I have been going into hardship intentionally and rejected the material world Subhash On 76

**Vectors in History** Satish C. Bhatnagar, 2022-01-14 History is universally understood as a story of the past In both the volumes history is told in stories only There are no boring dates as that is one singular reason for which people hate history in schools and colleges There are no generic descriptions of the reigns of kings and queens as no one likes monarchies any more Each volume contains 70 80 articles essays but the author calls them reflections absolutely independent of each other They are dated each one of them has an immediate reason to be written for They are spun around in order to make connections with 2 3 nodes of life most importantly making a connection with the present If an event in the past doesnt t make a connection with the present then it is not worth digging it out History is not a recipe book that one would refer to for finding a solution to a present problem At the same time those who do not learn from history are condemned to repeat it Author s roots being deep both in India and the US the scenarios are drawn accordingly One of the objectives is to rekindle interest in history in general Ironically the US public has been losing interest in history both contemporary and gone by eras Whereas Indian especially the Hindus are light years away from history in any shape or form Both volumes have the same format Taking into consideration the taste of the readers reflections are divided into four sections

BHATNAGAR,2014-04 You personify your name Rahul On 25 I had goose bumps as I read your email You must be so proud of your Mama Ji Shobha On 28 You have reduced religion to the dynamics of market forces What a wonderful idea Religion is the invention of man and spirituality is a science of connecting with GOD Shadi Ram On 32 This is a good reflection You have provided a historical dimension as also the need for unification of the divergent Hindu stratifications Moorty On 33 Looks like I am getting regular lessons from my Teacher I am blessed Jadav On 35 Wow What a scientific way to depict the age old Aryan culture Gouranga Saha On 36

*Plums, Peaches and Pears of Education* Satish C. Bhatnagar,2016-04-07 The title of a book is like the name of a person which amongst the Hindus in particular is very significant It is generally given in a naam sanskar naming ceremony A family astrologer or temple priest describes the characteristics of a newly born baby based upon the Zodiac signs or horoscope duly prepared A propitious time and name are chosen accordingly For me this process is no less important even when it comes to choosing a title of my book or a Reflection After having given titles to over a thousand Reflections and eight books it still takes considerable amount of time and thought for the naming of a new one The process involves frequent tinkering with both syntax and semantics
