Jones, 2000-01-01 In *Moral Responsibility in the Holocaust* David H Jones goes beyond historical and psychological explanations of the Holocaust to directly address the moral responsibility of individuals involved in it While defending the view that individuals caught up in large scale historical events like the Holocaust are still responsible for their choices he provides the philosophical tools needed to assess the responsibility both negative and positive of perpetrators accomplices bystanders victims helpers and rescuers

Studies in Contemporary Jewry Jonathan Frankel, 1998-02-05 Was the Holocaust a natural product of a long German history of Anti-Semitism Or were the Nazi policies simply a wild mutation of history not necessarily connected to the past Or does the truth lie somewhere in between This latest volume in the acclaimed *Studies in Contemporary Jewry* series edited by internationally known scholars at the Hebrew University in Jerusalem presents essays on the origins of the Holocaust The works in this volume are diverse in scope and opinion ranging from general philosophical discourses to detailed analyses of specific events and often reflecting the divergent ideologies and methods of the contributors But each adds to the whole and the result is a fascinating panorama that is sure to be indispensable to all students and scholars of the subject

Unlikely Heroes Ari Kohen, Gerald J. Steinacher, 2019-05-01 Classes and books on the Holocaust often center on the experiences of victims perpetrators and bystanders but rescuers also occupy a prominent space in Holocaust courses and literature even though incidents of rescue were relatively few and rescuers constituted less than 1 percent of the population in Nazi occupied Europe As inspiring figures and role models rescuers challenge us to

consider how we would act if we found ourselves in similarly perilous situations of grave moral import Their stories speak to us and move us Yet this was not always the case Seventy years ago these brave men and women today regarded as the Righteous Among the Nations went largely unrecognized indeed sometimes they were even singled out for abuse from their co nationals for their selfless actions Unlikely Heroes traces the evolution of the humanitarian hero looking at the ways in which historians politicians and filmmakers have treated individual rescuers like Raoul Wallenberg and Oskar Schindler as well as the rescue efforts of humanitarian organizations Contributors in this edited collection also explore classroom possibilities for dealing with the role of rescuers at both the university and the secondary level *Resisters, Rescuers, and Refugees* John J. Michalczyk, 1997-09 Fifty years after World War II critical issues of this international conflict still haunt our society today in business war crimes trials and international relations This text focuses on the historical issues of Christian rescue of Jews resistance to Nazi oppression and the plight of the refugee in light of current problems facing us The essays in this book from nationally and internationally known scholars reveal that the Holocaust was not only a Jewish tragedy but an epic human tragedy as well one that has indelibly scarred the collective soul of twentieth century society As these scholars and witnesses provide insights into the historical context of World War II and the Holocaust they also assist us in regulating the future behavior of ourselves our country and our world *Polish Modernism and Jewish Identity* Piotr

Slodkowski, 2024-12-26 Modernist painter socialist realist Holocaust survivor and student of the Parisian Avant Garde Jewish Polish artist Henryk Streng was extraordinary for his aesthetic innovation during the two major traumas of 20th century European history the Holocaust and Stalinism Yet his legacy in the development of European modernism is rarely acknowledged In this book inspired by the 2021 exhibition at the Museum of Modern Art in Warsaw Piotr Slodkowski demonstrates that the work of Streng disrupts established notions of 20th century Polish art connecting local Polish art history with wider 20th century artistic movements and styles Traversing the 1920s Acad mie Moderne hubs of creativity in interwar Poland Nazi concentration camps and the Polish People s Republic under Soviet influence this book reveals the changing artistic phenomena of Poland between the 1920s and 1950s illustrating how Streng drew on his Jewish Polish identity and the legacy of genocide in his work Rather than deferring to the French Avant Garde Slodkowski sheds light on regional expressions of modernism and emphasises the complexity of identity and creativity in 20th century Poland In doing so this book brings Streng out of the shadows and into wider considerations of modernist European art and its development

Embracing the Other Pearl Oliner, Samuel P. Oliner, Lawrence Baron, Lawrence Blum, 1995-07 All but buried for most of the twentieth century the concept of altruism has re emerged in this last quarter as a focus of intense scholarly inquiry and general public interest In the wake of increased consciousness of the human potential for destructiveness both scholars and the general public are seeking interventions which will not only inhibit the process but may in fact chart a new creative path toward a global community Largely initiated by a group of pioneering social psychologists early questions on altruism

centered on its motivation and development primarily in the context of contrived laboratory experiments Although publications on the topic have been considerable over the last several years and now represent the work of representatives from many disciplines of inquiry this volume is distinguished from others in several ways Embracing the Other emerged primarily as a response to recent research on an extraordinary manifestation of real life altruism namely to recent studies of non Jewish rescuers of Jews during World War II It is the work of a multi disciplinary and international group of scholars including philosophers social psychologists historians sociologists and educators challenging several prevailing conceptual definitions and motivational sources of altruism The book combines both new empirical and historical research as well as theoretical and philosophical approaches and includes a lengthy section addressing the practical implications of current thinking on altruism for society at large The result is a multi textured work addressing critical issues in varied disciplines while centered on shared themes

Remembering the Rescuers of Victims of Human Rights Crimes in Latin America Marcia Esparza, Carla De Ycaza, 2016-12-20 This book explores the significance of remembering the rescuers denouncing human rights crimes as well as protecting and sheltering targeted victims including the dead during the Cold War state violence in Latin America In light of newly unearthed archival evidence testimonial memories and the continued mobilization of human rights groups to preserve Cold War memory this timely book moves beyond the victim perpetrator dichotomy and its discursive studies to focus on those whose moral courage and righteous acts were beacons of hope in the midst of extreme violence Remembering Latin American righteousness a term used in Holocaust literature is important in recognizing that those who resisted human rights violations and protected victims yesterday are those who often keep the collective memory of that past alive today

The Church of England and the Holocaust Tom Lawson, 2006 Explores the Church of England s understanding of the Third Reich and its impact on the reactions to and memory of the Holocaust in Britain Argues that the Anglican Church did not engage with the Third Reich through the prism of the persecution of the Jews English Christians commonly perceived Nazism as significant through its anti Christianity as an attack on Christian culture and not through its antisemitism In the 1930s the Church was opposed to war but when Nazi antisemitism became much more pronounced after 1938 the Church incorporated this persecution into its image of Nazism as anti Christian While there was some concern for Jewish victims especially on the part of George Bell and William Temple particular concern was expressed for the German Christian victims of totalitarianism This led the Anglican Church after the war to favor reconstruction of West Germany as a buffer against communism and anti Christianity The Church objected to war crimes trials as being opposed to Christian forgiveness vs the Jewish value of vengeance a view which sought to reduce the significance of Nazi antisemitism and the Holocaust

Desolation and Enlightenment Ira Katznelson, 2020-10-13 During and especially after World War II a group of leading scholars who had been perilously close to the war s devastation joined others fortunate enough to have been protected by distance in an effort to redefine and reinvigorate liberal ideals for a radically new age Treating evil as an analytical category they sought to discover the sources of twentieth century horror and

the potentialities of the modern state in the wake of desolation In the process they devised strikingly new ways to understand politics sociology and history that reverberate still In this major intellectual history Ira Katznelson examines the works of Hannah Arendt Robert Dahl Richard Hofstadter Harold Lasswell Charles Lindblom Karl Polanyi and David Truman detailing their engagement with the larger project of reclaiming the West s moral bearing In light of their epoch s calamities these intellectuals insisted that the tradition of Enlightenment thought required a new realism a good deal of renovation and much recommitment This array of historians political philosophers and social scientists understood that a simple reassertion of liberal modernism had been made radically insufficient by the enormities and moral catastrophes of war totalitarianism and the Holocaust Confronting dashed hopes for reason and knowledge they asked not just whether the Enlightenment should define modernity but also which Enlightenment we should wish to have
