Relational Children's Ministry Dan Lovaglia, 2016-04-05

Children s ministry has the power to change the lives of kids and families Unfortunately it s not always clear that the work a person does with kids is really making a lasting difference Ask children s ministry leaders and kid influencers if they are making the impact on children s lives as they had hoped and most likely the responses will be mixed And for good reason Research over the past decade has revealed an alarming lack of long term growth in the faith community as children progress through student ministries into adulthood Clearly something needs to change Relational Children s Ministry seeks to reverse this trend by equipping children s ministry leaders with practical tools to disrupt the status quo approach to discipleship with children and realign their ministries for greater long term impact Ministry leaders will Learn how to relate intentionally to kids and families by putting five discipleship invitations modeled by Jesus into practice Explore practical approaches to realign their children s ministry for a new trajectory by hitting three reset buttons to ensure long term discipleship is embedded Encounter examples of disruptive disciple makers in action and learn key principles that can be translated into their own ministry context Children s ministry leaders will receive practical training to refocus their children s ministry along with time tested tools to personally recommit to lifelong discipleship Kid influencers can become a disciple making community that redirects the current trajectory for this and future generations

Environmental Policy Integration in Practice Katarina Eckerberg, Mans Nilsson, 2013-09-05 Environmental values and concerns are meant to be reflected through environmental policy which is then integrated into mainstream economic and social policy that serves to govern society and the economy in different sectors Yet effective environmental policy integration has proved to be very difficult in practice and it remains largely an elusive aspiration This groundbreaking volume presents the first ever detailed examination of EPI at the national policy level focusing on the key sectors of energy and agriculture within Sweden a country that is widely recognized as a front runner in environmental management The authors deconstruct EPI look at what it means in policy formation and examine how environmental priorities are treated in relation to other political priorities The final section of the book lays out the major findings and presents key lessons for international application including institutional recommendations on how to enhance the potential for EPI Most fundamentally the book answers the questions of what works for EPI why it works and how it can be achieved in practice across sectors The result is a rich and indispensable guide for all those involved in environmental and sustainable development policy issues

Not by Politics Alone Sara Diamond, 2000-01-01 In this incisive work Sara Diamond expands our understanding of the Christian Right beyond what is

commonly known about its electoral clout shedding light on the rarely seen boundaries and intersections where politics and culture converge The book examines the web of grassroots cultural institutions including publishing houses law firms broadcast stations and church centered community programs that have helped conservative evangelical groups maintain their influence for over two decades Highlighting the movement s complex alliance with the Republican Party Diamond provides a rare behind the scenes look at the formation organizing strategies and heated internal debates of such powerful national organizations as Focus on the Family and the Christian Coalition She offers a richly textured analysis of how the rubric of family values has been used to infuse evangelical beliefs into local and national discussions around such disparate issues as childrearing gay rights abortion public education and funding for the arts *Reclaiming American Catholicism*
John Gehring,2025-08 The Catholic Church in the United States stands at a crossroads between crisis and opportunity At a time when only the second Catholic President in U S history is shaped by the culture and many social justice teachings of his faith the most vocal leaders in the U S Catholic hierarchy embrace a culture war Catholicism that pits them against President Biden the pastoral priorities of Pope Francis and many Catholics in the pews This book based on many interviews and the author s own reporting makes the argument that recalibrating the church s engagement with politics and public life is vital for both the Church and the country Yet American Catholicism is not simply defined by church politics theological disputes or the latest Catholic controversy in the headlines The Church that Pope Francis envisions bruised hurting and dirty because it has been out on the streets can be found every day among Catholic advocates working on the border in the lives of young Catholics who question the church s teachings but who are active in social justice campaigns in the persistence of LGBTQ Catholics who carve out tenuous shelters in a church that doesn t accept their full humanity and in the experiences of seminarians who work in the fields with migrants as part of their religious formation Throughout the book incorporates profiles of these Catholics weaves in on the ground reporting and examines trends that are essential in understanding the Catholic experience in the United States By illuminating the stories of these Catholics the book provides a richer portrait of American Catholicism than most people see in the media as well as offering living examples of a pastoral and prophetic Catholicism that can serve as inspiration for more systemic reform and renewal **The World's Carriers and Carrying Trades' Review** ,1928 The Builder ,1921
