Whats Wrong With Liberalism A Radical Critique Of Liberal Philosophy Continuum Collection:

The Radical Critique of Liberalism Toulas Nicolacopoulos,2008 Working through the theories of prominent liberal theorists John Rawls Jeremy Waldron Charles Larmore and Will Kymlicka the author demonstrates that an adequate appreciation of the deep structural flaws of liberal theory presupposes the application of critical reconstructionism

What's Wrong With Liberalism? Maureen Ramsay,2004-12-16 A well argued and clearly written critique of liberal political theory organized around its leading concepts very accessible for student use Professor David Beetham In this book Maureen Ramsay provides an accessible and comprehensive critique of the key concepts that underpin liberal political philosophy Each chapter tackles a different concept and analyses the contribution of representative thinkers in seventeenth and eighteenth century liberal thought and contemporary developments and modifications to classical liberalism The purpose of each chapter is to evaluate the concepts and theories central to the liberal tradition from a variety of critical perspectives in order to expose the empirical theoretical practical and moral deficiencies at the heart of liberal thought The arguments presented here challenge the validity of liberal political ideas values institutions and policies and demonstrate the bankruptcy of liberalism in theory and practice This book will be essential reading for students of politics government and moral and political philosophy Maureen Ramsay is Senior Lecturer in Political Theory at the University of Leeds **Legal**

Republicanism Samantha Besson,José Luis Martí,2009-03-26 Interest in republicanism as a political theory has burgeoned in recent years but its implications for the understanding of law have remained largely unexplored *Legal Republicanism* is the first book to offer a comprehensive critical survey of the potential for creating republican accounts of fundamental issues in law and legal theory Bringing together contributors with backgrounds in political and legal philosophy the essays in the volume assess republicanism's historical traditions conceptual coherence and normative proposals The collection offers a valuable insight into new debates taking place in republican political and legal theory It also analyses potential republican approaches to concrete issues arising in areas of law such as criminal constitutional and international law Finally the book includes comparisons between republican legal traditions and how they react to contemporary challenges The book will be of value to political and democratic theorists to legal philosophers and constitutional theorists and all those interested in the legitimacy of decision making in national and international settings *The Skillful Self* John Stopford,2009-03-16

The Skillful Self Liberalism Culture and the Politics of Skill presents a political liberal theory of cultural participation and the goals of cultural policy in contemporary pluralistic democracies The ideal of cultural participation which many regard as central to the self conception of modern constitutional democracies is often subject to the distorting influences of state perfectionism paternalism consumerism and ideology These distortions and the problems they raise are intensified by the forces of social cultural and economic globalization Using the tools of contemporary liberal theory *The Skillful Self* develops an approach to the politics of culture that focuses on the concept of skill and its place in a liberal conception of the self

Support for this approach is derived from the work of Nussbaum and Sen who make a conception of human capability basic to their views of public policy and the design of political institutions But the politics of skill modifies the capability approach by characterizing the central human functional capabilities as functions of the skillful self The final chapters of the book describe the competences of the skillful self elaborating a new typology of skills and explaining why basic institutions are obliged to promote them To make the role of skill in the central capabilities explicit in this way is not to invoke the perfectionist ideal of a culture of skill but rather to focus on the structural role of skill in a nonperfectionist conception of truly human functioning and on the social conditions of individual capability viewed as a function of skill *Political Theory* Rajeev Bhargava, 2008 **Guide to Reprints** K G Saur Publishing, K. G. Saur Verlag GmbH & Company, Walter de Gruyter GmbH, 2005-10 The established reference work Guide to Reprints has been radically reworked for this edition Bibliographical data was substantially increased where information was obtainable In addition the user friendliness of Guide to Reprints was raised to the high level of other K G Saur directories through author title cross references a subject volume a person index and a publisher index In this edition the directory lists more than 60 000 titles from more than 350 publishers From Democratic Socialism to Neo-liberalism Ambrose Pinto, 2014 *Guide to Reprints 2007* K. Resources in Education, 1989 **Legitimacy in Liberal Democracies** Benjamin M. Studebaker, 2024-11-30 In this book Studebaker develops a theory of legitimacy to explain the crisis of liberal democracy in established democracies like the United Kingdom and the United States In these countries there is deep dissatisfaction with political procedures yet no credible alternatives have emerged Without alternatives the crisis cannot produce revolution Instead Studebaker suggests that the disagreements that ordinarily lead to political violence instead proliferate throughout the state and society As the distinction between legitimacy and ideology blurs efforts to generate legitimacy instead generate greater inequality pluralism and gridlock As different factions try to save democracy in radically different ways diverse advocates of democracy get in each other's way and even begin to appear authoritarian to one another In Legitimacy in Liberal Democracies Studebaker depicts a legitimacy crisis rife with state capacity problems in which citizens tell each other many conflicting legitimization stories as they search for ways to live with a dissatisfying political system they cannot replace The result is a legitimization hydra a state that is burdened by an excess of narratives that struggles to take any action at all **Beloved Community** Casey Nelson Blake, 2000-11-09 The Young American critics Randolph Bourne Van Wyck Brooks Waldo Frank and Lewis Mumford are well known as central figures in the Greenwich Village Little Renaissance of the 1910s and in the postwar debates about American culture and politics In Beloved Community Casey Blake considers these intellectuals as a coherent group and assesses the connection between their cultural criticisms and their attempts to forge a communitarian alternative to liberal and socialist politics Blake draws on biography to emphasize the intersection of questions of self culture and society in their calls for a culture of personality and self fulfillment In contrast to the tendency of previous analyses to separate these

critics cultural and autobiographical writings from their politics Blake argues that their cultural criticism grew out of a radical vision of self realization through participation in a democratic culture and polity He also examines the Young American writers interpretations of such turn of the century radicals as William Morris Henry George John Dewey and Patrick Geddes and shows that this adversary tradition still offers important insights into contemporary issues in American politics and culture Beloved Community reestablishes the democratic content of the Young Americans ideal of personality and argues against viewing a monolithic therapeutic culture as the sole successor to a Victorian culture of character The politics of selfhood that was so critical to the Young Americans project has remained a contested terrain throughout the twentieth century

Euro-orientalism Ezequiel Adamovsky,2006 Drawing from a range of critical perspectives in particular postcolonial this book examines the relationship between perceptions of Russia and of Eastern Europe and the making of a Western identity It explores the ways in which the perception of certain characteristics of Russia and Eastern Europe whether real or attributed was shaped by and used for the construction of a liberal narrative of the West which eventually became dominant The focus of this inquiry is French culture from the beginning of the debate about Russia among the philosophes c 1740 to the consolidation of a professional field of Slavic studies c 1880 A wide range of writing literature travel accounts histories political tracts scientific journals and parliamentary debates is examined through the work of major authors from Montesquieu Diderot and Rousseau to Tocqueville de Maistre and Guizot from Mme de Sta l Hugo and Balzac to Dumas Michelet and Comte as well as that of many less well known figures The book also explores possible continuities between those first academic accounts of Russia and Eastern Europe and present day scholarship in Europe and the USA to show that the liberal ideological accounts constructed in the nineteenth century still to a great extent inform contemporary academic studies
