Lionel and Patricia Fanthorpe,1998-10-01 This is a collection of remarkable and mysterious people from all ages and places including our own *The World's Most Mysterious Objects* Patricia Fanthorpe,2002-10-01 Objects can carry romantic myths embody dangerous curses or provide links to our past Some mysterious items like the Hope Diamond can still be found today while others like the Philosophers Stone have vanished into the mists of time Gifted and sensitive psychometrists can apparently pick up an object and learn many things about its past and its previous owners The World's Most Mysterious Objects provides a glimpse into these enigmas exploring everything from psychic weapons and spiritual icons to alchemical experiments and strange devices With this intriguing book find out what secrets the world could be hiding *Unsolved Mysteries* Albert Jack,2018-05-08 From the Author of the Internationally Bestselling Books *Red Herrings* either one of the world's most famous or something on a much smaller scale But writing a book on just one of these would have been relatively easy The challenge came from researching many of them and then condensing them down in a way that I know you my reader will enjoy them And that is in short sharp informative sections that can be read on the train bus queue or whilst you are waiting to pick the kids up from school In other words the challenge was to explain each mystery in a way you can enjoy and absorb in about ten minutes flat Therefore inevitably some information will be missing for which I apologise in advance But the missing detail isn't critical to the basic story the core details of the mystery in question should all be in there And this brings me to an important point Given that I am a fan of the unknown and unexplained I have not set out to be a mystery buster in this series Instead I just wanted to tell the story reveal some little known detail and offer a rational explanation wherever I could I wanted to provoke a bit of thought and conversation wherever I could but leave you to decide the answer for yourselves does the story remain a mystery in your view or have you managed to piece together a theory of your own that you can share with friends Although to be fair I must admit there are some cases where I just couldn't resist presenting some of my own ideas and giving full rein to my scepticism But don't let that stop you from enjoying yourselves
