are correct Having a disability can be good for you You should never ever lie even to save a life You have no moral duty to obey the law You don't exist because there is no self Each chapter starts with a seemingly counterintuitive philosophical conclusion and a simple accurate description of the underlying argument supporting the conclusion including historical and cultural context This is followed by an outline of objections for the purposes of conversation and debate and a discussion of the implications of the idea or how it may relate to the reader's interests and attitudes Each chapter closes with suggested readings and a list of references for readers who want to learn more about the idea **Digital Talking Books Plus**, 2013
