When China Ruled the Seas Louise Levathes,1994 The Treasure Fleet of the Dragon Throne 1405 33 **When China Ruled the Seas** Louise Levathes,1996 When China Ruled the Seas Louise Levathes,2014-12-02 One hundred years before Columbus and his fellow Europeans began their voyages of discovery fleets of giant junks commanded by the eunuch admiral Zheng He and filled with the empire s finest porcelains lacquerware and silk ventured to the world s four corners Seven epic expeditions brought China s treasure ships across the China Seas and Indian Ocean from Japan to the spice island of Indonesia and the Malabar Coast of India on to the rich ports of the Persian Gulf and down the East African coast to China s El Dorado and perhaps even to Australia three hundred years before Captain Cook s landing It was a time of exploration and expansion but it ended in a retrenchment so complete that less than a century later it was a crime to go to sea in a multimasted ship In *When China Ruled the Seas* Louise Levathes takes a fascinating and unprecedented look at this dynamic period in China s enigmatic history focusing on the country s rise as a naval power that briefly brought half the world under its nominal authority Drawing on eyewitness accounts official Ming histories and African Arab and Indian sources many translated for the first time Levathes brings readers inside China s most illustrious scientific and technological era She sheds new light on the historical and cultural context in which this great civilization thrived as well as the perception of China by other contemporary cultures Beautifully illustrated and engagingly written *When China Ruled the Seas* is the fullest picture yet of the early Ming dynasty the last flowering of Chinese culture before the Manchu invasion **Leaders** General Stanley McChrystal,Jeff Eggers,Jay Mangone,2018-10-23 An instant national bestseller Stanley McChrystal the retired US Army general and bestselling author of *Team of Teams* profiles thirteen of history s great leaders including Walt Disney Coco Chanel and Robert E Lee to show that leadership is not what you think it is and never was Stan McChrystal served for thirty four years in the US Army rising from a second lieutenant in the 82nd Airborne Division to a four star general in command of all American and coalition forces in Afghanistan During those years he worked with countless leaders and pondered an ancient question What makes a leader great He came to realize that there is no simple answer McChrystal profiles thirteen famous leaders from a wide range of eras and fields from corporate CEOs to politicians and revolutionaries He uses their stories to explore how leadership works in practice and to challenge the myths that complicate our thinking about this critical topic With Plutarch s *Lives* as his model McChrystal looks at paired sets of leaders who followed unconventional paths to success For instance Walt Disney and Coco Chanel built empires in very different ways Both had public personas that sharply contrasted with how they lived in private Maximilien Robespierre helped shape the French Revolution in the eighteenth century Abu Musab al Zarqawi led the jihadist insurgency in Iraq in the twenty first We can draw surprising lessons from them about motivation and persuasion Both Boss Tweed in nineteenth century New York and Margaret Thatcher in twentieth century Britain followed unlikely roads to the top of powerful institutions Martin Luther and his future namesake

Martin Luther King Jr both local clergymen emerged from modest backgrounds to lead world changing movements Finally McChrystal explores how his former hero General Robert E Lee could seemingly do everything right in his military career and yet lead the Confederate Army to a devastating defeat in the service of an immoral cause Leaders will help you take stock of your own leadership whether you re part of a small team or responsible for an entire nation **NASA 50th**

made this millennium a proto global era *Geography and the Wealth of Nations* Sherif Khalifa,2022-03-14 In *Geography and the Wealth of Nations* Sherif Khalifa argues that geography influences the factors that determine economic performance such as the quality of institutions the adopted cultural values the systems of governance the likelihood of conflict the historical experiences and the integration into the global economy This book discusses in detail how geographic features influence each of these factors and how these determinants in turn affect economic outcomes Khalifa shows that we cannot fully comprehend the economic consequences of these factors without exploring their geographic origins This effort is especially critical as the world faces unprecedented environmental challenges including climate change worsening natural disasters resource depletion soil degradation deforestation desertification and loss of biodiversity Given these drastic changes this book provides powerful insight into how geographic determinants continue to shape global crises *The Seaforth Bibliography* Eugene Rasor,2009-04-17 This remarkable work is a comprehensive historiographical and bibliographical survey of the most important scholarly and printed materials about the naval and maritime history of England and Great Britain from the earliest times to 1815 More than 4 000 popular standard and official histories important articles in journals and periodicals anthologies conference symposium and seminar papers guides documents and doctoral theses are covered so that the emphasis is the broadest possible But the work is far far more than a listing The works are all evaluated assessed and analysed and then integrated into an historical narrative that makes the book a hugely useful reference work for student scholar and enthusiast alike It is divided into twenty one chapters which cover resource centres significant naval writers pre eminent and general histories the chronological periods from Julius Caesar through the Vikings Tudors and Stuarts to Nelson and Bligh major naval personalities warships piracy strategy and tactics exploration discovery and navigation archaeology and even naval fiction Quite simply no one with an interest and enthusiasm for naval history can afford to be without this book at their side **The Making of the Modern Chinese Navy** Bruce A. Elleman,2019-08-31 The Making of the Modern Chinese Navy includes 14 historical case studies that help to illuminate a number of special characteristics of the modern day Chinese navy most Chinese naval officers perhaps take for granted including a belief in the Mandate of Heaven tributary system and the fear of losing face either in a diplomatic setting or by risking valuable equipment in battle Ethnic and language differences regional loyalties and political mistrust potentially exacerbate these problems Special peculiarities include the Mongol dual officer diarchy that led to the political commissar system utilized by the People s Liberation Army Outside influences such as blockade sanctions or embargoes can exert a profound impact on China just as foreign intervention or equally important a decision not to intervene can often determine the outcome of major maritime events NP The 14 case studies discuss many of these characteristics while the Conclusion examines all case studies together and places them in a historical perspective The Making of the Modern Chinese Navy assesses which of these historical characteristics and peculiarities are still present in full force in China and which ones may no longer have as great

an impact on the contemporary Chinese navy **The New Age of Naval Power in the Indo-Pacific** Catherine L. Grant, Alessio Patalano, James A. Russell, 2023 Competition at sea is back as a central issue of international security Today the US led maritime order and the freedom to use the ocean as a vast maneuver space to access different markets and theaters stands contested Nowhere is the urgency to address state on state competition at sea more strongly felt than in the Indo Pacific region where freedom of navigation stands challenged by regional states continuous investments in naval power and the renewed political will to use it The international groups of distinguished contributors to this volume survey and analyze the implications of the return of naval power as a critical consideration of international relations in the Indo Pacific region Catherine L Grant Alessio Patalano and James A Russell develop an original framework in which five factors of influence help explain how and why naval power matters in this pivotal part of the world for cooperation coercion and competition The chapters also provide historical background outline key issues and conduct a close examination of key subregions This book will be read by both academics and policy makers alike seeking to navigate the complexity of maritime security and regional affairs *China as a Sea Power, 1127-1368* Lo Jung-pang, 2012-01-01 Lo Jung pang argues that during each of the three periods when imperial China embarked on maritime enterprises the Qin and Han dynasties the Sui and early Tang dynasties and Song Yuan and early Ming dynasties coastal states took the initiative at a time when China was divided maritime trade and exploration subsequently peaked when China was strong and unified and declined as Chinese power weakened At such times China s people became absorbed by internal affairs and state policy focused on threats from the north and the west These cycles of maritime activity each lasting roughly five hundred years corresponded with cycles of cohesion and division strength and weakness prosperity and impoverishment expansion and contraction In the early 21st century a strong and outward looking China is again building up its navy and seeking maritime dominance with important implications for trade diplomacy and naval affairs Events will not necessarily follow the same course as in the past but Lo Jung pang s analysis suggests useful questions for the study of events as they unfold and decades to come **Zheng He's Art of Collaboration** Hum Sin Hoon, 2012 Know your enemies know yourself advised Sun Zi in his famous Art of War AoW In contrast the legendary Admiral Zheng He would have said Know your collaborators know yourself and this would be the essence of his Art of Collaboration AoC This book offers a fresh new approach to doing business and providing leadership in the twenty first century where Zheng He s peaceful and win win collaborative paradigm present in his AoC provides an alternative to the aggressive and antagonistic mindset inherent in Sun Zi s AoW The author has culled from the existing literature on the historical cultural diplomatic and maritime oriented Zheng He connected the dots of his discovery of a managerial Zheng He and wrote this book to present both the big message of Zheng He s Art of Collaboration as well as an understanding of Zheng He s specific work as a leader and manager **China and Africa in Global Context** LI Anshan, 2022-02-23 This book studies the relationship between China and Africa by reviewing this history and current state of interactions offering a

valuable addition to the often heated and contentious debate surrounding China's engagement in Africa from a Chinese angle. Comprising four parts, the book covers a kaleidoscopic range of topics on China-Africa relations based on materials from different languages. Part I looks into early historical contact between China and Africa and the historiography of African Studies in China in recent decades. Part II probes the origins, dynamics, challenges, and cultural heritage of China's policies towards Africa. Part III explores the issue of development cooperation from both a theoretical and a practical point of view, with a focus on the case of Chinese medical teams in Africa and China's technology transfer to the continent. Part IV illustrates bilateral migration, discussing the history and life of Chinese immigrants in Africa and the African diaspora in China. The insights in this book, as well as real-life case studies, will make this work an indispensable reference for academics, students, policy makers, and general readers who are interested in international issues and area studies, especially China-Africa relations, China's rise, and African development.

A Hierarchical Vision of Order Antoine Roth, 2024-05-21. China's vision for international order is a matter of great global interest. This book analyses China's vision for foreign policy and how it is seeking to achieve its goals with its immediate neighbours. The book provides a historically informed account by examining the legacy of China's imperial past and traditional political philosophy, giving insights into the country's view of its place in today's world. It argues that China today sees the maintenance of order as its own responsibility and that it believes this order needs to attribute different roles to small and big states to ensure stability. Furthermore, it explores the different tools China employs to achieve its vision, including a proactive diplomacy, the control of international discourse, threat of punishment for misbehaviour, and the promise of economic benefits in return for compliance.

The Story of China Michael Wood, 2025-10-16. A single volume history of China offering a look into the past of the global superpower and its significance today. Michael Wood has travelled the length and breadth of China, the world's oldest civilization and longest-lasting state, to tell a thrilling story of intense drama, fabulous creativity, and deep humanity that stretches back thousands of years. After a century and a half of foreign invasion, civil war, and revolution, China has once again returned to center stage as a global superpower and the world's second largest economy. But how did it become so dominant? Wood argues that in order to comprehend the great significance of China today, we must begin with its history. The Story of China takes a fresh look at the Middle Kingdom in the light of the recent massive changes inside the country. Taking into account exciting new archaeological discoveries, the book begins with China's prehistory, the early dynasties, the origins of the Chinese state, and the roots of Chinese culture in the age of Confucius. Wood looks at particular periods and themes that are now being reevaluated by historians, such as the renaissance of the Song with its brilliant scientific discoveries. He paints a vibrant picture of the Qing Empire in the 18th century, just before the European impact, a time when China's rich and diverse culture was at its height. Then Wood explores the encounter with the West, the Opium Wars, the clashes with the British, and the extraordinarily rich debates in the late 19th century that pushed China along the path to modernity. Finally, he provides a clear up-to-date account.
