Narrative Art and the Politics of Health Neil Brooks,Sarah Blanchette,2021-03-15 As countless alterations have taken place in medicine in the twenty first century so too have literary artists addressed new understandings of disease and pathology Dis ability studies fat studies mad studies end of life studies and critical race studies among other fields have sought to better understand what social factors lead to pathologizing certain conditions while other variations remain normalized While recognizing that these scholarly approaches often speak to identities with radically different experiences of pathologization this collection of essays is open to all critical engagements with narratives of health in order to facilitate the messiness of cross disciplinary collaboration and interdisciplinarity As scientific advances provide insight into a wide range of well being issues and help extend life it is vital that we come to question the very categories of healthy and unhealthy This collection brings together analyses of cultural productions which probe those categorizations and suggest new psychological and philosophical understandings which will help better apply and guide the knowledge being rapidly developed within the life sciences Right of health is a widely accepted human right but in applying a right to healthcare what care and what sort of health are less universally agreed upon The contributors share an interest in addressing who controls answers to the questions of how do we define a healthy body and a healthy life and what are the political forces that influence our definitions of health

Conflict of Interest in Medical Research, Education, and Practice Institute of Medicine,Board on Health Sciences Policy,Committee on Conflict of Interest in Medical Research, Education, and Practice,2009-09-16 Collaborations of physicians and researchers with industry can provide valuable benefits to society particularly in the translation of basic scientific discoveries to new therapies and products Recent reports and news stories have however documented disturbing examples of relationships and practices that put at risk the integrity of medical research the objectivity of professional

education the quality of patient care the soundness of clinical practice guidelines and the public's trust in medicine Conflict of Interest in Medical Research Education and Practice provides a comprehensive look at conflict of interest in medicine It offers principles to inform the design of policies to identify limit and manage conflicts of interest without damaging constructive collaboration with industry It calls for both short term actions and long term commitments by institutions and individuals including leaders of academic medical centers professional societies patient advocacy groups government agencies and drug device and pharmaceutical companies Failure of the medical community to take convincing action on conflicts of interest invites additional legislative or regulatory measures that may be overly broad or unduly burdensome Conflict of Interest in Medical Research Education and Practice makes several recommendations for strengthening conflict of interest policies and curbing relationships that create risks with little benefit The book will serve as an invaluable resource for individuals and organizations committed to high ethical standards in all realms of medicine

We've Got Issues Judith Warner, 2011-02-01 A bold brilliant and provocative look at childhood medication by New York Times bestselling author Judith Warner In Perfect Madness Motherhood in the Age of Anxiety the bestselling author and former New York Times columnist Judith Warner explained what's gone wrong with the culture of parenting and her conclusions sparked a national debate on how women and society view motherhood Her new book We've Got Issues Children and Parents in the Age of Medication will generate the same kind of controversy as she tackles a subject that's just as contentious and important Are parents and physicians too quick to prescribe medication to control our children's behavior Are we using drugs to excuse inept parents who can't raise their children properly What Warner discovered from the extensive research and interviewing she did for this book is that passion on both sides of the issue is ideological and only tangentially about real children and she cuts through the jargon and hysteria to delve into a topic that for millions of parents involves one of the most important decisions they'll ever make for their child Insightful compelling and deeply moving We've Got Issues is for parents doctors and teachers anyone who cares about the welfare of today's children

Forthcoming Books Rose Arny, 2002 **The Publishers Weekly**, 2010 Cultural Evolution and its Discontents Robert Watson, 2018-12-07 People worry that computers robots interstellar aliens or Satan himself brilliant stealthy ruthless creatures may seize control of our world and destroy what's uniquely valuable about the human race Cultural Evolution and its Discontents shows that our cultural systems especially those whose last names are -ism are already doing that and doing it so adeptly that we seldom even notice Like other parasites they've blindly evolved to exploit us for their own survival Creative arts and humanistic scholarship are our best tools for diagnosis and cure The assemblages of ideas that have survived like the assemblages of biological cells that have survived are the ones good at protecting and reproducing themselves They aren't necessarily the ones that guide us toward our most admirable selves or our healthiest future Relying so heavily on culture to protect our uniquely open minds from cognitive overload makes us vulnerable to hijacking by the systems that co-evolve with us Recognizing the selfish

Darwinian functions of these systems makes sense of many aspects of history politics economics and popular culture What drove the Protestant Reformation Why have the Beatles The Hunger Games and paranoid science fiction thrived and how was hip hop co opted What alliances helped neoliberalism out compete Communism and what alliances might enable environmentalism to overcome consumerism Why are multiculturalism and university trained elites provoking working class nationalist backlash In a digital age how can we use numbers without having them use us instead Anyone who has wondered how our species can be so brilliant and so stupid at the same time may find an answer here human mentalities are so complex that we crave the simplifications provided by our cultures but the cultures that thrive are the ones that blind us to any interests that don t correspond to their own You Can't Make Me!
