Victory On The Battlefield:

Impossible Victories Bryan Perrett,1996 *Commanding Military Power* Ryan Grauer,2016-07-28 Commanding Military Power offers a new explanation of why some armed forces are stronger than others Ryan Grauer advances a command structure theory which combines insights from organization theory international relations and security studies literatures to provide a unique perspective on military power Specifically armed forces organized to facilitate swift and accurate perception of and response to battlefield developments will cope better with war s inherent uncertainty use resources effectively and quite often win Case studies of battles from the Russo Japanese War Chinese Civil War and Korean War based on new archival research underscore the argument showing that even smaller and materially weaker militaries can fight effectively against and defeat larger and better endowed adversaries when they are organizationally prepared to manage uncertainty That organization often matters more than numbers and specific tools of war has crucial implications for both contemporary and future thinking about and efforts to improve martial strength **Military Power** Stephen D. Biddle,2004 Fascinating precisely written indeed brilliant Military Power is among the most important books ever published on modern warfare **The Battle of Thapsus (46 BC)** Gareth C. Sampson,2025-11-04 A work of exceptional scholarship and impressively enhanced a high value and firmly recommended addition to personal community and college university library Midwest Book Review Despite defeating his opponent Pompeius Magnus at Pharsalus and the latter s subsequent murder Caesar still faced a determined opposition in the Civil War that had engulfed the late Roman Republic Having become entangled in the intrigues and wars of the East Caesar gave his opponents time to regroup under the lead of Metellus Scipio and Cato the Younger scions of two of the Republic s greatest families Under their leadership Caesar s dominance of the Republic was seriously challenged culminating in a decisive battle at Thapsus in what is now Tunisia Gareth Sampson describes the campaigns that set the context for the battle including the role played by the various regional powers drawn into the Roman Civil War He then recounts the battle itself in detail analysing the relative strengths of the armies involved their organization equipment and tactics He assesses the opposing commanders and the strategies on the day which led to another victory for Caesar He concludes with a discussion of the bloody aftermath of the battle and the myths that developed around the deaths of Caesar s opponents *The Overland Monthly* ,1885 **Second Punic War in Iberia 220-206 BC** Mir Bahmanyar,2024-04-25 The first dedicated illustrated study of the events of the Second Punic War in Iberia which served as a launch pad for the Carthaginian invasion of Rome Iberia was one of three crucial theatres of the Second Punic War between Carthage and Rome Hannibal of Carthage s siege of Saguntum in 219 BC triggered a conflict that led to immense human and material losses on both sides pitting his brother Hasdrubal against the Republican Roman armies seeking to gain control of the peninsula Then in 208 BC the famous Roman general Scipio Africanus defeated Hasdrubal at Baecula forcing Hasdrubal s army out of Iberia and on to its eventual annihilation at the Metaurus In this work military historian Mir

Bahmanyar brings to life the key personalities and events of this important theatre of the war and explains why the Roman victory at Baecula led to a strategic shift and Carthage's eventual defeat. It covers Scipio Africanus' brilliant victory at Ilipa in 206 BC where he crushed the army of Mago Barca and Hasdrubal Gisco. Illustrated with maps, tactical diagrams, battlescene artworks and photographs, this work provides a gripping narrative of the large scale battles fought in Iberia. **Rome's**

Great Eastern War Gareth C. Sampson, 2021-08-31 This military history of Ancient Rome analyses the empire's revitalized push against rising enemies to the East. In the century since Rome's defeat of the Seleucid Empire in the 180s BC, the East was dominated by the rise of new empires: Parthia, Armenia and Pontus, each vying to recreate the glories of the Persian Empire. By the 80s BC, the Pontic Empire of Mithridates had grown so bold that it invaded and annexed the whole of Rome's eastern empire and occupied Greece itself. But as Rome emerged from the devastating effects of the First Civil War, a new breed of general emerged, eager to reassert Roman military dominance and carve out a fresh empire in the east. In Rome's Great Eastern War, Gareth C. Sampson analyses the military campaigns and battles between a revitalized Rome and the various powers of the eastern Mediterranean hinterland. He demonstrates how this series of conflicts ultimately heralded a new phase in Roman imperial expansion and reshaped the ancient East. **Blades of Freedom (Nathan Hale's**

Hazardous Tales #10) Nathan Hale, 2020-11-24 Discover the story of the Haitian Revolution, the largest uprising of enslaved people in history, in this installment of the New York Times bestselling graphic novel series. Why would Napoleon Bonaparte sell the Louisiana Territory to the recently formed United States of America? It all comes back to the island nation of Haiti, which Napoleon had planned to use as a base for trade with North America. While Napoleon climbed the ranks of the French army and government, enslaved people were organizing in Haiti under the leadership of François Mackandal, Dutty Boukman, Jean Jacques Dessalines and Touissant L'Ouverture, who in 1791 led the largest uprising of enslaved people in history, the Haitian Revolution.
