*Where Have All the Voters Gone?* Martin P. Wattenberg, 2009-07-01 In this timely book Martin Wattenberg confronts the question of what low participation rates mean for democracy At the individual level turnout decline has been highest among the types of people who most need to have electoral decisions simplified for them through a strong party system those with the least education political knowledge and life experience The Christian College (RenewedMinds) William C. Ringenberg, 2006-04-01 When it first appeared in 1984 The Christian College was the first modern comprehensive history of Protestant higher education in America Now this second edition updates the history featuring a new chapter on the developments of the past two decades a major introduction by Mark Noll a new preface and epilogue and a series of instructive appendixes *Harper's New Monthly Magazine*, 1878 *The Children of God* Ruth Wangerin, 1993-11-19 Wangerin examines one small symbolic revolution against American capitalist culture It was carried out by youth who were painfully and personally aware of the problems of what they called the System though they did not necessarily understand the underlying causes of their problems They called themselves the Children of God Wangerin studied the Children of God from 1973 1978 in the United States Mexico and Italy and has kept in touch with some of them ever since This is one of the most thorough studies of the controversial cult founded in 1968 by David Berg and the only ethnography that treats it as a mystical utopian socialist movement **Resources in education**, 1984 The New-Yorker Horace Greeley, Park Benjamin, 1841 **The W.B.A. Review**, 1919 The Promise of the New South Edward L. Ayers, 2007-09-07 Ranging from the Georgia coast to the Tennessee mountains from the power brokers to tenant farmers Ayers depicts a land of startling contrasts Ayers takes us from remote Southern towns revolutionized by the spread of the railroads to the statehouses where Democratic Redeemers swept away the legacy of Reconstruction from the small farmers trapped into growing nothing but cotton to the new industries of Birmingham from abuse and intimacy in the family to tumultuous public meetings of the prohibitionists He explores every aspect of society politics and the economy detailing the importance of each in the emerging New South Central to the entire story is the role of race relations from alliances and friendships between blacks and whites to the spread of Jim Crow laws and disfranchisement The teeming nineteenth century South comes to life in these pages

Allan Boesak,2019-10-30 In the decades since Black liberation theology burst onto the scene it has turned the world of  
church society and academia upside down It has changed lives and ways of thinking as well But now there is a question What  
lessons has Black theology not learned as times have changed In this expansion of the 2017 Yale Divinity School Beecher
