Victors Justice From Nuremberg To Baghdad:

Victors' Justice Danilo Zolo, 2020-01-28 *Victors Justice* is a potent and articulate polemic against the manipulation of international penal law by the West combining historical detail juridical precision and philosophical analysis Zolo's key thesis is that contemporary international law functions as a two track system a made to measure law for the hegemon and their allies on the one hand and a punitive regime for the losers and the disadvantaged on the other Though it constantly advertised its impartiality and universalism international law served to bolster and legitimize ever since the Tokyo and Nuremberg trials a fundamentally unilateral and unequal international order *Transitional Justice in Italy and the Crimes of Fascism and Nazism* Paolo Caroli, 2022-06-09 This book presents a comprehensive analysis of the Italian experience of transitional justice examining how the crimes of Fascism and World War II have been dealt with from a comparative perspective Applying an interdisciplinary and comparative methodology the book offers a detailed reconstruction of the prosecution of the crimes of Fascism and the Italian Social Republic as well as crimes committed by Nazi soldiers against Italian civilians and those of the Italian army against foreign populations It also explores the legal qualification and prosecution of the actions of the Resistance Particular focus is given to the Togliatti amnesty the major turning point through comparisons to the wider European post WWII transitional scenario and other relevant transitional amnesties allowing consideration of the intense debate on the legitimacy of amnesties under international law The book evaluates the Italian experience and provides an ideal framework to assess the complexity of the interdependencies between time historical memory and the use of criminal law In a historical moment marked by the resurgence of racism neo Fascism falsifications of the past as well as the desire to amend the faults of the past the Italian unfinished experience of dealing with the Fascist era can help move the discussion forward The book will be an essential reading for students researchers and academics in International Criminal Law Transitional Justice History Memory Studies and Political Science **Doing Justice to History** Barrie Sander, 2021-03-09 As communities struggle to make sense of mass atrocities expectations have increasingly been placed on international criminal courts to render authoritative historical accounts of episodes of mass violence Taking these expectations as its point of departure this book seeks to understand international criminal courts through the prism of their historical function The book critically examines how such courts confront the past by constructing historical narratives concerning both the culpability of the accused on trial and the broader mass atrocity contexts in which they are alleged to have participated The book argues that international criminal courts are host to struggles for historical justice discursive contests between different actors vying for judicial acknowledgement of their interpretations of the past By examining these struggles within different institutional settings the book uncovers the legitimating qualities of international criminal judgments In particular it illuminates what tends to be foregrounded and included within as well as marginalised and excluded from the narratives of international criminal courts in practice What emerges from this account is a sense of the

significance of thinking about the emancipatory limits and possibilities of international criminal courts in terms of the historical narratives that are constructed and contested within and beyond the courtroom **Neither Settler nor Native** Mahmood Mamdani, 2020-11-30 The nation state and the colonial state have always been the same thing the ethnic and religious majorities of the former created only through the violent minoritization inherent in the latter Assessing cases from the United States to Eastern Europe Israel and Sudan Mahmood Mamdani suggests a radical solution the state without a nation **International Criminal Justice** Gideon Boas, William Schabas, Michael P. Scharf, 2012-01-01 International criminal justice indeed is a crowded field But this edited collection stands well above the crowd And it does so with dignity Through interdisciplinary analysis the editors skillfully turn shibboleths into intrigues Theirs is a kaleidoscopic project that scales a gamut of issues from courtroom discipline to gender to the defense to history Through vivid deployment of unconventional methods this edited collection unsettles conventional wisdom It thereby pushes law and policy toward heartier horizons Mark A Drumbl Washington and Lee University School of Law US International criminal justice as a discipline throws up numerous conceptual issues engaging disciplines such as law politics history sociology and psychology to name but a few This book addresses themes around international criminal justice from a mixture of traditional and more radical perspectives While law and in particular international law is at the heart of much of the discussion around this topic history sociology and politics are invariably infused and in some aspects of international criminal justice are predominant elements Fundamentally the exploration concerns questions of coherence and legitimacy which are foundational to both the content and application of the discipline and the book charts an illuminating path through these diverse perspectives The contributions in this book come from some of the eminent scholars and practitioners in the area and will provide some profound insight into and an enriched understanding of international criminal justice helping to advance the field of study This ambitious and necessary book will appeal to academics and students of international criminal law international criminal justice international law transitional justice and comparative criminal law as well as practitioners of international criminal law **A Critical Introduction to International Criminal Law** Carsten Stahn, 2019 Presents theories practices and critiques alongside each other to engage students scholars and professionals from multiple fields This title is also available as Open Access on Cambridge Core *International Law* Gleider Hernández, 2025 *Radical Philosophy*, 2010 **The Nation**, 2008 **The American Interest**, 2005 **Life Sentence** Hartley Shawcross Baron Shawcross, 1995 **The New York Times Magazine**, 2003 *The Economist*, 2006 *New Statesman*, 2008 **Subject Index to Periodicals**, 2008 **The Middle East, Abstracts and Index**, 1993 *Victors' Justice* Montgomery Belgion, 2017-03-28 Nothing is to be gained after a war by the punishment of the vanquished by the victors even if the vanquished have been to blame for the war itself It now seems more probable than ever that for victors to assert after a war the war guilt of the vanquished serves but to disguise the real sources of international disturbance Possibly it is because the western victors in 1919 did not

recognize the moral basis of international relations that war returned to Europe and to the world in 1939 Possibly it is because the western victors again in 1945 did not recognize the moral basis of those relations that the world was treated to the spectacle of victors justice a k a the Nuremberg Trial and one more great war had ended without leading men s feet into the way of peace Victors'Justice Montgomery Belgion,1949 **Hearing: Persian Gulf: Question of War Crimes** ,1991
