Stoltman,2012 This is a theoretical and practical guide on how to undertake and navigate advanced research in the arts humanities and social sciences *Urban Agriculture for Growing City Regions* Undine Giseke,Maria Gerster-Bentaya,Frank Helten,Matthias Kraume,Dieter Scherer,Guido Spars,Fouad Amraoui,Abdelaziz Adidi,Said Berdouz,Mohemed Chlaida,Majid Mansour,Mohamed Mdafai,2015-09-07 This

book demonstrates how agriculture can play a determining role in integrated climate optimised urban development Agriculture within urban growth centres today is more than an economic or social left over or a niche practice It is instead a complex system that offers multiple potentials for interaction with the urban system Urban open space and agriculture can be linked to a productive green infrastructure this forms new urban rural linkages in the urbanizing region and helps shape the city But in order to do this agriculture has to be seen as an integral part of the urban fabric and it has to be put on the local agenda Urban Agriculture for Growing City Regions takes the example of Casablanca one of the fastest growing cities in North Africa to investigate this approach The creation of synergies between the urban and rural in an emerging megacity is demonstrated through pilot projects design solutions and multifunctional modules These synergies assure greater resource efficiency particularly regarding the use and reuse of water and they strengthen regional food security and the social integration of multiple spheres A transdisciplinary research approach brings together different scientific disciplines and local actors into a process of integrated knowledge production The book will have a long lasting legacy and is essential reading for researchers planners practitioners and policy makers who are working on urban development and urban agricultural strategies

Geographers Elizabeth Baigent, André Reyes Novaes, 2017-12-14 *Geographers Biobibliographical Studies* Volume 36 focuses on 20th century Britain and 19th and 20th century France Six essays on individual geographers are complemented by a group article which describes the building of a French school of geography From Britain the life of Sir Peter Hall one of the most distinguished geographers of recent times and a man widely known outside the discipline is set alongside memoirs of Bill Mead who made the rich geography of the Nordic countries come alive to geographers and others in the Anglophone world Michael John Wise and Stanley Henry Beaver who made their mark through building up the institutions where academic geography was practised and through teaching and Anita McConnell whose geographical training shaped her museum curation and studies of the history of science From France the individual biography of Andr Meynier is juxtaposed with group article on the first five professors of geography at Clermont Ferrand These intellectual biographies collectively show geography and geographers profoundly affected by wider historical events the effect of war particularly the Second World War and the shaping of post war society They show the value of geographical scholarship in elucidating local circumstances and in planning national conditions and as a basis for local national and international friendship

Global Urban Growth Donald C. Williams Ph.D., 2012-04-06 This book examines the rapid expansion of urban areas worldwide especially within the previous 50 years identifying the factors that have contributed to this phenomenon and exploring its many consequences Global Urban Growth A Reference Handbook examines urbanization and the challenges associated with rapid urban growth and urban sprawl from a truly global perspective rather than presenting only a limited exploration of the subject by addressing a single city country or region Investigating urbanization and related policy challenges as both a general phenomenon of all modern societies and one that varies greatly in different regions of the world

the book charts different growth trajectories in these societies and varying policy responses Significant variations in culture historical background economic factors and political and social development are considered A chapter on the United States and Canada documents how urbanization trends have occurred in North America and presents our policy approaches in comparison and contrast with the rest of the world The author offers a balanced overview by marshaling the facts and clearly presenting both the benefits and the drawbacks for readers

Urban Christianity and Global Order Andrew Davey, 2001 An introduction to urban theology and mission which takes into account the rapid spatial social and religious changes associated with urbanisation and globalisation Beginning with a definition and description of key terms the book then examines the characteristics of contemporary urban experience and examines the response of the Church to this reality Finally the book offers a number of theological resources for Christian presence and witness in towns and cities with glimpses of future issues and trends
