

SOLUTION MANUAL FOR

Healthcare Law and Ethics, 2025 7th Edition by Bonnie F. Fremgen

Chapter 1-14

1 Introduction to Healthcare Law, Ethics, and Bioethics

CHAPTER SYNOPSIS

The study of medical ethics, or applied ethics, is necessary for healthcare professionals who often face dilemmas that are not experienced by the general population. The fast-paced growth of medical technology has made the study of ethics even more relevant. The study of bioethics, or biomedical ethics, refers to moral dilemmas that result from advances in medicine and medical research. Since medical law and ethics are often interrelated, students need to have a clear understanding of both in order to protect themselves, their employers, and their patients. This chapter includes the similarities and differences between ethics, bioethics, and the law. Additionally, the learner is given a simple three-step paradigm to follow in order to assess whether a particular behavior is perhaps unethical. There are numerous questions in the study of ethics to which there is no single correct response. The student must become comfortable discussing and debating these issues.

Chapter Lecture Outline	Instructor's Notes
I. Introduction A. Individuals cannot practice medicine without an understanding of ethics and the law. B. Applied ethics—the practical application of moral standards that are meant to benefit the patient. C. Medical practitioners must adhere to certain ethical standards and codes of conduct. D. Bioethics refers to moral dilemmas and issues that are a result of advances in medicine and medical research. E. Ethical behavior is that which puts the common good above self-interest. II. Why Study Law, Ethics, and Bioethics? A. Our primary duty is to protect our patients from harm and to promote good patient care. B. We all believe we know right from wrong. C. We do not always make the “right” or correct ethical decisions, particularly in times of high stress or crisis. D. It is important to know the law. We live in a litigious society. E. What is illegal is almost always unethical. F. It is important to learn how to think about the ethics behind an action and then how to translate those thoughts into action.
