Comet Madness Richard J. Goodrich, 2023-02-15 Halley's Comet visits the earth every seventy five years Since the dawn of civilization humans had believed comets were evil portents In 1705 Edmond Halley liberated humanity from these primordial superstitions or so it was thought proving that Newtonian mechanics rather than the will of the gods brought comets into our celestial neighborhood Despite this scientific advance when Halley's Comet returned in 1910 and astronomers announced that our planet would pass through its poisonous tail newspapers gleefully provoked a global hysteria that unfolded with tragic consequences In Comet Madness author and historian Richard J. Goodrich examines the 1910 appearance of Halley's Comet and the ensuing frenzy sparked by media manipulation bogus science and outright deception The result is a fascinating and illuminating narrative history that underscores how we behave in the face of potential calamity then and now As the comet neared Earth scientists and journalists alike scrambled to get the story straight as citizens the world over panicked Popular astronomer Camille Flammarion attempted to allay fears in a newspaper article but the media ignored his true position that passage would be harmless weather prophet Irl Hicks publisher of an annual pseudo scientific almanac announced that the comet would disrupt the world's weather religious leaders thumbed the Bible's Book of Revelation and wondered if the comet presaged the apocalypse Newspapers confident that there was gold in these alternate theories gave every crackpot a megaphone increasing circulation and stoking international hysteria As a result workmen shelved their tools farmers refused to plant crops they would never harvest and formerly reliable people stopped paying their creditors More opportunistic citizens opened comet insurance plans Others suffered mental breakdowns and some took their own lives Comet Madness reveals how humans confront the unknown how scientists learn about the world we inhabit and how certain people from outright hucksters to opportunistic journalists harness fear to produce a profit
