Education Robert Cowen,Andreas M. Kazamias,2009-08-22 A big project like this Handbook means that you incur debts and
not only to your authors and your publisher As editors we along with our colleague Elaine Unterhalter who edited the section
on postcolonialism would like to thank most warmly those authors who delivered on time and who did not fuss but just got on
and did a r rate job We would also like to thank all authors who did deliver which was almost everyone we asked We know
that some of our authors worked in very dif cult private circumstances as they were nishing their chapters and we hope the
publication of the Volumes will later be for them a happy reminder of dif culties and disasters overcome The only sad theme
is that some very close colleagues with whom we were wo ing and for whom we had the greatest respect and liking became
very ill and died while the volumes were being prepared We decided to ask for copyright permissions to publish something of
theirs These permissions were graciously given by two major journals and with the agreement also of our publishers Springer

Democratic Education for Social Studies Anna S. Ochoa-Becker, 2006-12-01 In the first edition of this book published in 1988 Shirley Engle and I offered a

broader and more democratic curriculum as an alternative to the persistent back to the basics rhetoric of the 70s and 80s This curriculum urged attention to democratic practices and curricula in the school if we wanted to improve the quality of citizen participation and strengthen this democracy School practices during that period reflected a much lower priority for social studies Fewer social studies offerings fewer credits required for graduation and in many cases the job descriptions of social studies curriculum coordinators were transformed by changing their roles to general curriculum consultants The mentality that prevailed in the nation s schools was back to the basics and the basics never included or even considered the importance of heightening the education of citizens We certainly agree that citizens must be able to read write and calculate but these abilities are not sufficient for effective citizenship in a democracy This version of the original work appears at a time when young citizens teachers and schools find themselves deluged by a proliferation of curriculum standards and concomitant mandatory testing In the 90s virtually all subject areas including United States history geography economic and civics developed curriculum standards many funded by the federal government Subsequently the National Council for the Social Studies issued the Social Studies Curriculum Standards that received no federal support Accountability captured in the No Child Left Behind Act passed by Congress has become a powerful political imperative that has a substantial and disturbing influence on the curriculum teaching and learning in the first decade of the 21st century *Academy of Management Learning & Education* ,2007
