Kendig, Lane Kendig, Bret C. Keast, 2010-07-15 The book Kendig has written is a comprehensive treatment of community character and how and why this should be a primary consideration when zoning and regulating urban and rural areas Kendig states that community character presents a tested theory of planning based on visual and physical character that offers practical tools to measure and plan communities The strength of this book is that it provides tools to measure or analyze design issues It also differs from the existing books on the topic because it takes a more flexible approach to regulating design Smart Code has been very popular because it provides specifics on rezoning or doing overlay zoning for livability but it is very rigid LEED Neighborhood Development is still in its infancy pilot projects and is also prescriptive and flawed **Urban Design** Alex Krieger, William S.
