Grendler, 2006-03-30 An informative but light hearted look at the popularity of the Renaissance today this book was written by a Renaissance scholar intrigued with the way his subject continues to resonate outside the scholarly community His purpose is to uncover and describe the many manifestations of America's love of the Renaissance Why do millions don costumes to attend Renaissance Faires Why do novels and films about the period enjoy continued popularity as do Renaissance icons such as Elizabeth I Michelangelo Shakespeare and the Mona Lisa How is it that American politicians and business leaders still look to Machiavelli as a symbol of wisdom or of evil Grendler posits that Americans embrace the Renaissance as a model of culture and sophistication seeing it as confirmation that the individual can achieve greatness against long odds a belief at the core of our own society After an examination of The Real Renaissance 1400-1620 the book looks at ways in which Americans relive the experience including Faires and Living Last Suppers ways in which we re-create the Renaissance in our own world and finally ways in which the Renaissance is portrayed for better or worse in fiction and film **Meeting the Ethical Challenges of Leadership** Craig E. there's something sleazy about that stance even if it does seem to pay off Does that make you a chump With pointedly mischievous prose Don Herzog explores what's alluring and what's revolting in cunning He draws on a colorful range of sources tales of Odysseus texts from Machiavelli pamphlets from early modern England salesmen's newsletters Christian apologetics plays sermons philosophical treatises detective novels famous infamous and obscure historical cases and more The book is in three parts bookended by two murderous churchmen Dilemmas explores some canonical moments of cunning and introduces the distinction between knaves and fools as a time honored but radically deficient scheme Appearances assails conventional approaches to unmasking Surveying ignorance and self deception Despair deepens the case that we ought to be cunning and then sees what we might say in response Throughout this beguiling book Herzog refines our sense of what's troubling in this terrain He shows that rationality social roles and morality are tangled together and trickier than we thought

CaroleAnne Winter is the assistant who runs his life. But even Harb can't ignore that CaroleAnne's behavior is increasingly peculiar. At the same time the vagaries of corporate power shift and suddenly both Harb and his Total Quality mandate are vulnerable. It's at this moment that CaroleAnne levels a stunning charge that she has been the target of an organized campaign of sexual harassment from her first days at the company. The investigation she demands will reach to the highest levels of the corporation and at its center she insists must be the greatest offender of all Harb *Hard Facts, Dangerous Half-Truths, and Total Nonsense* Jeffrey Pfeffer, Robert I. Sutton, 2006-02-14 The best organizations have the best talent. Financial incentives drive company performance. Firms must change or die. Popular axioms like these drive business decisions every day. Yet too much common management wisdom isn't wise at all but instead flawed knowledge based on best practices that are actually poor, incomplete or outright obsolete. Worse, legions of managers use this dubious knowledge to make decisions that are hazardous to organizational health. Jeffrey Pfeffer and Robert I. Sutton show how companies can bolster performance and trump the competition through evidence-based management, an approach to decision making and action that is driven by hard facts rather than half truths or hype. This book guides managers in using this approach to dismantle six widely held but ultimately flawed management beliefs in core areas including leadership, strategy, change, talent, financial incentives and work life balance. The authors show managers how to find and apply the best practices for their companies rather than blindly copy what seems to have worked elsewhere. This practical and candid book challenges leaders to commit to evidence-based management as a way of organizational life and shows how to finally turn this common sense into common practice *Reframing Organizations* Lee G. Bolman, Terrence E. Deal, 2013-01-09 In this third edition of their best-selling classic, authors Lee Bolman and Terrence Deal explain the powerful tool of reframing. The authors have distilled the organizational literature into a comprehensive approach for looking at situations from more than one angle. Their four frames view organizations as factories, families, jungles and theaters or temples. The Structural Frame: how to organize and structure groups and teams to get results. The Human Resource Frame: how to tailor organizations to satisfy human needs, improve

human resource management and build positive interpersonal and group dynamics The Political Frame how to cope with power and conflict build coalitions hone political skills and deal with internal and external politics The Symbolic Frame how to shape a culture that gives purpose and meaning to work stage organizational drama for internal and external audiences and build team spirit through ritual ceremony and story Augustine and Politics John Doody, Kevin L.
