The Internet Encyclopedia Hossein Bidgoli, 2004 The Internet Encyclopedia in a 3 volume reference work on the internet as a business tool IT platform and communications and commerce medium **Shopping** Deborah C. Andrews, 2014-11-25 The degree to which shopping or more broadly consumerism is both critiqued and defended in American society confirms the role that commercial goods play in our daily lives This collection of essays provides case studies depicting selected aspects of this engaging activity The authors include several historians with diverging specialties an art historian an anthropologist an environmental journalist a geographer and urban planner and practicing artists Each author demonstrates how a material culture perspective a focus on the relationship between people and their things can illuminate a specific corner of consumption Connecting the essays are concerns about the spaces in which shopping occurs about the experience of shopping itself both individual and social and about its economic environmental and personal downsides Collectively these essays demonstrate how a material culture perspective on shopping yields insights into multiple aspects of American culture
